OFFICIAL PAPER OF THE CITY.

FRIDAY, APRIL 22, 1898.

REPUBLICAN STATE TICKET.

For Governor, T. T. GEER, of Marion County.

For Secretary of State, F. I. DUNBAR, of Clatsop County.

For State Treasurer, CHAS. S. MOOR, of Clatsop County.

For Attorney General, D. R. N. BLACKBURN, of Linn County.

For Superintendent of Public Instruction, J. H. ACKERMAN, of Multnomah County.

For Supreme Judge, T. A. MOOR, of Columbia County.

For State Printer, W. H. LEADS, of Jackson County.

For Congressman, First District, THOS. H. TONGUE, of Washington County.

For Judge, Fifth District, THOS. A. McBRIDE, of Clackamas County.

For District Attorney, Fifth District, T. J. CLEETON, of Columbia County.

For Member State Board, W. H. SMITH.

REPUBLICAN COUNTY CONVENTION.

A republican convention for the county of Washington is called to meet in the city of Hillsboro, Oregon, on Thursday, the 5th day of April 1898, at 11 o'clock a. m. for the purpose of nominating a Senator to serve for two years, three Representatives, County Judge, County Clerk, Sheriff, Recorder of Conveyances, County Commissioner, County Treasurer, County Assessor, County School Superintendent, County Surveyor, County Coroner, and to transact such other business as may properly come before the convention.

The convention will be composed of 125 delegates chosen from the several precincts, as follows:

Beverdam 6 N. Hillsboro 6

Beaverton 8 N. Forest Grove 8

Buxton 3 Reedville 4

Columbia 6 S. Forest Grove 7

Cornelius 7 S. Hillsboro 7

Dilley 4 S. Tualatin 6

Dairy 6 West Butte 5

East Butte 7 W. Cedar Creek 7

E. Cedar Creek 7 Washington 6

Gales Creek 6 Wapato 7

Monte Vista 2

The same being one delegate at large for each precinct and one delegate for every 20 votes, and one for every fraction of 10 and over thereof cast for Wm. McKinley at the November election, 1896.

Primaries to be held in the several precincts on Saturday, April 30th, at 1 o'clock p. m.

C. E. Deichman, W. D. Wood, Secretary, Chairman.

Spain will realize Weyler's great blunder in concentrating the farmers in the towns and cities. The farmers are laid waste and the food supply must be imported. When the ports are blockaded as they will be, Havana Spaniards may realize what it is to be hungry.

England has made coal a contraband of war. That is, coal is put with that list of war materials which a neutral nation may not sell to either belligerent. Modern warfare requires coal for the navy quite as much as it does powder. The new rule will weaken Spain in the coming contest.

Spain deems it an insult to be told that the Maine was blown up in a Spanish harbor, but she raises not a finger to bring the guilty parties to justice contenting herself with disavowing the act. That disavowal has too often been made. What we now want is a bond to keep the peace that shall be sufficient.

Thos. H. Tongue was nominated Monday by the republican congressional convention at Eugene. It goes without saying that Oregon never before was represented by so weak a man and never will be again.—Linn County Messenger. The above is the opinion of Horace Mann, but he is in no way related to that other Horace Mann late of New York. This fellow does not have a discriminating judgment or possess a prophetic spirit.

Some recent tests of the breaking point of fir and oak were recently made at Tacoma. Rods two inches square of green oak were taken over an 18 inch span. Ten rods of each wood were broken. The fir broke at 2,845 pounds average and the oak at 2,735. The same tests on seasoned rods showed that the fir stood till an average pressure of 3,900 pounds had been used while the oak fractured at 3,215 or 655 pounds in favor of the fir. Fir seasoned under cover broke at 4,233 pounds, oak was not tried. This is a different result than the unadvised expected. Oak has always been considered the strongest wood, but these experiments seem to put fir before it.

WAR AND WHAT THEN.

We are about to undertake a war the final result of which is not questioned by any of our people. We will win. But will it leave us with anything but a debt?

Our citizens have not been treated with respect by the subjects of foreign powers. While redressing grievances, the demands have borne the air of timidity so that an injured citizen has frequently been tempted to claim the protection of another flag.

