Best. Rest. Test.

There are two kinds of sarsaparilla: The best-and the rest. The trouble is they look alike. And when the rest dress like the best who's to tell them apart? Well, "the tree is known by its fruit." That's an old test and a safe one. And the taller the tree the deeper the root. That's another test. What's the root, - the record of these sarsaparillas? The one with the deepest root is Ayer's. The one with the richest fruit; that, too, is Ayer's. Ayer's Sursaparilla has a record of half a century of cures; a record of many medals and awards -culminating in the medal of the Chicago World's Fair, which, admitting Ayer's Sarsaparilla as the best-shut its doors against the rest. That was greater honor than the medal, to be the only Sarsaparilla admitted as an exhibit at the World's Fair. If you want to get the best sursuparilla of your druggist, here's an infallible rule : Ask for the best and you'll get Ayer's. Ask for Aver's and you'll get the lest.
