OFFICIAL PAPER OF THE CITY

FRIDAY, MAY 7, 1897.

Senator McBride of Oregon succeeds Watson Squire of Washington, as chairman of the coast defense committee.

Chas. F. Lord, District attorney in the 4th judicial district, Portland is in no way related to Gov. W. P. Lord, of Salem.

It is proposed to make an independent treaty with Hawaii to take the place of the section of the Dingley bill stricken out in the senate.

Ralph Moodey went to Salem a few days ago to bring a mandamus suit to compel the secretary of state to audit his claim. Mr. Moodey was clerk of the Davis house.

If the Turkish government owed the money institutions of the powers less money, the "Sick Man" would be killed without much ceremony. The debt is said to be $700,000,000.

It will be noticed that the Sultan borrows military officers from a Christian nation to furnish his army with strategy. He appreciates civilization if he can corrupt it for his own uses.

The possession of a forgiving spirit is all that will restrain the San Francisco Examiner from getting even on the Oregonian, now that the report of the last Multonomah county grand jury has been published.

The gall of these foreigners! Now Japan is proposing a commission to influence our ways and means committee in fixing the duty on silk. Just because they whipped a few Chinamen last year, they want to finger our pie. Burnie, burnie.

The U. S. senate rejected the American-English arbitration treaty on Wednesday, there wanting three votes to make a constitutional majority. It is perhaps just as well. Let every dispute which shall hereafter arise between the two governments be settled on its individual merits.

Yesterday morning's news reports state that the fiercest battle of the war was fought on Wednesday at Velestino, Greece, and that the Turkish army numbering 40,000 was repulsed. This does not end the struggle. It was expected that the contest would be renewed yesterday, Thursday.

U'Ren, the populist, is swinging around the circle training for the congressional race in '98, but his reception does not seem to be the most cordial. A report of one of his meetings in Jackson county, found in a local paper states that resolutions were adopted condemning the action of U'Ren and his associates.

Portland papers are wondering what will be the life of the wooden pavements now laid on 1st and 4th streets in that city. If they last then it is economy to put them down. It will probably be found that decay will set in all too soon and then the same papers will discover that the health of the city is in peril. What the city ought to do is to creosote the blocks by the S. P. Co.'s wood preserving process. This would double the life of the blocks at least and prevent poisonous gases from arising.

Factory smoke breeds republicanism. The springing up of factories throughout the South has been followed by a growth of protective sentiment and republican membership in congress from that section. More than thirty votes from the South were cast for a protective tariff measure in the house, and the Southern states had thirty-three members in the last congress, while in no preceding congress had the party been represented by more than half that number from that section. When democrats from North and South Carolina, Alabama, Mississippi, Louisiana and Texas join with the republicans in supporting protective views and a protective tariff bill, there can remain no doubt of the growth of republican principles in that section.—Mist.

Our fathers who framed our constitution were wise and far-seeing men. They stipulated that our president must be selected from the native born citizens of the nation thus providing as far as a general statute can, for the choice of a patriotic chief magistrate. How different in some of the kingdoms of the old world. King George, a Dane, sits on the throne of Greece and put there, not by the sufferages of the subjects he is expected to govern, but by the votes of England, Germany, Russia, Austria, France and Italy. Same of Roumania and Bulgaria. Under the circumstances it is not very strange that George should get sick just at this crisis, and seek a change of air to be breathed on a remote Island away from the possible spatter of estray Turkish bullets. The "last ditch" patriotism that provoked some degree of merriment during the great rebellion in our own county is a good possession for a ruler particularly when the passion is genuine.

WHO IS RESPONSIBLE.

Hon. Carl Schurz is quite active with his pen in opposing the republican party and its policy. In a recent issue of Harpers Weekly he had an article pointing out what he termed the "grave responsibilities" of the party, and in the May McClure's he has another long article lauding the administration of President Cleveland. Of that administration it may be remarked that there are a good many men in America who regarded it as a failure.

In the Harper's Weekly article he applies to the republicans who support the Dingley bill that old saw where he calls them "blind partisans who never learn and never forget anything" and says: "The events of the last ten years cannot have failed to teach them the important lesson that neither of the two great parties commands votes enough to be sure of carrying a general election without the aid of the constantly increasing number of citizens whose (political) action is not controlled by party allegiance."

