REPUBLICAN PLATFORM

PHILADELPHIA.—Following is the full text of the platform adopted by the Republican Netional convention t The Republicans of the United States through their chosen representatives, met in national convention, looking back upon an unsurpassed record of achievement, and looking forward into a great field of duty and opportunity and appealing to the judgment of their countrymen, make these declarations:

The expectation in which the American people, turning from the Democratio party, intrusted power four years ago to a Republican chief magistrate and a Republican congress, has been met and satisfied. When the people then as-sembled at the polis after a term of Democratic legislation and administra-tion, business was dead, industry paralysed and the national credit dis ly impaired. The country's capital was hidden away and its labor distressed and unemployed. The Democrate prove the ruleous conditions which they had themselves produced than to coin

Prosperity Brought By Republicans. The Republican party denouncing this plan as sure to produce conditions worse than those from which relief was sought, promised to restore prosperity by means of two legislative measures—a protective tariff and a law making gold the standard of value. The people by great majorities issued to the Republican party a commission to enact these laws. This commission has been executed and the Republican promise is redeemed. Prosperity more general and more abundant than we have ever known has followed these enactments. There is no longer any controversy as to the value of any government ob igations. Every America dollar is a gold dollar or its assured equivalent, and American credit stands higher than that of any other nation. Capital is fully employed and everywhere labor is profitably occupied.

tell the story of what Republican government means to the country than this-1801 to 1897 there was an excess of exports over imports of only \$383,024,497. there has been in the short three years of the present Republicanadministrationan enormous sum of \$1,483,788,094, and while the American people, sustained and should be liberally administered, by this Republican legislation, have and preference should be given, where been achieving these splendid triumphs in their business and commerce, they ployment in the public service, to solhave conducted and in victory concluddiers and sailors and to their widows ed a war for liberty and human rights. and ophans.

Indorsement of President McKinley. established in wisdom and in patriot-ism, and at home and abroad it has distinctly elevated and extended the influence of the American nation. Walking untried paths and facing unforeseen responsibilities, President McKinley has been in every situation the true Ameriin vision, strong in judgment, firm in action, always inspiring and deserving

the confidence of his countrymen. In asking the American people to indorse this Republican record and to renew their commission to the Republican party, we remind them of the fact that the menace to their prosperity has always resided in Democratic principles and no less in the general incapacity of the Democratic party to conduct public affairs. The prime essential of business prosperity is public confidence in the good sense of the government and its ability to deal intelligently with all new problems of administration and legislation That confidence the Demematic party has never carned. It is hopelessly madequate, and the country's tiold prosperity, when Democratic success at the polls is announced, halts and ceases

in mere antisipation of Democratic blunders and failures. We renew our allegiance to the prinour confidence in the Wisdom of the legislation of the Fifty-sixth congress by which the parity of all our money and the stability of our currency on a gold basis has been secured. We recognize that interest rates are a potent factor in production and business activity and for the purpose of further equalizing and of further lowering the rates of interest we favor such mo tary legislation as will enable the varytions to be properly met in order that trade may be evenly sustained, labor steadily employed and commerce envolume of money in circulation was never so great per capita

We declare our steadfast opposition silver. No measure to that end could be considered which was without the support of the leading commercial counof the world, However firmly Republican legislation may seem to have secured the country against the pertl of base and discredited currency the election of a Democratic president oredit and to bring once more into question the intention of the American peo-ple to maintain upon the gold standard

We recognize the necessity and propriety of the honest co-operation of capital to meet new business conditions, and especially to extend our rapidly increasing foreign trade, but we condemn tended to restrict business, to create

We renew our faith in the policy of rotection to American labor. In that policy our industries have been estab-lished, diversified and maintained.
