DAIRYING IN WASHINGTON COUNTY

Dairying pays as is acknowledged by all authorities whose opinion is valuable. In Oregon the industry has not reached the profit point attained by several of the states in the Mississippi valley, though the statistics gathered lead to the belief that this Pacific state is better adapted to dairying than those east of the Rockies.

The Southern Pacific Company is interested in the dairy development of the Willamette not so much in the expectation of getting butter to carry to market as to increase the general prosperity of the valley. Last year ten or more car loads of butter were pulled across the Rockey mountains, and already this year two cars have come. The company thinks this should not be. Again it appears that Oregon is only about one third as prosperous as California. This can not be attributed to lack of natural resources but rather to lack of enterprise on the part of our citizens or to ignorance of industrial statistics. To remedy the latter the S. P. Company has directed Mr. Markham to send his secretary through the valley to compile industrial information in such shape that the company can use it in answering the questions of possible immigrants. Last Tuesday Mr. H. E. Lounsbury was here to study our dairying. He was not satisfied with what he could learn in the town but took a team and visited the creameries themselves. He shut himself up with the secretaries and their books so that what he reports to his company is reliable. In the evening he was seen at his hotel when he gave out for publication the result of his observation as follows:

A visit through the dairying section of Washington county brings out the fact that, within a radius of ten miles, there are three creameries, namely—"Farmington," "Schulmerich" and "Blooming," manufacturing a product from the sale of which is realized no less than from $20,000 to $25,000 per annum. Nearly all of this amount is distributed among the farmers patronizing the creameries in payment of the butter fat taken from the milk.

The Farmington creamery is owned and operated by a joint stock company whose 28 shares of $50 00 each are held by nine stockholders, all of them patrons of the creamery. This plant is daily receiving the milk from 150 cows, with an average test of 4 2 per cent butter fat per 100 pounds of milk.

The total business of 1899 is shown in the following statement, by months, wherein is contained the total number of pounds of milk handled, number of pounds of butter fat, number of pounds of butter made and total receipts therefor:

Month	Milk lb	butter fat lb	butter lb	rieceipts
January	73,258	3012.9	3518	$957.96
February	73,155	3044.7	3247	924.58
March	65,635	2762 2	3688	849.65
April	74,843	3134.6	2830	813.40
May	80,638	3308 4	3873	720.12
June	80,787	3274.3	3272	643.75
July	71,566	2905.6	3006	599.94
August	66,347	2838.7	3344	685.98
September	69 94	2703.4	3543	705.50
October	71,515	2890.0	3267	868.90
November	68,244	2763.2	3174	880.20
December	62,635	2595.6	3458	825.75
Total	855,745	34942 8	41499	$8612.68

Average test 4 2 per cent. Average number of cows 150. Average price of butter during the year 21 cents per pound. Average earnings per cow $57.42.

The results obtained by the Schulmerick creamery are just as good. 36,195 pounds of butter were manufactured last year from the sale of which was realized $8,000.00. The record of just one patron—that of Mr. Schulmerich for 1899—shows that he furnished a total of 120,350 lbs of milk, testing 4 per cent butter fat, from which 5,568 pounds of butter were made. At the present time Mr. Schulmerich is milking 32 cows from which he derives a revenue from the sale of butter fat only of $225.00 per month, and Mr. Betz is milking 18 cows bringing a revenue of $115.00 per month.

There are no creameries in the east or in other sections of the Willamette valley which, generally speaking, show better results than those obtained by the Washington county companies, and with these figures before us it certainly seems that no one can question the profitableness of this branch of farming. It must be remembered that besides the direct returns from the sale of butter fat there is a considerable saving on the farm through utilizing the skimmed milk for hog feed and also feed for raising calves.

The first and most important, advantage of dairying, however, is that it takes less fertility from the soil than other branches of farming. A ton of wheat takes over $7.00 from the farm and sells for less than $15. A ton of butter takes 50 cents worth of plant food from the farm and sells for from $400 00 to $600.00. Comment is needless.

A Night Of Terror.

"Awful anxiety was felt for the widow of the brave General Burnham of Machias, Me., when the doctors said she could not live till morning" writes Mrs. S. H. Lincoln, who attended her that fearful night. "All thought she must soon die from Pneumonia, but she begged for Dr. King's New Discovery, saying it had more than once saved her life, and had cured her of Consumption. After three small doses she slept easily all night, and its further use completely cured her." This marvelous medicine is guaranteed to cure all Throat, Chest and Lung Diseases. Only 50c and $1.00. Trial bottles free at Delta Drug Store.

Cold Steel Or Death.

