PHILADELPHIA - Following is the full text of the platform adopted by the Republican National convention :

The Republicans of the United States, through their chosen representatives, met in matienal convention, looking back upon an unsurpassed record of achievement, and looking forward into a great field of duty and opportunity and appealing to the judgment of their countrymen, make these declarations:

The expectation in which the American people, turning from the Democratio party, intrusted power four years ago to a Republican chief magistrate and a Republican congress, has been met and satisfied. When the people then as-sembled at the polls after a term of Democratic legislation and administra-tion, busine a was dead, industry paralysed and the national credit disastr ly impaired. The country's capital was hidden away and its labor distress-ad and unemployed. The Democrata prove the ruleous conditions which they had themselves produced than to coin

Prosperity Brought By Republicans. The Republican party denouncing this plan as sure to produce conditions lief was sought, promised to restore prosperity by means of two legislative measures—a protective tariff and a law making gold the standard of value. The people by great majorities issued to the Republican party a commission to enact these laws. This commission has been executed and the Republican promise is redeamed. Proposition was promise is redeemed. Prosperity more general and more abundant than we have ever known has followed these enactments. There is no longer any controversy as to the value of any government ob igntions. Every American dollar is a gold dollar or its assured equivalent, and American credit stands igher than that of any other nation.

Capital is fully employed and every-where labor is profitably occupied. No single fact can more strikingly tell the story of what Republican government means to the country than this—that while during the whole period from ports over imports of only \$888,024,497 there has been in the short three years of the present Republicanadministrationan enormous sum of \$1,483,738,094, and while the American people, sustained by this Republican legislation, have been achieving these splendid triumphs in their business and commerce, they have conducted and in victory concluded a war for liberty and human rights.
