OFFICIAL PAPER OF THE CITY

FRIDAY, JULY 10.

REPUBLICAN PRESIDENTIAL TICKET.

For President: Wm. McKinley, of Ohio.

For Vice-President: GARIBOLDI A. ROBERT, of New Jersey.

For Presidential Electors: T. E. GERR, of Marion County.

S. M. YORAN, of Lane.

R. L. SMITH, of Wasco.

E. C. CAPLES, of Multnomah.

Amidst the noise will be raised in the Chicago convention to last through the campaign.

The INDEPENDENT does not claim because he printed the Y. P. S. C. E. prayer books, that Mr. Craig is a Christian.

"The American crew worked hard, but Leander won." This is the head line that announces the defeat of the Yale rowing crew by the English crew.

One of the most suggestive political cartoons of the summer is that published by the Oregonian of Wednesday morning.

The silver men are in the saddle at Chicago and are riding over all opposition. Where there are contesting delegations—one silver and the other sound money—the silver delegation is admitted.

The money resolution agreed upon in the subcommittee of the Chicago democratic convention reads: "We demand the immediate restoration of the free and unlimited coinage of gold and silver at the present legal ratio of 16 to 1 without waiting for the aid or consent of any other nation."

The Kansas City Journal states that Missouri is reducing its state debt and accounts for it by considering that the cotton wealth is not dependent for its revenue on the Wilson bill.

"Great and self-reliant as our country is, it is not alone within its own borders and upon its own resources, but because it also reaches out to the ends of the earth in all manifold departments of business, exchange and commerce, and must sustain with honor its standing and credit among the nations of the earth."

"My estimate of the value of a protective policy has been formed by the study of the object lesson of a great industrial state extending over a period of 30 years. It is that protection not only builds up important industries from small beginnings, but that those and all other industries flourish or languish in proportion as protection is maintained or withdrawn."

THE NEW PARTY.

The new bimetallic party organized in this county last Monday. The leading spirits of the new organization has but one plank, the unlimited coinage of silver at a ratio of 16 to 1.

DEMOCRATIC PLATFORM.

The platform agreed to by the full committee of the Chicago democratic convention declares briefly for the free and independent coinage of silver, without the co-operation of any other nation; for a tariff for revenue sufficient to pay the running expenses of the government economically administered; for a constitutional amendment for an income tax, against federal interference in local affairs; against a third term; for simplicity and economy in national affairs; against a refunding of the Pacific railroad debt; condemns the issue of bonds in time of peace, and virtually condemns the civil-service law.

ROBERT ACCEPTS THE NOMINATION.

A committee from the St. Louis convention officially notified G. A. Robert, of New Jersey, of his nomination, by the republicans, for the vice presidency. After acknowledging the honor conferred and accepting the nomination he said: "Let me add that it will be my earnest effort in the coming campaign to contribute in every way possible to the success of the party which we represent, and which as to the important issues of the time, stands for the best interests of the people."

"Uncertainty or instability as to the money question involves most serious consequences to every interest and to every citizen of the country. The gravity of this question cannot be overestimated. There can be no financial security; no business stability; no real prosperity where the policy of the government as to that question is all a matter of doubt."

"It is a fundamental principle in coinage, recognized and followed by all the statesmen of America in the past and never yet safely departed from, that there can only be one basis upon which gold and silver may be concurrently coined as money, and that basis is equality, not in weight, but in the commercial value of the metal contained in the respective coins. This commercial value is fixed by the markets of the world with which the great interests of our country are necessarily connected by innumerable business ties which cannot be severed or ignored."

"The question admits of no compromise. It is a vital principle at stake, but it is in no sense partisan or sectional. It concerns all the people. Ours, as one of the foremost nations, must have a monetary standard equal to the best."

"It is of vital consequence that this question should be settled now, in such a way as to restore public confidence here and everywhere in the integrity of our purpose. A doubt of that among the other great commercial countries of the world will not only cost us millions of money, but that which as patriots we should treasure more highly, our industrial and commercial supremacy."

"I am firmly persuaded that what we need most of all to remove the business paralysis that afflicts this country is the restoration of a policy that while affording ample revenue to meet the expense of the government, will reopen American workshops on full time and full hands, with their operatives paid good wages in honest dollars. And this can only come under a tariff which will hold the interests of our own people paramount in our political and commercial systems."

FREE COINAGE OF IRON.

The New York World prints the following valuable suggestions put forward by Alex. P. Hull, of Atlanta, Georgia. Hull says: "Having been deeply impressed by the arguments of Judge Crisp, Bryan, Stewart, Jones and other silver leaders, and especially grieved and shocked and horrified by the awful crime of '73' so luridly depicted daily in the columns of the Atlanta Constitution and other silver organs, I have changed my views on the money question and am ready to maintain the propositions following in joint debate or newspaper controversy."

FREE COINAGE OF IRON.

I accept the arguments of the advocates of silver and agree with their remedy so far as it goes. However it does not go far enough. Let us have plenty of remedy; in fact, enough to make debt and poverty things of the past—relics of the dark ages.

I am in favor of the free and unlimited coinage of pig iron at a ratio of 16 to 1 with gold by the United States alone, independently of all nations, and can prove by the best authority obtainable that such a policy on the part of the United States will "raise prices," "put plenty of money in circulation," and give the "honest debtor relief," making the whole country prosperous.

