OFFICIAL PAPER OF THE CITY

THURSDAY, DECEMBER, 8, 1899.

The Aberdeen harbor has nearly 8 square miles of anchorage where the depth is from 30 to 70 feet deep.

If Brigham Young Roberts has kept well what he gives all these years he has existing to some constituents? There are men who say one fifth is too many.

Roberts the Polygamist has been put to one side pending an investigation of his case. The vote that did this was 302 to 30, so Roberts is defeated by these 30 and a part of the democratic press in Oregon.

Subig Bay north of Manila is favored by Admiral Dewey for the American Naval Station in the Orient. The water at Cavite on Manila Bay is too shallow for our big ships which will have to visit those waters now that we have interests there.

Gilstrap Bros have commenced the publication of the Daily Roseburg Plaindealer. The publishers claim a good subscription list and the advertising columns are well filled which shows that the enterprise exhibited is justified by results.

Gen. Young who is leading the expedition in Luzon that is directly charged with the duty of capturing Aguinaldo, is well known in Portland he having been stationed there some fifteen years ago when he held the rank of Captain. Young is a son of Brigham Young of Salt Lake City.

The Oregonian says that Portland has been selected for the American terminus of the Manila steamship line because it is the cheapest place to buy flour. That is what papers of a "certain stripe" have been saying but they never could get the Portland daily to admit it before. Flour ought to be as high in Oregon as in Seattle or San Francisco.

Senator Aldrich has introduced the senate finance bill. The senate bill covers the same ground occupied by the house bill, differing from it in only a few particulars. The senate bill contains more details than the other. It restricts the size of currency denominations to ten dollar bills but does not provide for small banks in the lesser towns. In other respects there is practically no difference. If the senate bill permitted national banks of $25,000 capital and had the house bill provision of taxation it would be the better measure.

The West Point U.S. army officers are wide awake fellows. One of them last week captured a fortified Filipino town by telegraph. He got 800 prisoners and great quantities of arms and ammunition. He occupies the place with an advance guard of 50 men. He could not march any more men in because he had no more. Lt. Mearns, who was in command of the troop tapped the telegraph wire some miles outside of Bayombong and informed the commandant that he was approaching with a strong force and demanded his immediate surrender, and, would you believe it, Conon the commander complied.

The President's message is a more lengthy document than usual, but the conditions demanded that full space be taken to discuss the problems. What the chief magistrate says on currency legislation is no more radical than last year but he has used different words, more satisfactory to the radical bank reformers. His utterances on our insular problem are dignified and patriotic, and the Cubans are jubilant at the tone of the message. The paper is such that foreigners look at us with respect. All in all the message tho criticised in some quarters, is one that strengthens McKinley with the people.

A pretty incident occured at the White House this week, President McKinley, Admiral Dewey and J. P. V. Gridley, a son of the late Capt. Gridley, who commanded the Olympia at the battle of Manila Bay, being the guests. Admiral Dewey took young Gridley to see the president on the purpose of asking an appointment in the navy for him. The young man being too old to go to Annapolis, a lieutenant's commission in the Marines was the position sought. The Admiral was explaining that the young man had come to pay his expenses while studying for the examination, when the President interrupted him by saying: "You and I, Admiral, will pay his expenses while preparing for an examination for the Marine Corps. If he fails in the first examination I will give him another chance but I am sure he will be ready for examination when he is appointed." As Admiral Dewey and young Gridley were leaving the White House, the Admiral stopped and told the story to several newspaper men, adding, "Now, let the people know what sort of a president they have." "And what sort of an admiral also," said one of the newspaper men.

KEEP THE DOOR OPEN.

The United States has commercial treaties with which the "Sphere of influence" policy of certain European governments threaten to interfere. Our government some weeks ago addressed an enquiry to the powers of the Old world asking their purpose in entering China. Would they permit our government to carry on its commerce with that people or would there be obstructions? In other words would they permit the door to stand open? No positive answer has yet been returned, but there are unofficial enquiries "what will you give in return?" They seem to want everything in the Philippines without cost. They demand that we maintain a stable government there and pay all the expense. They want not only an "open door" but free trade. In America too they want free trade along with "open door."