If this war shall bring from the powers a greater respect for America, it will not have been waged in vain. Spaniards have charged our president with violation. They should now realize that he was never more in earnest than when waiting for food and clothing to be distributed to their own starving subjects. It was Spain's duty to look out for the welfare of its own people. We reasoned with them as begged them to mitigate the horrors of civil strife. In reply they jeered us, and called us pigs. They continued to patronize their bull-fights and treat expressions of humanity as idle words. If this war teaches the Spaniard that the word of an American has meaning then the treasure is well spent. Spain judging us by herself moored our warship over a mine so they might blow her up at the first act of hostilities and was only prevented from doing so by some dastardly coward doing it before the appointed time. If this war shall avenge the death of our sailors and the destruction of our fair handiwork then it will be well. We want Spain to understand that we maintain order and discipline on our ship as well as on land.

This war will give our own people confidence in themselves as well as bring respect from abroad. The INDEPENDENT fears that we have been too much afraid of wronging our neighbors and have actually wronged our own people. It may be well sometimes to strike an antagonist first and enquire later whether we had a right to do so. There are un-avenged wrongs existing in Turkey of ten months' standing. A prompt demand followed by a bombardment would have saved us millions in this Spanish war. The next week will be one of action.

THE RESOLUTION AS PASSED.

On the first page of this issue appears the resolutions putting the army and navy at the disposal of the president for the purpose of freeing Cuba. The main difference between the two propositions was that the senate recognized the present Cuban government while the house did not. There was for a time an irreconcilable difference between the two. A conference committee stuck on two words "are, and" in the first section. The senate wanted the words to remain while the house did not. The senate wanted to declare the people free and independent. It had consented to strike out the part of the section recognizing the Cuban government. The house wanted to declare "that the people of Cuba of right ought to be free and independent."

It will be noticed that the war is not undertaken for conquest. The resolutions as finally passed at about two o'clock last Tuesday morning are in these words:

Whereas, The abhorrent conditions which have existed for more than three years in the island of Cuba so near our own borders, have shocked the moral sense of the people of the United States, have been a disgrace to civilization, culminating, as they have, in the destruction of a United States battleship and 266 of its officers and crew, while on a friendly visit in the harbor of Havana, cannot be longer endured, as a number of gentlemen on that side may be friendly to the [farming interests of their own state; but no act was ever passed by the Congress of the United States that has brought such widespread ruin to the people of the state of Oregon—at least the First Congressional District—as the Wilson bill, passed under the lead of William Jennings Bryan, followed by the gentleman from Kansas and his associates on that side of the house."

THE RESULT.

The result of the State Convention held at Astoria is most satisfactory to republicans. What threatened some weeks ago to be a disrupted organization has been converted into a homogenous mass. The party is compactly united for a fight with the free silver platform. Those people cannot call us strikers this year. In truth the republican party never has sought to dodge responsibility when a question has demanded a decision. Both our platform and our candidates are positive on the currency question which the Phalanxers declare is the only issue. Republicans will defend the gold standard and compel the unionists to espouse silver monometalism, and instead of being divided we are united and the cause of a solid nationality will be a majority that will surprise the opposition. But while a good majority is in sight let republicans go resolutely to work to make that majority the largest possible. The opposition exist in that they had 1600 majority in the first district at the presidential election. This we must overcome. Mr. Tongue. The state cannot afford to weaken its representation by removing that splendid worker. The second district will send a new man, and unfortunately Mr. Moody is not a public man for although he is skilled and shrewd in business he is no public speaker. It behooves us, slowly, but it is the onward drift of

HON. THOS. H. TONGUE RESOMINATED.

The renomination by acclamation of Hon. Thomas H. Tongue, to represent this district in congress during another term, which took place at Eugene on last Monday, was a just and proper recognition of a faithful and efficient public servant. There are but few persons who realize the difficulties which spring up about a newly elected member of congress. Every member of his party of any prominence takes to himself the credit of having secured his nomination and election and demand recognition for their real or pretended influence in his favor. He must also make a record for ability and efficiency among scores, we might almost say hundreds of representatives who have had years of experience in congress. In the face of these and thousands of other difficulties, Tongue has gone quietly ahead, maintaining a dignified and statesmanlike attitude, which has gained for him the respect and confidence not only of the people of his district but of the leaders of the party in the national congress. His position on all the questions which affect the people of his district is sound and patriotic and he can accomplish more for his district during his next term in congress, working in harmony as he can and will, with an administration and both houses of congress which are republican, than any crossroads democratic statesman could in a life time. If the voters of this congressional district have any conception of what will be for their best interests, and we think they have, they will give Thos. H. Tongue, an overwhelming majority in June.—Roseburg Palisade.

