same. But it is the fact that the general average of all non ferm prices is lower than it was at any time when the industries of the country were fairly prosperous.

The depression in the cotton industry due to a production materialiy in excess of demand has made it beyond the power of anybody to discuss intelligently the situation in that branch. The iron industry is not only producing more than at any previous time in the history of the country but according to the latest BURGLARS SCARED AWAY returns is actually consuming in manufacture more than ever before, and there are also export demands including 40,000 tons of steel rails for Northern Europe and 100,000 tons of steel plates for foreign ports besides many orders for all sorts of finished

products including 4500 tons of billets

from Pittsburg.

What are the objectors principally troubled about? If they know anything they know that this counits products abroad in the iron and steel industry alone in spite of all foreign competition. The country does not do so well in its exports of products of some other industries and factured products compared with Great Britain our chan competitor est statement indica a condition of things in the last gree discourhas only to read the statements of the leading men at the last meeting of manufacturers in that country to caped with a few broken ribs, realize how distressing the American competition has become.
