The Shasta Special train that has been running between Portland and San Francisco every five days, has been taken off but the low rates of \$10 and \$5 applies to the daily trains between these cities. The train leaves Portland every evening at 6 o'clock.

Mr. E. B. Sapington has bought the interest of F. J. Williams in the Hillsboro livery stable on Main street. Mr. Sapington has many friends and will without doubt meet with success in this venture. Mr. Williams goes on a farm where he knows he will succeed.

The friends of Anton Planner report that they found him in a hospital at the last regular meeting. Mr. Huff his brother-in-law went after him last Saturday. None of the particulars of his sickness have been made public.

Why suffer with coughs, colds and a gripe when Laxative Bromo Quinine will cure you in one day. Does not produce the ringing in the head like sulphate of quinine. Put up in tablets convenient for taking. Guaranteed to cure or money refunded. Price 25 cents. For sale by the Delta.

Gov. Lord has issued his proclamation in which he recites the law forbidding the setting of traps for the purpose of killing or maiming, whether maliciously or not, also forbidding fishermen and hunters to enter the premises of others and calls attention to the penalties for violations of the act. He warns all persons to abstain from violating all or any of its provisions.

There are a great many watchmakers who can repair a watch properly, but don't because it takes considerable time to do it thoroughly. There are many others who can't do it right no matter how hard they try, and one does the watch about as much good as the other. There is still another class (and Hoyt, the Jeweler, wants you to know him in this class) who know how to do the work conscientiously.

County Clerk Imbrie cut the thumb of his left hand in the good orthodox way this week. He was splitting wood by holding the stick on a block and striking on the end. The long handle of the ax held in the right hand struck the block and guided the poll of the ax so that he received a stinging blow on his head, but this did not arrest the force of the blow but only varied the direction. The edge was buried in his thumb. Dr. Wood sewed up his wound.

N. A. Barrett holds a plot of acres in one of his lots which was ready for the ax, but Nate was watching for a cloudy afternoon before thrusting in his sickle. Yesterday noon when he went home for dinner the grass was laid low and ending finely in the hot sun. The farmer immediately inspected the plot and found it was ready for the ax. He himself with the aid of a neighbor woman had done the cutting. His corned and cabbage was eaten in silence.

Last Friday Treasurer Cely forwarded the last installment of the \$17,791.32 taxes apportioned to Washington County for the year 1896. State Treasurer Metehan receipts for the tax in full but claims \$240.31 interest on delinquent payments. Mr. Cely desires the county to adopt the policy of designating the recent delinquency as the county treasurer's duty to pay to the state the share of the tax on account of the delinquency.

Miss Constance Smith, of Portland, is spending a few weeks in Hillsboro, as the guest of Miss Mabel Moreland. James Lamkin is putting the tin roof on the Crandall building this week.

The Oregonian in mentioning the fast trotting stallion, Vimont, recently brought to Hillsboro by Mr. E. B. Tongue, says: "Samuel Elmore, the Astoria capitalist and contractor, has leased his Altamont stallion, Vimont, to Hon. Thomas Tongue for breeding purposes. With the exception of Pearl Fisher, 2:17, Vimont is now the fastest trotter among Altamont's sons and daughters. Vimont now has a mark of 2:19 and with very little training this season, has gone quarters in 32 sec odds. When on the turf Vimont was one of the gamiest trotters that ever scored down for a word, and if Mr. Elmore follows out his intention to put him in racing again next year, he is pretty certain to bring him into the foremost class of 'two-toners.' Vimont has been in California all winter, and was brought back on the steamer last Sunday, and taken out to Mr. Tongue's farm Wednesday.

It is profitable to make comparison one year with another. Studying the clerical reports for 1896 and the report for 1897 found in another column, these facts may be gleaned. For the year 1896, the receipts in the county fund were \$28,540.32. June 30, 1896, the receipts in the county fund were \$10,858.92. The report of 1896 shows expenses amounting to \$20,406.42. The same items this year is \$10,496.24. It will be noted that we went in the hole to the depth of \$10,858.92 during the fiscal year ending June 30, 1896, while for the year ending June 30, 1897, the expenditure is only \$1,057 greater than the receipts. It will be noted further that the net expenditures for this year are \$7,659.71 less than they were last year.

Mr. R. E. Bryan and Dr. J. P. Tameisie, of the Board of Trade executive committee visited several of the sugar beet fields last Friday. In the round they saw but one or two pieces where the culture had been successful. Most of the plants are showing well. Mr. Seelye down the Tualatin has a very fine crop growing, though he did not get his seed from the Board of Trade. Another extra fine field is that of Thos. Wigham near Farmington. These are the best seen as yet. The tops are thrifty and the roots are going deep into the ground. Thos. Tucker here in Hillsboro has another lot that are worth looking at. The committee hopes to be able to see more of these cultures before time for harvesting.

The Forest Grove stone company are busy at their quarry in Scoggin's valley in a small way, but ready to put on a large force when contractors give orders. The ledge is opened at two points at each of which a fifteen ton derrick has been set up. Good wagon roads have been built to the quarry, and surveys and profiles have been made from the S. P. Co's main tract to the ledge. The distance is about 1 1/2 miles. The price of stone is about \$7.00 per cubic yard. Mr. Boos the superintendent is bidding on stone for the Portland Custom house and the San Francisco post office. Experts declare that the F. G. Co's stone is the best on the market and the prices low so that he expects to secure orders in which event there will again be lively times in Scoggin's valley.

