LOW ASSESSMENTS.

The viciousness of low assessments are hereafter to be realized if never before. Take this county for example. Last year the levy was 20 mills this year it is 24 mills, yet we will not collect as much money by $11,000 or $12,000 as we did last. This fact will not impress itself upon outsiders however, and when we invite foreign capital to this county for investment we will be called upon to explain that 24 mill levy. We can't boast of an economical administration of affairs with those figures on record. It is not a good answer to say that Omaha or Cincinatti has as low valuation. If we could show a 14 mill levy it would carry more weight than to say our assessed valuation is only one-half the cash value. It is not economy to cut down the valuation and raise the levy. We must have money with which to conduct the public business. Since that is true, we might better raise it on a low levy and a high valuation Multnomah has discounted her valuation by $11,000,000 and actually cripples her administration. She did this so as to compell the other counties tu pay a larger proportion of the state revenue. The other counties lowered theirs that they might keep even with Multnomah. The state authorities saw how it is going and rais d the state levy from 5 7 mills, last year's levy, to 6 3 for this so where is the gain to Multnmah or any other county? But next year the assessments will be lower and the levies higher. Where is the end to be? What we need and what must be enacted is a law creating an efficient equalization board. We had such a board a little crude perhaps, but better than none. We now see that another is needed.

THE LOST MINE FOUND

Nearly or quite forty years ago, Hon. Jerry Lamson of Yamhill county was out in the coast range of mountains about the head waters of the Wilhamina on a hunting expedition. He brought home with him a peice of a red rock which was installed on the mantle of his sitting room as a curio. A year or two afterwards a visitor's attention was attracted to the specimen. This guest was something of a metallurgist, and he said the specimen was a very rich lump of Cinnabar—quick silver ore. Lamson thought he could go to the ledge in a day. But he did not nor could he ever find the place. He hunted annually for ten years before his death, and his neighbors with him. The hunt, continued, has been rewarded. Some three or four years ago one McKinley who lived in the mountains found the ledge and has done some work on it, but he kept his secret. He took no steps to obtain a title. Last summer another prospector, Simmons who had a hint of what McKinley had found, stumbled upon the vein and now the secret is out. The sample that Lamson obtained so long ago was very rich, and it is believed that the vein is of equal importance to the celebrated mines in the California coast range of mountains. This Oregon mine is 25 or 30 miles from McMinnville, though not more than ten or fifteen miles from the Yamhill river valley.

STATE PRESS.

The government mints have been open all the year and have been running night and day upon full coinage. More money was coined this year than ever before—$108,000,000 of gold and $28,000,000 of silver. Not only are the mints running full blast but the mills are also running. Everything runs when the republicans are running the country.—Plaindealer.

Goose lake is frozen over and skating parties are now popular in Lake county. Geographically, this portion of the state is in southern Oregon, being nearly in the center of the south line of the state. Lake view, at the head of Goose lake, is farther south than Grants Pass, and a little over 150 miles east of it in a straight line, though nearly twice that far by wagon road. It is one of the problems that confront inhabitants of the eastern states, how two localities so near each other can have such radically different climates, with so few points in common. In southern Oregon, as the term is understood, meaning that portion of the state which lies between the Cascade and Coast ranges, there has been, virtually, no such thing as ice this winter and the two climates are about as near like each other as are those of Michigan and Georgia.—Observer.

All will agree that an event of great business importance for the future is the brilliant success of the administration in influencing other countries in Europe to recognize the "open door" principle in China. As soon as we run into an era of overproduction again, and this cannot be far distant, we shall begin to more clearly appreciate the value of foreign markets and that China is likely to soon prove a valuable outlet for American material.—Albany Herald.

What an eyesore it must be to the several "reform" parties of the country that the wealthiest, most rascally old "plutocrat" in the United States senate is not Mark Hanna, no not even a republican, but old Clark of Montana who is quite a "reformer" himself in his line. In the matter of counting his millions, Clark can complacently declare "I lead, others follow." Otherwise he would never have been in sight of the Montana senatorial toga.—Graphic.

Secretary Gage's specious argument opposing the deposit of bonds to secure circulation will hardly satisfy the ordinary citizen. A man who is able to borrow of a bank $10,000 to draw against, or a like sum as a certificate of deposit to be used in a distant city is known to the bank and the bank is known to him so that there is a mutual confidence, but how can Jim Jones out here in Oregon know that the $5.00 bill on the 1st National bank of Pumkinville, Indiana is a good promise to pay unless it is guaranteed by the bonds of the government? It may be a little onerous to require the bank to put up security but the people will probably continue to demand it.

On every bottle of Shiloh's Consumption Cure is this guarantee: "All we ask of you is to use two-thirds of the contents of this bottle faithfully, then if you can say you are not benefited return the bottle to your Druggist and he may refund the price paid." Price 25 cts, and 50 cts and $1.00. Delta Drug Store.

Do you know consumption is preventable? Science has proven that, and also that neglect is suicidal. The worst cold or cough can be cured with Shiloh's Cough and Consumption Cure. Sold on positive guarantee for over fifty years. Delta Drug Store.

If Shiloh's cough and consumption cure, which is sold for the small price of 25c, 50c and $1 00, does not cure take the bottle back and we will refund your money. Sold for over 50 years on this guarantee. For sale at the Delta Drug Store.

Mrs. Pinkham's Advice Saved Mrs. Hayes From an Operation.

[LETTER TO MRS. PINKHAM NO. 6482]

"DEAR MRS. PINKHAM—Words cannot express my thanks to you for your kind advice to me in regard to my health. I had been running down in health for about seven years. I had doctored with good doctors and taken a great many patent medicines. My trouble began when my first child was born. I had a very hard time and after its birth would have severe flooding spells.

"After my second child I had very good health until last winter when I again became pregnant and suffered very much and miscarried. I came very near dying, and the doctor said I must have an operation, which frightened me very much, and concluded to write to you for your advice, and take your medicine. Was troubled with the whites, great pain in back and hips, sometimes when lying down or sitting was unable to get up. Would have such pain in groins could hardly walk.

"I can say I have never seen anything so wonderful as Lydia E. Pinkham's Vegetable Compound and Sanative Wash. Your remedies have done wonders for me. Hoping that many of my suffering sisters may be led to take your medicine from reading this letter, I remain, sincerely yours, MRS. MARY HAYES, HARDINSBURG, KY."

Letters like the foregoing should convince everyone that Mrs. Pinkham's advice is certain help.

Locomotor Ataxia Cured by Dr. Williams' Pink Pills for Pale People

This is the sworn statement of a man who was cured.

"My lower limbs seemed to be dying—losing all sense of outward feeling. The most excruciating pains made me almost wild with misery and I could not stand alone. I tried electricity with no avail. Several physicians gave me treatment which was not effective. One day I read of a man who had Locomotor Ataxia, and was cured by the use of Dr. Williams' Pink Pills for Pale People. I procured a half dozen boxes, and took them before I was convinced a cure was possible, and finally used one box a week. My pains gradually disappeared, color came back to my flesh. I could walk, run and jump, and actually dispensed with a cane."