APPRECIATED BY OTHERS.

Reference has been made before to Congressman Tongue's reply to Jerry Simpson but we of Oregon are not the only ones who appreciated Mr. Tongue's defense of the farmers. The following is the remarks of the American Economist on that reply as taken from the Waseca Journal, Minnesota. Indeed the paragraphs were widely copied by the press of the Northwestern Lake States. The Economist says:

"One of the most effective answers to the claims of calumny croakers that has been delivered in congress was that which was recently given by Representative Thomas H. Tongue of the first congressional district of Oregon. It was in reply to some remarks of Jerry Simpson of Kansas, who had been ridiculing the idea that there had been any revival of prosperity, and who assumed to speak especially for the rural districts."

"This was Mr. Tongue's opportunity: 'I have the honor,' said he, 'to represent one of the districts that have been denominated rural districts.'"

"The people of the first congressional district of the state of Oregon are engaged principally in raising for sale every class of live stock, the various denominations of grain, dairy products, and almost every variety of northern fruits and vegetables, as well as in the production of lumber and coal. During the last few years, among the most remarkable seculing that has been done in this country, was the scaling down of the prices of every product, from every range, from every farm, from every orchard and mountain in the State of Oregon. And it was done by the gentleman who represents the 'rural district' of the state of Kansas, and his associates on that side of the house, in the passage of the Wilson bill. (Applause on the republican side.)"

"When this was done and the prices of every variety of our products were scaled down—when every particle of increased protection that had been accorded to us by the McKinley bill was taken from us by the Wilson bill, that gentleman supported, practically every bit of extra taxation was kept upon the things that the farmers of the State of Oregon purchased. While gentlemen on the other side were scaling down the duties upon wool and farm products, they kept up the duties practically upon things we had to buy. There was no other thing they could have done so effectually to scale upward every debt of every farmer of the state of Oregon as was done by that bill."

"That gentleman from Kansas may be a friend of the farmers in Kansas; a number of gentlemen on that side may be friendly to the [farming interests of their own state; but no act was ever passed by the Congress of the United States that has brought such widespread ruin to the people of the state of Oregon—at least the First Congressional District—as the Wilson bill, passed under the lead of William Jennings Bryan, followed by the gentleman from Kansas and his associates on that side of the house."

THAT AMERICAN REVOLT.

The Marquis of Hoyos, Spanish Ambassador to Austria-Hungary, is said to be the Spanish statesman quoted the other day by the Vienna Neue-Friche Presse as saying:

"It could not be to England's interest to see the Spaniards expelled from Cuba, as there might arise a Washingtonian inclination to declare Canada's independence. If during the war the United States should invite the Philippines to revolt, Spain could average herself by raising revolts in the American Southern States!"

If the Marquis of Hoyos, in his delightful provincial ignorance, made any such remark as this, then is the Marquis of Hoyos a most "dame scuss." Should war be declared the Marquis and his brethren should not forget to come straight to the Southern States to raise those revolts. And they should not forget to bring Weyler and every other Spanish assassin of women and children not afraid to cross the water. "The American Southern States" have an effective and expeditious way of dealing with that brand of cattle.—Courier Journal.

The secretary of state is following the Multnomah Clerk's example and refuses to file the certificates of nomination made by the late populist convention. The brethren are not pleased at the secretary's arbitrary ruling. The opinion of Judge Shattuck ought to have been a guide to the secretary of state. Instead he bases his action on popular rumor. Judge Shattuck rules that the filing of certificates of election is a ministerial act, not judicial. The middle of the roaders will at once bring an action to compel the secretary of state to do his duty. It is said that the straight populists will poll a larger vote in Linn county than the phalanxers.