If this assertion is true it means that this government is controlled by electors who have no fixed political principles. They waver and are influenced by trivial things. A further deduction is justifiable. If this element holds the balance of power, it is, itself, responsible for the times. The INDEPENDENT charges this responsibility. In 1888 the mugwump leaders, of whom Mr. Schurz was one, created great uneasiness in some directions because of the surplus that was piling up in the treasury. They asserted that the money of the country would be withdrawn from circulation and hidden in the vaults of the Treasury. Grave disasters were predicted and some voters were actually frightened. This over collection of revenue was under the Morrill tariff law. The republicans carried the elections that year because they promised a new tariff bill that would collect less revenue and reduce the surplus. The pledge was fulfilled. The McKinley law of 1890 was the result. It reduced the revenue gathered so that the income was no greater than the disbursments. Many articles that had before been taxed were put on the free list. The republican idea for the first time was generally adopted. Foreign articles that come in competition with American products were taxed. This levied a duty on tin plate. The campaign of '92 was fought almost exclusively with that tin plate. Tariff reform generally was the issue. The mugwump "balance of power" changed the policy and the country was under the shadow of free trade, but republicans deny the existance of that wavering contingent. They do charge though that a great mass of voters were deceiued in 1892, by the vociferous declarations of men like Mr. Schurz. However the conditions which logically followed the democratic victory of 1892—conditions predicted by repeblicans undeceived them, which the change of public sentiment in '94 and '96 proove. Now the republicans commence to keep their pledges—enact a tarriff for protection and maintain sound money.

Mr. Schurz now claims superior public virtue. He does not posess it though, to a greater degree than members of the democratic or the republican parties. He is trying to deceive voters as he did in '88. Mr. Schurz ought to blush with shame to announce that he belongs to a party with no fixed political principles—a party unable to formulate a governmental policy. The mere fact that the government is manned by republican officials will not restore prosperity to the country, All those officials can do is to administer their several port-folios honestly. That was done by the democrats yet a big wave of depression threatens to swamp the country. If there are indications that this will be stayed it is the promise that the revenue laws of the country will be remodled upon republican lines and that the coinage laws will at least be maintained as they now exist. If Mr. Schurz has no policy of his own he ought to assist the republicans in putting theirs on the statute by keeping silent.

TARIFF BILL REPORTED.

The Senate finance committee on the 4th instant reported the Dingley tarriff bill to the senate to the great surprise of senators and the public. The vote to report was ayes 6, nays 5, Jones of Nevada voting with the republicans. Aldrich announced that he will call up the bill May 18th.

There have been some changes made. One is that instead of being retroactive the law takes effect July 1st.

The house provision for reciprocity is stricken out but where foreign nations pay an export bounty greater than our duty, then our tariff tax on that article is to be increased till it equals the bounty. The section retaining the Hawaiian reciprocity is stricken out.

Distilled wines of 14 per cent alcohol or less are taxed 30 cents per gallon. Those containing over 14 per cent alcohol are taxed 50 cents per gallon. Brandy is reduced from $2.50 per gallon to $2.25. The same reduction is made on cordials.

Lead ore is to pay a duty of 1½ cents per pound instead of 1. This favors the silver miner. A level duty of 75 cents per ton is imposed on coal, except from those counties that do not impose a higher duty than imposed by this bill when 60 cents shall be collected.

The tax on beer is increased to $1.44 per barrel until January 1, 1900, after which the tax is $1.

First class wools were reduced from 11 cents to 8; second class from 12 to 9. The tax on third class wools was raised; that class worth 10 cents is raised from 32 per cent advalorem to 4 cents specific. Wools valued at more than 10 cents are raised to 7 cents specific instead of 50 per cent advalorem.

Three sections of the Dingley bill are stricken out and the following inserted:

"362—Wool and hair which have been advanced by any process of manufacture beyond the washed or scoured condition, not specially provided for in this act, shall be subject to the same duties as are imposed upon manufactures of wool not specially provided for in this act, shall be subject to the same duties as are imposed upon manufactures of wool not specially provided for.

"363—On yarns made wholly or in part of wool, valued at not more than 35 cents per pound the duty per pound shall be two and one-half times the duty imposed on a pound of unwashed wool of the first-class, and in addition upon all of the foregoing 40 per cent advalorem.

"365—On cloths, knit fabrics and all manufactures of every description not specially provided for, valued at not more than 40 cents per pound, the duty shall be three times the duty imposed on unwashed wool of the first class; valued at about 40 cents and not above 70 cents; four times the duty on unwashed skirted wool of the first class, and in addition on all the foregoing 50 per cent advalorem; valued at over 70 cents per pound; four times the duty on unwashed skirted wool of the first class, and 55 per cent advalorem."

The blanket paragraph is changed as follows:

The blankets and flannels are increased from 30 to 40 cents per pound, and it is provided that the same as that imposed upon one and one-half pounds of unwashed wools An aditional duty is allowed of 30 per cent ad valorem, instead of the house rate. On these articles, valued at more than 40 cents and not more than 50 cents per pound, the duty is made equal to two and a half times that on one pound of unwashed wool instead of three times that, as provided in the house bill, and an ad valorem of 25 per cent is added, instead of the house rate. On blankets valued at more than 50 cents per pound, the rate is made three times that of unwashed wool, and an ad valorem duty of 50 per cent. is added.

