Forest Grove, Jan. 15, 1900.

To the Editor:

Some rather peculiar methods of counting ballots seem to prevail here at Forest Grove. The state law carefully specifies the methods in which this shall be done. In a general way it is as follows: the ballot box is to be opened in presence of the judges and the chairman is to take out the ballots, one at a time, opening each ballot, reading it aloud and passing it to the other judges who examine it, the last of whom runs the ballot upon a string. There is no provision by which any one besides the judges shall handle the ballots, and the general tenor of the law is to the effect that no one else shall be permitted to touch them till they are counted.

The charter of Forest Grove provides that so far as practicable the provisions of general state elections shall apply to municipal elections here.

We have it from several persons who were present when the ballots cast at the recent city election were counted, that the following procedure was had:

The ballots were first turned out on the table and their number counted. When it was ascertained after no less than three countings, that their number corresponded with that on the poll-books, the counting began, the ballots being taken from the pile lying on the table by one of the spectators and handed to one of the judges by whom they were read. The count was very close and not till the last ballot was read was it known certainly who the successful candidates were.

When the vote had so far progressed that only 40 or 50 ballots remained to be counted, the same person who had been taking the folded ballots from the pile on the table and handing them to the judges was noticed to be selecting those containing the "Citizens Ticket," opening and placing them face down in a pile under his hand, passing over to the judges only those which contained the "Progressive Ticket." Just what was the purpose of this rather strange proceeding was not clear to those who saw it, but no one protested. After all the other ballots had been counted, those in the pile were handed in, one by one, and to the surprise of the interested spectators, who supposed the ballots in the pile were all of one kind, several of the "Progressive Ticket's" appeared among them, enough to give the election to the candidate for Mayor on that ticket.

When it was learned afterward that the man who had thus assisted in counting the ballots was present as the special representative of the successful candidate for Mayor—each candidate having been permitted, by the judges, to have such a representative present, people began to comment upon the strangeness of the entire proceeding. There seems little question that the ballots were illegally counted and that the result of the election might be overthrown if it were called to question.

E. R. GREGORY DEAD

Died last Sunday night of Heart Disease and Asthma

WAS AT F. P. MORGAN'S

Was Buried Wednesday at 2 O'clock P. M. in the Masonic Cemetery

E. R. Gregory who has practiced law in the Hillsboro courts for the past two years died quite suddenly at the residence of F. P. Morgan last Sunday night and was buried in Masonic cemetery on Wednesday. The deceased had been sick for a month or six weeks and his death was no surprise to his intimate associates, though the public was shocked by the sudden event. The ailment was valvular weakness of the heart, and that organ had performed its functions till the labor required was more than could be performed. Then was the end

Mr. Gregory lodged in his back office in the Corwin & Wooster building nor would he go to any of the several residences where the comforts of a home were tendered. In speaking of this Mr. H. T. Bagley said his death did not surprise him so much as the fact that Mr. Morgan had got him to go to his residence. On Sunday afternoon Mr. F. P. Morgan persuaded the sick man to go to his residence. The change seemed to cheer Gregory's spirits; he visited with the family and took part in the chat till about nine o'clock when he went to bed. All went well till about one o'clock Monday morning when Mr. Morgans' people were aroused by rappings proceeding from Gregory's room. On entering Gregory was gasping for breath. It was thought by his attendants that he was suffering from an agravated attack of asthma. A messenger was at once sent after Dr. F. J. Bally who promptly came. He at once knew the real disturbance and returned for a medicine. This was forthwith go to the sick room but it was too late for he was too far gone to swallow the dose. The patient lingered till about six o'clock when he passed over the river.

E. R. Gregory was born in the city of St. Johns, New Brunswick, and at his death was 52 years of age. He was a graduate of Harvard college being a member, his brother thinks, of the class of 1869. After leaving college he studied law and practiced in his native city for several years. During this time he held the office of City counsel equal to our District attorney. He came west 9 years ago and practiced law for a time in Portland. Then wanting out door life he came to this county and worked in the woods for a time near Reedville. His heart failing so that manual labor was impossible, about two years ago he came to Hillsboro and offered his services to litigants. Times were slack and the business being monopolized by older attorneys, he had but a meager income, though he was successful in most of the cases he tried.

His weak heart was hereditary, his father before him, having died of the same trouble though at a more advanced age. His mother an aged lady survives him at the old home in New Brunswick. He also leaves five brothers, Robert A. with Bradstreets, New York city; Meledge, in Wisconsin; Thomas W. and James S. in St. Johns, N. B.; and Chas. S. Vancouver B. C. and two sisters Mrs. Lamerean and an unmarried sister in St. Johns N. B. His brother Chas. S. came on the first train from Vancouver arriving here on Wednesday morning in time for the funeral which occurred at two o'clock in the afternoon. The remains were buried in Masonic cemetery. Mr. J. S. Stanton of Portland, a personal friend came out on Tuesday and again on Wednesday to attend the funeral. The funeral services were conducted by Elder Sickafoose.

Mr. Charles S. Gregory feels grateful for the kindness shown to his deceased brother and desires to extend his thanks to all for what they have done. In this he is certain his living brothers and sisters would join were they here and knew of the many acts of kindness shown the deceased.

IMPORTANT TO MOTHERS

The manufacturers of Castoria have been compelled to spend hundreds of thousands of dollars to familiarize the public with the signature of Chas. H. Fletcher. This has been necessitated by reason of pirates counterfeiting the Castoria trade mark. This counterfeiting is a crime not only against the proprietors of Castoria, but against the growing generation. All persons should be careful to see that Castoria bears the signature of Chas. H. Fletcher, if they would guard the health of their children. Parents, and mothers in particular, ought to carefully examine the Castoria advertisements which have been appearing in this paper, and to remember that the wrapper of every bottle of genuine Castoria bears the fac-simile signature of Chas. H. Fletcher, under whose supervision it has been manufactured continuously for over thirty years.—Phila Bulletin.

A few days ago Mr. Harwood [illegible] from the east [illegible] in the Recorder's office [illegible] money. While they could let the gold 20's run through their fingers, the bills would stick and flutter about in a bewildering way so that a triple count was required to satisfy the webfooters that they were getting the right change. Mr. Harwood enjoyed their discomfiture and was willing to pay them something. After all the kind of money is as one is accustomed. To us metallic coin is handiest because we have always used it. To others paper money is preferable.

HAVE YOU USED BUTTER PARCHMENT?

All gilt-edged butter put on the market by creameries is wrapped in paper. The product of the private dairy would reach its market in much better condition if wrapped in Butter Parchment than it does when wrapped in cloth. Parchment is not only better than cloth but cheaper.

Cloth sells at 6 cents per yard from which 27 sheets can be cut —27 Parchment wrappers cost 2¼ cents.

500 Sheets 8x11, - 50 cts,
500 Sheets, 8x13, - - 55 cts

Standard size for 2-pound rolls is 8x11 inches; 2-pound blocks are wrapped in the 8x13 size.

One reason why paper has not been generally used heretofore, farmers could not get it at the general store It is now kept at the Independent office cut to any size wanted.
