Wyoming and Colorado were visited by a great snow storm on Tuesday and Wednesday. On Wednesday morning the snow was from nine to ten inches deep and more coming.

The tripod party advertises two of its meetings in the local columns today. Veach the free silver candidate for congress attends. They say he speaks better than he did six years ago.

The republicans of the first district of Oregon did the proper thing when they re-nominated Hon. Thos. H. Tongue to succeed himself as congressman from that district. Mr. Tongue is one of the tireless workers and has acquitted himself nobly as a servant of the people during his congressional experience. For years he has been known as one of the most zealous republican workers in the state of Oregon, and this paper will labor for his re-election which we hope will be his reward.—Heppner Gazette.

A substantial gain has been made in the currency discussion since the last campaign two years ago. Then it was government fiat that regulated the value of money. Now it is supply and demand. Then fiat took away the money character of silver. And silver regulated the value of wheat. Now the value of both silver and wheat is regulated by supply and demand. Republicans announced that commercial truth two years ago and are very pleased to have free silver coinage advocates now admit that they have been convinced.

Yesterday's news reports state that there is a powerful Spanish cruiser lying in wait for the battleship Oregon. Good. The Oregon is able to take care of one, two, or more cruisers. It is the unknown quantity said to be in torpedo boats that is dreaded, and these will be innocent unless they shall succeed in sneaking up in the night. Her four 13 inch guns will be able to sink any Spanish cruiser that sails. The Oregon left Rio, Brazil on Wednesday accompanied by the gunboat Marietta. No fears are felt for the safety of the ships.

CONGRESSIONAL CAMPAIGN.

Yesterday the central committee had in hand the arranging for several large meetings in the county in the furtherance of Congressman Tongue's interest. The speaker for these gatherings was Hon. Schoonmaker of New Jersey, a most able orator, but at the last moment comes word that Mr. Schoonmaker has been compelled to cancel his dates in Oregon because of sudden and serious illness of a member of his family. Congressman Tongue telegraphs that other eastern canvassers will be sent, but at this late hour the full particulars cann t be had for this issue

Dr. James Withycomb congressional committeeman has been selected chairman of the county central committee and George R. Bagley secretary. Republican head quarters will be opened in some suitable building on the street and the work of the campaign actively pushed forward. Washington County is good for a big gold standard majority a month hence but by diligent and systematic work it can be increased.

THE TICKET.

The nomination made yesterday by the republicans are firm supporters of the principals of the party. The gentlemen named are republicans. Perhaps that is enough to say at this time unless it is mentioned that they have been tried and found capable.

REPUBLICAN CONVENTION.

The republican convention called to nominate a county ticket, assembled in the court house yesterday at 11:25 a. m. Dr. W. D. Wood chairman of the county central committee called the convention to order. Thos. Paulsen of E. Butte was put in nomination for temporary chairman by Delegate Kindt. Delegate Knox placed J. P. Tameisie of North Hillsboro in nomination for the same station. A vote by ballot was taken which resulted:

Paulsen	57
Tamiesie	60
Total	117

So Dr. Tamiesie was chosen. He at once took his place, thanking the convention for the honor.

The temporary secretary was Wm Jackson of Dilley.

Delegates G. O. Gustin, H. C. Raymond, C W Allen and Geo R Bagley were appointed a committee on credentials.

The committee on order of business was D H Thomas, T R Cornelius, Albert Jack Wm Moore and J J Kuratli.

The best of feeling prevails and great enthusiasm was arroused when Judge Cornelius and Hon H S Hudson spoke in the interest of Congressman Tongue's campaign.

PROGRESS OF THE WAR.

In the Atlantic the activity of the week has been one of preparation. Cienfuegos was bombarded on the 29th by the Marblehead and the land batteries silenced. Then with his 5 inch guns Capt. McCalla threw shells into the town itself, scattering the Spanish inhabitants into the country. Several other batteries have been destroyed. The blockading fleet is allowing no new batteries to be planted on the coast.

The heavy ships of Capt Sampson's fleet was recoaled at Key West on Wednesday. Even deck loads of coal were taken which is supposed to mean a long voyage. The fleet sailed the same evening, destination unstated. Schley's flying squadron has been strengthened by detaching the cruiser Columbia and replacing her with the New Orleans, one of the recent purchases. The New Orleans is a heavier boat.

The Spanish fleet some days ago left the Cape Verde Islands and it was not known where it had gone, but on Wednesday it was heard of at Cadiz the home port. The dons boast that they will mass their entire naval power and destroy the fleet of the Yankee pigs. Rumors of lone ships in the routes of commerce are reported, but so far our guarding cruisers have not met them.

Affairs in Spain are in a terrible condition. The government is tottering to a fall. Sagasta is unpopular and it looks now as though he will be forced to resign. Martial law has been declared in Madrid. This is unpopular. The Carlists are not jubilant and anarchy scenes more likely than a stable government.