Now then. Since the United States has to be at the expense of maintaining good government, the expense of deepening the harbor channels, the expense of building and maintaining light houses, the expense of keeping life-saving stations, the expense of providing marine hospitals, the expense of doing its part toward policing the seas, we must have the privilege of moderately taxing the commerce of the world to pay the bills and since our laws are uniform thruout the territory owned by us, our revenue laws must be executed in the Philippines and in our home ports,

It is a doctrine firmly rooted with our people that there must be no impairing of the obligation of contracts. Our government cannot today agree to a trade and next year refuse to observe the terms to the injury of the party of the second part. And we cannot permit others to do so. If France is to seize territory where we have the right to trade and drive us out till we make concessions, it is impairing the contract we have with China. Once upon a time the Barbary states demanded tribute. We fought them and successfully. We can fight again, and ought to, or have our acquired rights and privileges left undisturbed. The integrity of Chinese territory ought to be maintained.

STATE PRESS.

Every puff of smoke from a chimney furnishes an argument against the Chicago platform.—Union Gazette.

As yet it does not appear that the officers of the Charleston are to blame for losing their ship; but what can be said of the person high in command who ordered a large cruiser to do gunboat duty? Somebody over in the Philippines is very reckless of human life and the peoples money, The Charleston cost considerable over a million dollars.—Milton Eagle.

The writer notices that girls are getting ahead of the boys in the schools, i. e. more girls are attending school, about two to one boy in the Oregon schools. Boys of the Pacific slope are too impatient for the world and do not see the need of so many books and so much study. On this we would like to give a hint in plain language; "An education may be said to be the first and most important step in a boys life." It is absolutely essential that he should know something and experience has shown that the best way of obtaining that something is in the school room, and to dig it out of books. It is slow progress, but no better way has been found.—West Side.

One of the biggest fool ideas that ever got into the heads of a lot of fool statesmen was that which got lodged in the brains of the last Oregon legislature and caused the repeal of the law which provided for a state board of equalization. The demand for the repeal of the law came largely from the agricultural districts, and now the agricultural districts have to pay for it. Nine times out of ten it will be found that the farmer's land has been assessed at about the same valuation as on former years, and this will be largely true of the residents of the smaller towns and cities but in the larger cities where the wealth is concentrated the large property owners were quick to see the advantage to be derived from a lower valuation and as a result we have a decrease in the valuation of Portland property of more than $10,000,000. The saving of course is in the state tax, and now the "cow counties" will have to go down in their pockets and pay for the populistic craze, which demanded and secured the abrogation of the state board of equalization, a sum sufficient to have paid the expenses of the board for 20 years.—Plaindealer.

Speaking of the silly stories now going the rounds of the demo-pop press of the state, in which it intimated that Governor Geer accepted $1000 or some other amount, from some mythical individual in Polk county or some other place, the Pendleton East Oregonian says:

"One thing is certain, Gov. Geer owes it to the people who supported him at the polls and who have believed in him since, to deny the story point blank thru the press or to resign his office without delay."

Don't you allow this matter to keep you awake nights, neighbor. Try to suppress your hypocritical wails. The people who supported Gov. Geer at the polls are not worrying about this matter, nor have they lost any of their faith in his honor or integrity. Its the fellows who didn't support him at the polls, who have always slandered and maligned him on every occasion, who are eternally looking for something to find fault with, who are shedding hypocritical tears over this matter. Not a single decent man of any party, who loves justice and right, and hates a despicable, blackmailing slandering cury believes a word of this story, or desires that Gov. Geer give it a moments thot or a word of explanation.—Plaindealer.

REPUBLICAN CLUBS.