Mr. J. B. Imbrie and farmers in the vicinity of Reedville some weeks ago asked the S. P. Co. for a discount on the rates for carrying wheat. The company responded by adopting a new schedule of rates, which was in effect July 1st. The rates are as follows: From Reedville to Portland, 10 cents per bushel. From Reedville to Astoria, 12 cents per bushel. From Reedville to Tillamook, 14 cents per bushel. From Reedville to Seaside, 16 cents per bushel. From Reedville to Cannon Beach, 18 cents per bushel. Miss Constance Smith, of Portland, is spending a few weeks in Hillsboro, as the guest of Miss Mabel Moreland. James Lamkin is putting the tin roof on the Crandall building this week.

Mr. D. T. Phillips of Cornelius was in town Wednesday apparently for no other purpose than to boast of his crops. He says he has not had for ten years as good a prospect for an abundant harvest.

Mr. G. A. Adams, a Portland attorney, was in town Wednesday on business. He is this fall going to Mexico and Central America. His present plans will take him as far south as Costa Rica. When asked whether he goes as a silver coinage advocate or a gold bimetallicist, he replied that he will take good with him for with one dollar of gold he can buy two of silver when he gets there.

Mr. S. T. Walker, sweet pot specialist at Forest Grove writes that his prospects are not in the glory, and will be for about two weeks. He invites the public to go and see for itself on any day of the week except Sunday. Since Mr. Walker has the rare distinction of being the first and most grower of sweet peas in the world a visit to his grounds will reward the enthusiast with what he cannot get elsewhere.

In a letter received this week from Pastor Hughes of the Congregational church at Forest Grove, he writes that the enthusiasm gathered at the late Christian Endeavor Convention at San Francisco. That was a wonderful meeting of rather unusual meetings for the attendance was so great that no single place afforded space for the great throng. Last year the convention was spoken of as a congregation of 10,000. This year it was from 15,000 to 25,000. Mr. Hughes will be in his own pulpit next Sunday at 11 a. m. but his subject was not mentioned.

The County commissioners will hold an adjourned session of the county court tomorrow, Saturday. At this session will come up the letting of the repairs to the iron trestle bridge at Tualatin. The question of building a jail and jailers residence will also come up. Several prisoners have escaped lately, and the blame cannot be entirely laid to want of vigilance. It is suggested that a building can be erected this fall cheaper than can be expected later on and that the present census can be used leaving improved jail furniture for future appropriations.

A little alteration took place last Sunday morning between John Northrop and Wm. Moore. Northrop wanted to make some arrangements by which he could recover a debt which Moore owed him. Moore said he owed him nothing. Northrop stated in vigorous language that Moore lied. Then Moore without hesitation kicked him down. The case was adjudge by Equire Smith who imposed a fine of \$15 and costs on Moore. How much better for both parties had they gone to a day school that pleasant Sabbath morning. It would have been more economical too.

WEEKLY CROP BULLETIN. Portland, Or., July 12, 1897. WESTERN OREGON. Weather.—The showery weather which prevailed from June 12th, closed on the 8th inst., and since then the weather has been clear and warm. The rainfall for the week was about one-half an inch along the coast, one-quarter of an inch in the Willamette Valley, and one-tenth of an inch and less in the Umpqua and League river valleys. The temperature averaged 65° for the week, the same as for the preceding week. The fore part of the week was cool, the latter part warm; on Saturday the maximum temperature was 92°. The day temperatures averaged 74°, and the nights 55°. Since Friday, the normal amount of sunshine has prevailed.

Crops.—The change in the weather from cool and showery to warm and clear was most beneficial. Hay was ready to cut but was delayed by the showers; however, haying is now in full blast. The correspondents report that the hay is yielding much better than was expected. The hay crop most likely will be slightly less than the average, though of good quality; the second crop of clover will make a crop above the average. Fall wheat harvest has commenced and correspondents express the opinion that some phenomenal yields will be reported. The grain is plump, the heads well filled, and the straw is of good length. In some places some rust is reported. Spring wheat needed the warm sunshine, and a further marked improvement is shown in its condition; it promises to make an excellent crop. Oats are heavy, and a crop above the average is assured. Flax for fibre is making a very fine growth, and the success of the year's crop is certain. Sugar beets are doing remarkably well. Berries are reported to be unusually early. Late cherries are now ripe. Early peaches and early apples are ripe and are a good crop. Late peaches will be as large a crop as ever gathered. Peach plants are ripening and will be ready for the market within a week. Prunes generally will be a good crop, though in sections they are light. Early pear crop is ripe by the 17th; the pear crop is generally good. Grapes are unusually fine and very promising.

Hops are making a wonderful

growth, and the life have developed. The current warm, dry weather will check the ravages of the hop louse. The prospects are equally as good as ever before. Potatoes are reported to be a good crop in every locality. All garden truck is making excellent growth.

It appears that nothing can now destroy the crops that promise such excellent results. A year of plenty is certain. The summer time of weather has again appeared and it may be expected that warm weather will prevail to Friday, when cooler weather and clouds are probable.

EASTERN OREGON. Weather.—Cool and cool weather continued to Friday the 9th, when it became clear and warm. The temperature on Saturday and Sunday was from 100° to 104° throughout the Columbia river valleys, and upwards of 90° over the Patagon region. The temperature for the week averaged 64° that of the daytime 77°, and of the night 51°. Showers occurred on Tuesday, Wednesday and Thursday.

The most encouraging reports continue to be received from the entire both parties had they gone to a day school that pleasant Sabbath morning. It would have been more economical too.

One reason why paper has not been generally used heretofore, farmers could not get it at the general store.

It is now kept at the Independent Office cut to any size wanted.
