REPUBLICAN PLATFORM

PHILADELPHIA -Following is the full text of the platform adopted by the Re-

publican National convention:
The Republicans of the United States, through their chosen representatives met in national convention, lookin back upon an unsurpassed record of achievement, and looking forward into a great field of duty and opportunity and appealing to the judgment of their countrymen, make these declarations: The expectation in which the Ameri-

party, intrusted power four years ago to a Republican chief magistrate and a Republican congress, has been met and satisfied. When the people then as-sembled at the polls after a term of tion, busine a was dead, industry paralyzed and the national credit disly impaired. The country's capital was hidden away and its labor distressed and unemployed. The Democrate had no other plan with which to improve the ruinous conditions which they silver at the ratio of 16 to 1.

Presperity Brought By Republi The Republican party denouncing even worse than those from which relief was sought, promised to restore prosperity by means of two legislative measures—a protective tariff and a law making gold the standard of value. The people by great majorities issued to the Republican party a commission to enact these laws. This commission has promise is redeemed. Prosperity more general and more abundant than we have ever known has followed these controversy as to the value of any goverument obligations. Every America higher than that of any other nation Capital is fully employed and everywhere labor is profitably occupied.

No single fact can more strikingly tell the story of what Republican govern ment means to the country than thisthat while during the whole period from 1801 to 1897 there was an excess of exports over imports of only \$383,024,497 there has been in the short three years of the present Republican administration at excess of exports over imports in the while the American people, sustained by this Republican legislation, have been achieving these splendid triumphs in their business and commerce, they have conducted and in victory conclued a war for liberty and human rights.

War for Lib rty Not Aggrandisement. No thought of national aggrandizement tarnis ad the high purpose with which American standards were unfurled. It was a war unsought patiently resisted, but when it came the American government was ready. Its fleets were cleared for action. Its armies were in the field, and the quick and signal triumph of its forces on land and foresight of Republican statesmanship.