There is a work in the next political campaign which the republican clubs can do better than the executive committee of the party organization and for that reason the clubs of Washington County should be maintained. The state club meets Feb. 6, less than two months hence. This state club is made up of delegates from the precinct clubs. According to the amended constitution of 1898 these representatives are apportioned according to the names on the club roll 30 days before the state club meets. The secretary has to report to the secretary of the state club these names 30 days before Feb. 6. This leaves less than a month for organizing clubs or for correcting rolls of clubs already organized. There ought to be a meeting of the Hillsboro club next week.

The Portland-Manila steamship line did not materialize as soon as expected. The company had no ships of its own, but depended upon chartering boats in the open market. The one secured found at the last hour that its insurance papers would be nullified if it crossed the Pacific so the company had to look elsewhere. Ships are scarce especially since the Boer war which employes so many transports. However the company has found a suitable ship that will be disingaged and ready for the voyage to Portland about January 1st. In the meantime the company's plans are expanding since it is proposed to extend the line south and west to Singapore. If the present plans are carried out it means a monthly line to the Orient and this will require about three ships. Portland is chosen for the American terminus of the line because of its being the great railroad terminus and because it is the cheapest market where flour can be bought.

England is not doing as well in the Boer war as we did in the Spanish war. In '98 it was in good form for Europeans to regard America and its war equipments with levity. They acknowledged our ultimate resources, but our army with its imperfect equipment could not stand before the soldiers of a civilized power. Well the demonstration was commenced, made and ended. With 17,000 we attacked and drove out of Cuban entrenchments 100,000 troops from a civilized European government. England with 100,000 men are struggling with 50,000 Boers and so far with all the up-to date equipments have not been able to get on Boer territory. These two examples conclusively prove that no European nation or two of them combined can land an army in America and secure a firm foot hold.

A Remedy That Cures Paralysis

Mr. H. N. Warner, of Kearney, Neb., says:

"In 1894 I was attacked with paralysis in my left side. You might stick a pin to the head into my left hip and I would not feel it. I was unable to do any kind of work, and had to be turned in bed. I fully made up my mind that I could not be cured, as I had used all kinds of medicine and had tried many doctors. At last I was advised to try Dr. Williams' Pink Pills for Pale People, and I very reluctantly commenced their use last September. Before I had finished my first box I began to feel much better, and by the time I had used six boxes the paralysis disappeared; and although two months have passed since I finished my last box, there has been no recurrence of the disease."

From the Advertiser, Axtell, Neb.

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia rheumatism, nervous headache, the after-effects of la grippe, palpitation of the heart, pale and sallow complexions, all forms of weakness either in male or female.

Dr. Williams' Pink Pills for Pale People are never sold by the dozen or hundred, but always in packages. At all druggists, or direct from the Dr. Williams Medicine Company, Schenectady, N. Y., 50 cents per box. 6 boxes $2.50.

[LETTER TO MRS. PINKHAM NO. 94,397]

"I am so grateful to you for what Lydia E. Pinkham's Vegetable Compound has done for me that I feel as though I must tell about it. A year ago I was taken very sick. Doctors could do me no good only to deaden the pain which I had almost constantly. I got some of your Compound and took one bottle and received benefit from it at once. I have taken it ever since and now have no backache, no pain in my side and my stomach and bowels are perfectly well. I can honestly say that there is nothing like it. If I could only tell every woman how much good your medicine has done me, they would surely try it."—MARTHA M. KING, NORTH ATTLEBORO, MASS.

Women Would Surely Try Mrs. Pinkham's Medicine if They Only Knew, Says Mrs. King

The way women trifle with health shows a degree of indifference that is past understanding. Happiness and usefulness depend on physical health; so does a good disposition. Disease makes women nervous, irritable and snappish. The very effort of ailing women to be good-natured makes them nervous. Write to Mrs. Pinkham, she will help you to health and happiness.

It costs nothing to get Mrs. Pinkham's advice. Her address is Lynn, Mass.
