OFFICIAL PAPER OF THE CITY FRIDAY, NOVEMBER 10, 1899.

Troops in South Africa are transported in ordinary box cars. It is only in this country that Pullmans are provided for enlisted men, and considered no more than their just due.

Taylor, elected governor of Kentucky over Goebel by 3,000 to 5,000 majority, will not receive his certificate of election.

The domestic papers, the Argus with them, is most ably published a full digest to the effect that the shipping trade had been suspended by 50,000 shipping the legislature was dominated by 35 majority on joint ticket.

Li Hsing Chang the Chinese prime minister advises the United States to abandon the Philippines or buy Aguinid. It is really to be feared the advice of this statesman will not be taken.

As grand a political cartoon as has appeared lately is that in the St. Louis Globe Democrat of the 10th inst. It represents McKim the democratic candidate for governor of Ohio, sitting on the bottom of a barrel that has burst its hoops.

Forty thousand thieves, robbers, drunkards and libertines is what some of the anti-expansionists dominate our army in the Philippines. A dispatch from Yokohama, Japan tells a very different story.

A visitor this week who was in Nebraska during the caucus and started with the day after election says that the majority for the fusion ticket is not at all to be considered flattery for Bryan or his cause.

The country newspapers are not having to each instance lines falling in pleasant places. The time was when they could publish and live on a little thickened soil, but it is different now.

The interest is that Aguinaldo has offered his holdings for dollars apiece for every right ear to be bought off of an American officer. He is better off than the people who are giving such noble gifts to the cause of divine liberty.

That opening day is shown by the experience of S. A. Sears. He had a small orchard in Hood River which he sprayed several times during the season, and his crop netted him 600 boxes of apples.

The most gratifying feature of the late elections is the fact that the honest money principle has found a champion in business circles, and that the victory won in 1896 is still popular and enduring.

With a reading copy of the 100,000,000 program under the present administration, the money has not been likely to fall below \$150,000,000 a year. By following the trend of imperialism a harvest of pensions will be reaped, and the pension share and the pension share's acceptance will once more increase and multiply.

THE NEW FREIGHT TARIFF.

Engineering News, a high railroad authority says that bulk freight on steel rails in 2,000 tons paying loads can be transported for one tenth of a cent per ton per mile not including terminal charges.

Another great combination is proposed. The telegraph, telephone and cable companies are to be consolidated. The wealthiest men in the United States are behind it.

Indications point strongly to fraud in the Kentucky election. The Guetel election law which was foisted upon the people of that state is an infamous outrage.

Canadians are great on loyalty until it comes to putting up the money. The two regiments of troops that the Montreal Star said must be equipped, transported paid and pensioned by the Dominion in aid of England in the South African war.

A notable incident to the campaign in the Philippines is that no prisoners are taken by the Americans. This naturally leads some to believe the suspicion that barbarous methods are being employed are not without reason.

What is the matter boys and their friends think of this declaration? Then this gang of flag returners think for a moment that they could persuade Capt. Heath to accept a nomination for congress on a platform of principles which declares that he and the brave boys who fought under him were a gang of blood thirsty barbarians?

The Oregonian doing so much mouthing about McKinley being so slow-waiting to get the minds of the people before he moves etc. To me it is sickening—today the Oregonian lifts our Old Father Abraham to the skies for his wisdom; did not he do the same? What did he say to Douglas?

The Campaign in Luzon has been opened and the Americans are carrying everything before them. Aguinaldo appears to be in hiding. His private secretary has been captured and it is more than probable that "aggu" was near by but he was not found.

The first remark that greets me now is "How much better you look!" you may be sure I never hesitate to tell the cause of my health.—Mrs. E. J. Gooden, ACKLEY, Ia.

Impoverished Blood. is the secret of half the diseases known to humanity—rheumatism, dropsy, scrofula, stomach and liver troubles may in a majority of cases be traced to the circulatory system. They can be avoided and they can be cured by the use of a remedy that supplies the necessary elements to enrich the blood. Dr. Williams' Pink Pills for Pale People increase the red corpuscles in the blood and thereby give it new life and richness. They also tone up the nerves and are a specific for many serious disorders.

What Do You Know Of the Boers or of South Africa? Whether you know little or much you will enjoy reading Olive Schreiner's great masterpiece of fiction, "The Story of An African Farm."

Read Olive Schreiner's Great Story and Become Informed. It deals with the personal characteristics, the peculiarities and the home life of the Boer people. It must be admitted that these are profitable studies just at this time.

WELL REWARDED. Rev. W. A. Nibel, residing at 250 1/2 Hill street, Kansas City, Mo., in a letter dated Oct. 10, 1899, writes: "I have been well rewarded. I have only been in the drug store a few days, and I have already seen a number of people who have been cured of their ailments by the use of Dr. Bennett's Electric Belt."

How Mrs. Pinkham Helped Mrs. Gooden. I am very grateful to you for your kindness and the interest you have taken in me, and truly believe your medicines and advice are worth more to a woman than all the doctors in the world. For years I had female troubles and did nothing for them. Of course I became so better and finally broke down entirely. My troubles began with inflammation and hemorrhoids from the kidneys; then inflammation, congestion and falling of the womb and inflammation of ovaries.

U. S. CRUISER CHARLESTON.

The U. S. Cruiser Charleston ran on an uncharted coral reef north of Luzon one day last week and is a wreck. There was no loss of life. The launches and small boats saved as means of escape to an island a few miles away. It was feared that feared that they would have to fight for a landing, but the natives received them kindly. This is the season when the monsoons are changing in that latitude and the storms are severe, hence there is but slight hope of saving the ship.

The Charleston was one of the first ships of the "new navy." Her keel was laid in 1887. Her capacity was 3,750 tons. She drew 18 1/2 feet of water. She was armed with 2 1/2 inch and 6 1/2 inch rifles. Her speed was 18 1/2 knots. She carried 20 officers and 280 crew, and cost \$1,017,000. She was built from plans purchased abroad and therefore was not typical American built here. She was thoroughly repaired in San Francisco in 1898, just before she conveyed the first transports to Manila.

polity which they designate as "sphere of influence" which is to wit Chinese ports and hold them for the commerce of their respective nations but closed to the others. Germany was ready to adopt the "sphere of influence" policy but when the United States announced that no Chinese territory would be seized or held, that government joins the Anglo-Japanese in adopting the "open door" policy. If these nations are in earnest about driving peace, they can maintain it without any treaty offensive or defensive. Their moral support and understanding is all that is necessary. The Spanish war that seemed so cruel has given us a voice in the affairs of the world that will without doubt save lives.

EDITOR INDEPENDENT: Why is the Oregonian doing so much mouthing about McKinley being so slow-waiting to get the minds of the people before he moves etc. To me it is sickening—today the Oregonian lifts our Old Father Abraham to the skies for his wisdom; did not he do the same? What did he say to Fremont when he issued his famous emancipation proclamation, "The people are not ready for that yet and I reserve that for myself."