"Now, in the first place, it may be urged" by some who do not understand the subject of standards of value "that a free coinage act for iron would not raise its price to a ratio of 16 to 1 with gold." To them I reply "the stamp of this government" and the "legal tender qualities" of the iron dollar would instantly make the bullion value of pig iron the same as the mint value. "For who would part with and ounce of this precious metal for anything less than the mint value?" Stewart, Jones and Bryan.

Again, it may be urged that our mint would be over crowded with pig iron having been raised from \$7.50 a ton to a ratio of 16 to 1 with gold the world over no one would especially care to carry it to the mints since the mint price could be obtained anywhere in the open market.—Atlanta Constitution.

Next, it may be urged that gold and silver would go out of circulation. I reply: first, this is a mere assumption of the tools of the money power which they cannot verify.—Atlanta Constitution; second, "Suppose gold and silver do go out of circulation, is there not plenty of pig iron to take their place and give the people plenty of money?" Bryan; third, "that such an assumption mixes the idea of circulating medium and standard of value—that gold and silver would still be potential money metals, though not in circulation, and would lend their help towards raising prices and causing general prosperity."—Crisp.

Then again it may be urged against the pig iron standard of value that wages would not rise in proportion to prices. The reply is: "Wages would be compelled to rise since no man would be fool enough to work for \$1 who could make \$1,000 per day picking up rusty nails and old horseshoes and carrying them to the mint for coinage."—Hull.

In addition, it may be urged by the money power, by the "Wall street sharks" and the "Bond street shillcock" that we could not alone go on a pig iron basis without an international agreement. "To such standards as dare to lay a limit to the power of the American people to do what they please, independent of all nations, I hurl their cowardice and lack of patriotism back in their faces."—Bryan.

A ruinous fall in prices followed the demonetization of iron and has continued for upward of two thousand years. I have calculated the losses entailed upon the honest people of this world by that ruthless act, but the figures are so enormous I fear a revolution will ensue if the people learn how greatly they have been robbed. But facts are facts, and the best way to right a wrong is to meet it squarely. "That loss is \$21,000,000,000,000,000,000,000,000."—Coin's Financial School.

THE UNSETTING OF THE MICHIGAN GOLD DELIGATION BY THE SILVER COINAGE WING OF THE DEMOCRATIC PARTY IN THE CHICAGO CONVENTION IS AN OUTRAGE THAT IS CONDEMNED BY MANY SILVER DEMOCRATS THEMSELVES.

The Converse (Ind) Journal asks, "If it is a good thing to blow 50 cents worth of flat into a silver dollar, why isn't it a better thing to blow a dollar's worth of flat into a greenback and save the fifty cent's worth of labor which is required to get the silver dollar?" That is just what the populists advocate here last spring in their nominating convention. It is admitted that the speech was made before he had been "instructed" He howled free silver afterward.

THE BI-METALLISTS.

The State Convention of the bi-metallic party met at McMinnville yesterday. There were about 90 delegates present. Had all the counties been fully represented, the convention would have been composed of nearly 500 delegates. D. P. Thompson, of Multnomah county, was in attendance. The usual free silver 16 to 1 resolution was adopted, but a resolution offered by Judge Boise, of Marion, endorsing the initiative and referendum method of legislation was voted down. Delegates to the St. Louis Free Silver National Convention were chosen, but no presidential electoral ticket was named. The convention adjourned last evening. Very little enthusiasm was apparent.

THE DISASTER IN VIEW.

The commercial value of an article is fixed by the supply and demand. At present that fixes the price of wheat in the Chicago market at fifty-six cents. No legal statute could make it sell at double that for any length of time. The commercial price of silver now, as compared to gold, is about 31 ounces of silver to 1 of gold. The silverites want to enact a law that the price shall be about double that, or 16 to 1. No person will be foolish enough to sell

NEW BUSINESS.

Having rented the Warehouse at East end of Madison Street Bridge and Railroad Track, East Portland, for a term of years, I am prepared to handle Flour, Grain, Mill Feed, Hay, &c.

I WILL DO A COMMISSION BUSINESS.

Also Buy and Sell. Cheap Storage. Side-track to building. 1700-foot floor space. I Load and Unload Cars. Truck to any part of the City on short notice. I have as good a stand as there is in the City for Business. I will have a Chop mill in connection. I solicit a share of your orders.

A. S. DUDLEY,

816 Hawthorn Avenue. EAST PORTLAND, OREGON.

THE DELTA DRUG STORE

SPECIAL ATTENTION to Quality and Accuracy in Dispensing. AT LOWEST PRICES. A Fine Line of Toilet Articles, Patent Medicines, School Books, &c.

PACIFIC UNIVERSITY

THREE COLLEGE COURSE. CLASSICAL, SCIENTIFIC, LITERARY. The Acadmey prepares for College and gives a thorough English Education, the best preparation for teaching or business. All expenses very low. Board and rooms at the Ladies' Hall \$3 to \$4 per week, including electric light and heat.

THE COLLEGE DORMITORY

Under excellent management, furnishes board and room at \$2.25 per week. Many students rent rooms and board themselves at a total cost not to exceed \$1.50 per week. For full particulars, address PRESIDENT McCLELLAND, Forest Grove, Oregon.

Fortunes

are lost annually. Directly and indirectly, by people who cannot do their own figuring, write their own letters, or keep their own books; and who do not know when business and legal papers which they must handle every day are made out correctly. \$27.50 in these things, and much more, we teach thoroughly.

Portland Business College,

A. P. Armstrong, Prin. Portland, Oregon. J. A. Wasco, Secretary.