Women's and children's dress goods, coat linings, etc., valued at 15 cents per yard and less, are rated at 5½ cents per yard instead of 7 cents, as in the house bill, while articles of this class, valued at more than 15 cents, are reduced from 8 to 6½ cents per yard, and 25 per cent ad valorem, instead of 20 per cent as the house bill added on all of them. The above applies to goods the wrap of which consists wholly of cotton or other vegetable material.

On women's and children's dress goods, etc., which are composed wholly or in part of wool, and not specially provided for, the duty is reduced from 11 to 9 cents per yard with an ad valorem of 50 per cent added.

The rate of webbing, gorings, suspenders, etc., is reduced from 60 to 40 cents per pound, though the ad valorem addition of 60 per cent. is not changed.

There are several changes in carpets, Orientals, Berlin and other similar rugs, as well as carpets woven in whole for rooms, are removed from the paragraph relating so Aubusson and Axminister carpets and are incorporated in a new paragraph which provides for a duty on them at 20 cents per square foot and 10 per cent. ad valorem, when they are valued at not more than 40c per square foot; valued at more than 40 cents and not more than $1, 40 cents per square foot and 20 cents ad valorem; valued at $1 and not more than $2 75 per square foot and 25 per cent. ad valorem. Treble ingrain and all chained Venetian carpets are increased from 19 cents per square yard to 25 cents, and wool Dutch two-ply ingrain from 14 to 20 cents per yard.

A paragraph is added specifically providing "that all article, fabrics and manufactures, however described, of which wool is a component material, shall be classified and shall pay the duties imposed by the several paragraphs of this schedule."

A tax of 1 cent per cubic foot is levid on imported timber—hewn squared or round, and $2 00 per thousand on rough boards. On lumber planed on one side and tongued and grooved, 70 cents additional is charged instead of $1. On shingles, the house rate of 35 cents is changed to 25 cents per thousand. Poplar and other pulp woods, heading bolts, stave bolts and rail road ties are placed on the free list. An internal revenue tax of 8 cents per pound is laid on tobacco and on cigars and heavy cigarets $3 per thousand, but light cigaretts weighing not more than 3 pounds to the thousand, $1 per thousand. Imported tobacco must pay the duty of $1.50 per pound.

Sugars not above 16, dutch standard, pay 1 cent per pound. The finer grades pay one-fifth per cent more. Low grade molasses pay 4 cents per gallon better grades pay 8 cents. Machinery imported to be used in beet sugar making comes in free until after July 1, 1899.

A duty of 10 cents per pound is levied on tea until Jan. 1 1900 after which it shall be admitted free again. That section of the bill is a free trade feature and is a departure from the republican idea.

The section imposing a duty on hides is in these words:

"Hides, cattle, raw or uncured, whether dry, salted or pickled, ½ a cent per pound; provided that upon all leather exported made from imported hides there shall be allowed a drawback equal to the amount of duty paid on such hides."

Cattle valued at less than $10 a head are dutiable at $4 per head; over $10 $8 per head.

There are numerous changes in the provisions in regard to fruits and nuts. Apples, peaches and other edible fruits, when dried are reduced from 2 cents to 1 cent per pound, and berries are stricken from the dutiable list. The paragraph in regard to preserved fruits, sweetmeats, etc., is changed so as to provide for an additional duty of $2.50 per gallon on the alcohol contained in such preserves in excess of 3 per cent. Jellies are dutiable at 35 per cent. ad valorem, and pineapples preserved in their own juice, at 25 per cent. ad valorem.

The duty on figs, plums, prunes, raisins and other dried grapes is reduced from 2½ cents per pound to 2 cents, and on olives in bottles or jars from 25 to 20 cents per gallon.

Grapes are made dutiable at 20 cents per cubic foot, instead of 1 cent per pound.

Oranges and lemons and other citrus fruits are placed at 1 cent, instead of ½ of a cent, as in the house bill. All the provisions of the house relating to citrus fruits are stricken out, as is also the house paragraph in regard to orange and lemon peel. For this last paragraph a substitute is provided, containing the same rates as the house bill, but making a slightly different classification.

Almonds are reduced from 5 to 3 cents per pound; filberts from 3 to 2½ cents when not shelled, and from 6 to 5 cents when sheeled; peanuts, unshelled, from 1 cent to ½ cent per pound; nuts not specially provided for, from 1½ cents to 1 cent per pound.

The amount of revenue that the amended bill will raise has not been given out, though members of the finance committee say that it will meet the necessary expenditures of the government.

DIED.

FLINT—At Scholls' Ferry, April 29th, Julia E., wife of Benjamin T. Flint, aged 49 years and 3 days,

Mrs. Flint, the daughter of Samuel Lawrence, was born April 26th, 1847, Worcester county Massachusetts. Her father was a man of considerable note, a native of Maine, and of English ancestory. Her marriage occured October 21, 1868. The next year, 1869, she came to Oregon with her husband. The same year a part of the Thomas D. Humphreys Donation Land Claim was purchased for a home and there the residence has been ever since.