Corre, the Minister for War at Madrid, who seems to be the Billy Mason of Spain, says: "Spain must not be ashamed if war is declared as the sinking of a Spanish warship. What we must at all costs avoid is a Spanish warship striking her colors to the American flag. She should rather explode her magazines. I wish to God Spain had not a warship from Cuba to the Peninsula. We could then say to America: We are here, most as when you please." Corre's wish to God is likely to be not a public man for although he is skilled and shrewd in business he is no public speaker. It behooves us, slowly, but it is the onward drift of

THE GLACIER THAT CARRIES ALL BEFORE IT.

President McKinley's demand requires a favorable answer by tomorrow, Saturday noon. If the answer is unfavorable or if no answer is returned, hostilities will be commenced. The Spanish minister, Polo, left Washington Wednesday evening. This leaves Minister Woodford at Madrid to be the last to be the medium of communication between the two governments.

Minister Woodford notifies Sherman that Spain broke off all diplomatic relations between the two governments yesterday morning before he could present McKinley's last demand. Woodford has his passport and started for Paris yesterday evening.

Admiral Sampson has sailed with the Atlantic Squadron to blockade Havana. The flying squadron has gone to sea. The Spanish Squadron has left the Cape Verde Islands. War exists without formal declaration.

How Relief Came.

This is the sequel of a terrible calamity which affected many sections of the country some years ago. A host of victims suffered disease and death. The survivors have now a new reason to rejoice.

About seven years ago the La Grippe visited various sections of the country in its deadly maddening disease and death among its hosts of victims. Most of those afflicted who escaped death then, have lived on in suffering, broken in health and ambition; for the after-effects of this disease are dangerous. A large portion of the survivors have a feeling of oppression in the chest. A little exertion causes a violent action of the heart, described as "palpitation."

There is mental anxiety, depression, blueness of the skin, indicating impaired circulation of the blood. The sluggishness of its circulation impairs the functions of most of the organs; the stomach and intestines fail to perform their work, while the appetite and digestion become seriously affected.

This complaint has baffled eminent physicians and exhausted the results of pharmacopoeia. Recently, however, a means for a cure has been obtained.

Among those who have been restored to health by it is Herman H. Eveler, of 311 W. Main Street, Jefferson, Mo., a resident of that city for thirty-eight years, well known as a successful farmer.

He was one of the victims of the "Grippe" seven years ago and has since been troubled with its after-effects.

"That he lives to-day," he says, "is due to a remarkable occurrence."

"I was taken with a malady just after the 'Grippe' visited this section and caused so

many fatalities about seven years ago. "I was troubled with shortness of breath, palpitation of the heart and a general debility. My back also pained me severely. I tried different doctors and careful nursing followed their directions, but no benefit was apparent. I used numerous remedies that were highly recommended but no satisfactory results were obtained. "I began to give up all hope of receiving relief. My condition was deplorable. "In reading a St. Louis newspaper I noticed an article extolling Dr. Williams' Pink Pills for Pale People. "After making inquiries regarding them I concluded to give the pills a thorough trial. "I used the first box and was wonderfully relieved. "I bought two more boxes and continued taking them. "A marked improvement was soon noticeable; the shortness of breath, the palpitation of my heart and kindred ailments began to abate. "After taking four boxes of these pills, I was restored to good health. "I feel like a new man now, and can transact my business with increased ambition. "To add strength to my story, Mr. Eveler made affidavit before Notary Public Adam Poutzong and he will gladly answer inquiries to those enclosing stamps for reply. He also states the fifth day of March 1898, for Pale People are helpful in such cases as this, in that they are composed of vegetable remedies which act directly on the impure blood, the foundation of disease.

"A marked improvement was soon noticeable; the shortness of breath, the palpitation of my heart and kindred ailments began to abate. "After taking four boxes of these pills, I was restored to good health. "I feel like a new man now, and can transact my business with increased ambition. "To add strength to my story, Mr. Eveler made affidavit before Notary Public Adam Poutzong and he will gladly answer inquiries to those enclosing stamps for reply. He also states the fifth day of March 1898, for Pale People are helpful in such cases as this, in that they are composed of vegetable remedies which act directly on the impure blood, the foundation of disease.

"I used the first box and was wonderfully relieved. "I bought two more boxes and continued taking them. "A marked improvement was soon noticeable; the shortness of breath, the palpitation of my heart and kindred ailments began to abate. "After taking four boxes of these pills, I was restored to good health. "I feel like a new man now, and can transact my business with increased ambition.