"There is but one small chance to save your life and that is through an operation," was the awful prospect set before Mrs. I. B. Hunt, of Lime Ridge, Wis., by her doctor after vainly trying to cure her of a frightful case of stomach trouble and yellow jaundice. He didn't count on the marvelous power of Electric Bitters to cure Stomach and Liver troubles, but she heard of it, took seven bottles, was wholly cured, avoided surgeon's knife, now weighs more and feels better than ever. It's positively guaranteed to cure Stomach, Liver and Kidney troubles and never disappoints. Price 50c at the Delta Drug Store.

A Frightful Blunder

At milking time yesterday evening Esquire S. H. Humphreys had the bone of his right leg broken between the ankle and knee. The fracture was caused by a cow falling on it. Dr. F. A. Bailey reduced the fracture.

At the Congregational church next Sunday the program will be as follows: 11 a m, preaching by Rev. Morton D Dunning, of Forest Grove; 7:30 p m Rev E R Severn a returned missionary and who is now staying at Bethany, will deliver an address prior to his going back to his field of labor.

Washington county on Wednesday awoke from its sleep of a half century and turned over in bed. Bryan the great democratic leader arrived in town at 12 o'clock, high noon. A good many people were on the streets though the crowd was not as great as had been expected. The visitor was at once driven to Hon. W. D. Hare's residence where dinner was served. This with the rest afterward required an hour and a half so that the speakers' stand was not entered till 1:30. The expectant people however were good natured and patient. The audience was estimated by good judges to be 3000. The meeting was in the open air and the band stand was used for the speakers platform. The address was an hour in length and at times was applauded, though the demonstrations were not what we have read of in eastern papers. At the close of the address the party was hurried to the train and whisked away to Portland.

PACIFIC UNIVERSITY.

Although the school was not formally dismissed, a great number of the students were excused and went to Hillsboro to hear Mr. Bryan speak. A great deal of spirit has been arroused recently by the organization of the Bryan and McKinley clubs. And Wednesday when the Bryan delegation drove into town with flying colors, and also presenting the "College" banner, it stirred up considerable resentment within the students whose political beliefs were not in accordance with theirs. This College banner is strictly owned by the students as a body to be used for debates, oratorical contests and the like and when a few radical enthusiasts took upon themselves to appropiate it, for a representation for which it was used Wednesday there is little wonder that it arroused a good deal of a commotion. These Bryan enthusiasts were politely asked by some of the other students not to display the banner at such a demonstration but it was sneaked in and hung on the stand beside the speaker. The majority of students restrained their feelings until the speaker finished then of course attempted to regain the banner. The marshal and deputies seemingly unable to recognize a college scrimmage tried to quiet the disturbance by force, materially aided by the ever ready out of town tough. But as there was no occasion for this, no formal arrests were made and the excitement helped to make up for the lack of enthusiasm during the early part of the program.

Much enthusiasm was manifested last Monday evening April, 2nd, among the students of Pacific University, who are in hearty sympathy with the principles of the republican party by the organization of a McKinley club with about 50 charter members, which number will be greatly increased later. Those elected to direct the affairs of the club for the ensuing three months were: Pres Jeremiah Walker, Vice Pres. V. E. Boardman, Sec. Wm. G. Hale, Treas. J. A. Balsijer, Searg-at-arms, J. W. Shiach. Notwithstanding the fact that all of us are not entitled to a vote, nevertheless we intend to make ourselves conspicuous at political speeches and gatherings during the coming campaign and make manifest our zeal for republicanism, by our presence and the exercise of our vocal organs to a remarkable degree. It gives us unbounded joy to announce that an overwhelming majority of the students of Pacific University represent homes which are "old war horses" in the republican ranks.

HEALTH and beauty are the glories of perfect womanhood.

Women who suffer constantly with weakness peculiar to their sex cannot retain their beauty. Preservation of pretty features and rounded form is a duty women owe to themselves. The mark of excessive monthly suffering is a familiar one in the faces of young American women.

THE MARKS OF SUFFERING

Don't wait, young women, until your good looks are gone past recall. Consult Mrs. Pinkham at the outstart. Write to her at Lynn, Mass.

MISS EDNA ELLIS, Higginsport, Ohio, writes: "DEAR MRS. PINKHAM—I am a school teacher and had suffered untold agony during my menstrual periods for ten years. My nervous system was almost a wreck. I suffered with pain in my side and had almost every ill human flesh is heir to. I had taken treatment from a number of physicians who gave me no relief. In fact one eminent specialist said no medicine could help me, I must submit to an operation. At my mother's request, I wrote to Mrs. Pinkham stating my case in every particular and received a prompt reply. I followed the advice given me and now I suffer no more during menses. If anyone cares to know more about my case, I will cheerfully answer all letters."

MISS KATE COOK, 16 Addison St., Mt. Jackson, Ind., writes: "DEAR MRS. PINKHAM—I am by occupation a school teacher, and for a long while suffered with painful menstruation and nervousness. I have received more benefit from Lydia E. Pinkham's Vegetable Compound than from all remedies that I have ever tried."