Five transports are loading at San Francisco with coal and ammunition which will have quick dispatch for Dewey's fleet in the Philippines. Official advices are expected from him today or tomorrow.

COMMODORE DEWEY, HERO.

Last Sunday morning between three and five o'clock Commodore Dewey sailed through the torpedo channel into Manila Bay and into the very presence of the Spanish fleet. It was yet dark when the Yankees got inside, but the first ray of dawn at five o'clock revealed to the astonished Spaniards the presence of five strange warships. The guns of fort Cavite opened on the Americans, then the Spanish fleet joined, Dewey replied, and in one and a half hours two Spanish ships had been burned, another blown up and three more scuttled. The fleet was demolished. The land batteries fired a few more shots and were then silent, whipped. Only one of the American ships is reported to have been damaged. Dewey demanded the surrender of the coal, forts, war material and cable telegraph within twenty four hours. Before the time expired the cable ceased working. It has doubtless been cut, but by whom? Not a word has come from Dewey. All the news is from Spanish sources or through the English foreign office.

Cavite and the Spanish fleet defended Manila. Those are destroyed hence the city is at the mercy of the Americans. It is understood that Dewey asks for the surrender of only Spanish war material and government property. No money indemnity will have to be paid by private subjects. Manilla is the chief town in the Philippian Islands southeast from the coast of China. The Islands going under the general name of Philippians are some 1200 in number with an area of 150,000 square miles, a little smaller than Oregon and Washington. Luzon the northern island and largest is about half as great as Oregon. This is the island that Dewey has captured. Manila is a place of about 200,000 inhabitants, and with the exception of a few stone buildings owned and occupied by foreigners they are housed in wooden structures or bamboo huts.

How Dewey got by the torpedo mines supposed to have been planted in the channel of approach is a mystery, though some declare that the connecting cables had been cut by faithless natives serving in the Spanish army. The Spanish fleet had been out hunting for the Yankees, but seeing them at a distance they realized they were too weak, and had retired to the protection of fort Cavite, Dewey followed and whipped them. The heaviest guns were two ten inch pistols on the Olympia. He had 8-inch on his otherships and then small quick firing guns. The timerity of Dewey has astonished European naval critics who regard the capture of a fleet and forts with cruisers as the greatest exploit in modern naval warfare.

Above it was said that the Archipelego contained 1200 islands. Some of these are quite small, a dot. Not all of them belong to Spain for some are ruled by native chiefs. The islands are within the torrid zone and hence the weather is hot. The climate is healthy, certainly for natives.

Now that Com. Dewey has captured Manila, the chief city, our government must hold it as a collteral to be used when the time comes for making peace. Then we must have a coaling station, for it will not do to be in the future caught in a war with our ships 6000 miles from home and no harbor of rest. It is now proposed to send a land force of 5000 men from the Pacific coast to hold the islands. That force will absorb all the volunteers enlisted in Oregon and California. It is very probable therefore that the Oregonians whom we have so recently shaken by the hand may soon take a trip to the Spice Islands.

MANILA TRADE WITH AMERICA.

The understanding at the state department is that Oscar F. Williams, our representative at Manila until the recent war began, is now on board the Olympia in Manila harbor, having accompanied Dewey from Hong Kong, so that advices may come from him to the state department, as well as from Commodore Dewey to the navy department. A mail report from Consul Williams reached the state department recently under date of Manila, February 28 last. It gives a full description of the Philippine islands, their resources, growth of American trade, etc., and will be incorperted in the next volume issued by the bureau of statistic of the state department. In this report Mr. Williams states that 22 consulates, representing the leading commercial countries of the world, are established at Manila. He adds the surprising statement:

"The volume of the export trade coming under my official supervision equals that of my 21 consular colleagues combined."

He then shows in detail how the trade of the Philippines with the United States exceeded that of all other countries combined, and was growing at a remarkable rate. As indicating the extent of this trade, he says:

"To-day I have authenticated invoices for export to the United States, amounting to $138.066."

He says the exports to this country averaged $1 000 000 a month. The report states that 216,000 bales of hemp were exported during the last three months. Of these 138,782 went to the United States and 78,000 to Great Britain and other countries. Mr. Williams shows from this that the United States had 64 per cent of the trade of the Philippine islands, as against 36 per cent for Great Britain and other countries. He said that last year the increase of shipments to the United States was 133,000 bales, and the decrease to Great Britain 28,000. He adds:

"The increased shipments of the Philippine to the United States were 24 per cent greater than to all other countries combined."

He gives details of the large shipments of sugar, cigars, tobacco, hides, shells, indigo, and coffee. In the item of sugar, which is second in importance, the shipments to the United States were 55 per cent of the total to all points.