Mrs. Flint, as a neighber was dearly beloved by all, being ever ready to lend a helping hand in time of need; as a wife, she was faithful; as a mother, devoted. She was a christian in the truest sense of that term for she made her profession practical in her daily life. Her stalwart boys who just now are taking their stations of influence among the first citizens of the county testify of her sterling character. The deceased was confined to the house for 9 months, most of the time to her bed. At the first her case was not without hope, but the attack was malignant and no permanent relief was obtained notwithstanding the best medical skill in the northwest was called. During this illness she was always cheerful and sought to lighten the care of her attendants. She seemed to have more concern for the anguish her sickness caused her family than the suffering she personally endured. Her husband and two sons, Arthur B. and Harry L. mourn her absence from their home.

There has been a lull in the battles between the Greeks and Turks during the past week. Such was to be expected. When they begin again the real work of the campaign will be done. It may end in a day, and it may last all summer, depending upon the success of the Greeks.

Evidences are accumulating daily that there is no longer a solid South. Several congressmen from the South supported the Dingley tariff bill, and now later, Mills of Texas votes against Morgan of Alabama on the rejection of the Arbitration treaty.

The Ins and Outs of It.

If you get best wear out of a coat, best work must have gone into it. You can't get good bread out of poor flour.

Moral: You can't get the best out of anything, unless the best is in it; and the best has to be **put** in before it can be taken out. Now, we have a rule to test those sarsaparillas with a big "best" on the bottle. "Tell us what's put in you and we'll decide for ourselves about the best." That's fair. But these modest sarsaparillas say: "Oh! we can't tell. It's a secret. Have faith in the label." . . . Stop! There's one exception; one sarsaparilla that has no secret to hide. It's Ayer's. If you want to know what goes into Ayer's Sarsaparilla, ask your doctor to write for the formula. Then you can satisfy yourself that you get the best of the sarsaparilla argument when you **get Ayer's.**

Any doubt left? Get the "Curebook." It kills doubts but cures diseases. Address: J. C. Ayer Co., Lowell, Mass.

MARRIAGE LICENSE.

License to wed was issued May 1st to John J Reiff aged 29 years and Hattie M Hughson aged 20 years.

COUNCIL PROCEEDINGS.

The council met in regular session, absent Mayor Barrett and Councilman Stanley.

The bills presented and referred to the finance committee were:

A W Lane, Marshals salary	$20 00
A W Lane, Killing dogs	8 00
Light & Water Co. April bill	105 55
Argus, Pub. Treas. notice	3 00
C R Bloyd, Lumber	25 22
Total	$161 77

The committee approved the bills and warrants to pay the same were voted.

License to sell spiritous malt and vinous liquors, was granted to H. V. Wiley and to E. J. Lyons for a period of six months, they having filed their bonds in the sum of $1000.00 and the Treasurer's receipt for $200 each.

The street committee reported that the Leverich barn is not in the street and there is no reason for complaint.

The light and water committee reported that repairs of fire apparatus are needed. The committee was instructed to repair the truck wheels and the ladders and to purchase two new axes.

The grand Jury of Multnomah county reports that there is an organized gambling trust in Portland composed of four houses that contributes one-fourth of the income to create a corruption fund with which to buy off criminal prosecutions. The district attorney charges that he drew many indictments against gamblers, but that the grand jury would not hear testimony or sign the complaints. And there you are.

Degenerate senate or no degenerate senate, what seems to be most needed in that body is a good republican majority. As long as there was doubt about how Jones of Nevada would vote, the tarriff bill could not be reported but when Jones unmasked a prompt report by one majority was made. So much for protection. A like republican majority would insure sound money legislation. The republican party is pledged to maintain the currency at its present standard and this it will do since the party has votes enough in the house to prevent legislation providing for the free coinage of silver.

The Best Remedy for Rheumatism.

Mr. James Rowland in this village states that for twenty-five years his wife has been a sufferer from rheumatism. A few nights ago she was in such pain that she was nearly crazy. She sent Mr. Rowland for the doctor, but he had read of Chamberlain's Pain Balm and instead of going for the physician he went into the store and secured a bottle of it. His wife did not not approve of Mr. Rowland's purchase at first, but neverless applied the Balm thoroughly and in an hour's time was able to go to sleep. She now applies it whenever she feels an ache or a pain and finds that it always gives relief. He says that no medicine which she had used ever did her as much good. The 25 and 50 cent sizes for sale by The Delta Drug store.

Beware of Ointments for Catarrh that Contain Mercury,

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists, price 75c. per bottle. Hall's Family Pills are the best.
