OUR COUNSELS.

We occasionally hear lectures which approach scoldings touching the inefficiency of our consular system...

On this topic Feilden's magazine, an English publication, writes lamenting the inadequacy of the British Consul Reports...

These reports are sold and with few exceptions are quite useless either in incompetency of the authors or from the great delay in their publication...

Whose is it? It ought to be 57 cents and would be but for the exorbitant charge, now 45 shillings, when it is a good price...

And freight will always be high until vessels can come here loaded with goods of some kind for the people of this country...

Free trade organ, can't you see that our export trade has no increase since the republicans came into power that there is a scarcity of ships...

It has been said for a long time that the Dutch have taken Holland, but if they long like some of the English to be included...

Excellent progress is making by the army in the Philippines. No revolt has come to our troops...

The report is current here that the assessment of property in Multnomah county for 1899 will be \$13,000,000 less than it was in 1898...

The manner of delivery as well as the votes seem to convey a threat but it will hardly frighten the old campaigners. Even tho a new party be organized with a million voters, success could not be expected.

What has become of the old fashioned "Wind Jammer" who stood around on the street corners and predicted all kinds of financial disaster...

Vice-President Garret A. Hobart.

With local applications, as they cannot reach the seat of the disease, Chloroform is a blood or constitutional disease, and in order to cure it you must take internal remedies.

thority of congress over the territories, formulating a revenue policy, favoring a homestead law...

There has probably been some more bitter and vindictive political attack campaign than is now being conducted in Kentucky.

The Filipino display a fatal lack of diplomatic discernment, when, for a goodly sum of gold, they make an offer to play quits, to a country where every school boy is brought up on "Millions for defense but not one cent for tribute."

Aguinaldo evidently has contracted the American habit of bargaining longingly for the election returns.

The president of the United States of America, some 75,000,000 strong, has issued the usual Thanksgiving Proclamation...

CASTORIA. The name is on every bottle of Castoria.

THE STATE PRESS.

Those who condemn the administration's policy in dealing with the Philippine islands, persistently ignore the most palpable facts.

There are laws that govern nations; there are conditions imposed by custom that governments cannot ignore.

What benefits any one section will benefit the whole state, and what benefits the state will benefit the whole west, and what benefits the west will benefit the entire country...