One Girl's Story.

This is an occurrence in the life of a young girl who had a near approach to death, and of the marvelous manner in which she was rescued.

Eighteen years ago Miss Mabel Shields was born in Chicago.

The most remarkable fact about her is, that she is alive to-day, living with her mother at 4846 West Congress Street, and enjoying excellent health.

Two years ago she commenced to fail, a number of complications setting in, incident to budding womanhood.

Her experience and sufferings during those two years were not only distressing but terrible. At last, utterly discouraged, she found relief and perfect health.

Her own story relating this experience will be a matter of great interest to hundreds of young women who are passing through the same period of life fraught with danger and death.

Miss Shields said: "Two years ago I commenced to fail in health. At first I did not pay much attention to my failing health, thinking I would mend shortly.

"I grew worse week after week till I became so bad that I was obliged to receive medical treatment.

"I went to the best hospital here for six weeks, but was not benefited.

"I had a terrible throbbing in my head day and night: my whole system was on the verge of a nervous collapse, and for weeks I could not sleep. I then went to a famous eye and ear infirmary.

"The physician there believed at first that something was growing in my ear, but after receiving treatment from him some time, finally told me there was no such growth, but it was purely a case of extreme nervousness and bad state of the blood. He was not able to give me any relief.

"I lost all color, had no good blood, and when I held up my hands you could almost see through them. I was so weak that I could not walk up stairs.

"I was completely discouraged, for the physical state I was in was deplorable.

"One of my friends suggested that I try Dr. Williams' Pink Pills for Pale People, which I finally did.

"After having used the pills in one week I felt much better. I kept taking them and grew stronger each week, my nervousness decreased and I regained flesh and health.

"After I had taken the fifth box of pills I did not have any throbbing in my head and I was as strong as I had ever been.

"To-day I have a healthy color, a good appetite, and the nervousness has left me. In the last two months I have gained flesh rapidly and am in perfect health.

"This marvelous change in my condition is entirely due to Dr. Williams' Pink Pills, and I cannot say too much for them."

That there be no doubt regarding this story, Miss Shields made affidavit before Notary Public L. L. James.

"Dr. Williams' Pink Pills for Pale People are composed of vegetable remedies that exert a powerful influence in purifying and enriching the blood. Many diseases long supposed by the medical profession to be incurable have succumbed to the potent influence of these pills. This universal remedy is sold by all druggists.

Extra Care in Compounding Prescriptions.

There were offices enough to go around. Politicians have desired to see that condition of things, for these many years. But here is the instance. Last Saturday both the republicans and populists held primaries in East Butte precinct as was also done in the other precincts of the county. The meeting place in East Butte was the same. The republicans held their convention first. There was a great turnout and much enthusiasm. The gold standard was rigid and well supported. After the republicans were through the populists called themselves to order. There were just two electors present while the call gave three delegates to the county convention. The two populists present elected themselves to be delegates and then went out and hunted up a democrat for the third. But this is no worse an experience than what befel the silver republicans on convention day. The party did not have in its own ranks a man for county commissioner wherefore they named a democrat contenting themselves with observing the spirit of the apportionment of office if not the letter in as much as the silver republicans "named" the candidate.

Judge Bennett said last Friday night that gold appreciates as it becomes scarce, and that if all the gold was destroyed save one thousand dollars the value of that money would be infinite. Hardly. For if gold, should be reduced to a few ounces, it would not be used for money. Something else would be substituted. And that law of supply and demand is what is the matter with silver. There is more silver in the world than is required for money wherefore it becomes a cheaper substance than it once was.

Dewey has capturedthe Philippian Islands in good time. He was needing a coaling station, and our farmers manily hemp in a few weeks to be used as binding twine. It was a proper thing to sail into the harbor last Sunday morning and destroy the Spanish fleet.

The tripod convention was in session Wednesday, and a more suspicious lot of men never assembled. Even members of the same party were suspicious of each other.

A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D. "Was taken with a bad cold which settled on my lungs: cough set in and finally terminated in Consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God I am saved and now a well and healthy woman."

Trial bottles free at Delta Drug Store. Regular size 50c and $1. Guaranteed or price refunded.

Judge Bennett of the tripod party opened the campaign here last Friday evening. The audience that greeted him was not large and but little enthusiasm was manifested. Judge Bennett is a pleasant speaker, and in a good cause he would be exceedingly entertaining, but in the advocacy of the cause of free silver he was exceedingly prosey.

Basket picnic at Gaston, Saturday May 14. Speaking at 1:30 p. m. by Hon. R. M. Veatch, candidate for congress, Hon. Geo. Noland, candidate for district attorney and by Hon M A Miller. All citizens requested to turn out. The same speakers will meet the citizens of Greenville on the evening of May 14.
