

THE EXPERTS REPORT

Was Made Public Wednesday last

MOST OFFICERS PAID UP

Steps will be taken to collect from Ex-Sheriff Ford.

To the Honorable County Court of Washington County, Oregon.

Parsonat to your instructions, we beg to report that we have examined the accounts of the different officials of Washington county, Oregon, as set forth hereinafter and as per statements made a part hereof, said examination covering that period of time on and between the 5th day of July, 1900.

Our instructions being to verify only that portion of the county's affairs which relate to the accounting for its revenues, we have passed over errors in distribution and book-keeping and referring to the county clerk's exhaustive and commendable report of the county's condition, submitted on the 5th day of July, 1900, we deem it necessary only to state those items and accounts which have been found to be erroneous.

In general we have to report that the present system of accounting can be largely improved by the proper segregation on the ledger of the county clerk, of daily and monthly revenues heretofore merged into the county fund account and by making more explanatory entries on the journal of the county clerk, of the county's various transactions. The above suggestions, if followed, would result in an avoidance of the numerous discrepancies now brought to light, and would enable the taxpayers to correctly judge of the county's revenues from all sources, and to collect on any day of the year.

County Treasurer.

We find that there is due Washington county, Oregon, from J. W. Sappington, ex-county treasurer, on the 5th day of July, 1900, the sum of \$233.33 1/10, said sum being unpaid on date hereof, by the proper party, due Washington county, Ore., from E. B. Sappington, ex-county treasurer, on the 5th day of July, 1900, the sum of \$63, said sum being unpaid on date hereof. We find that there was due Washington county, Oregon, from H. P. Ford, ex-sheriff, on the 5th day of July, 1900, the sum of \$24.99, said sum having since been paid.

County Clerk.

We find that there was due Washington county, Oregon, from H. P. Ford, ex-sheriff, on the 5th day of July, 1900, the sum of \$24.99, said sum having since been paid. We find that there was due Washington county, Oregon, from J. A. Laidie, ex-county clerk, on the 5th day of July, 1900, the sum of \$136.30, said sum having since been paid.

County Sheriff.

We find that there was due Washington county, Oregon, from H. P. Ford, ex-sheriff, on the 5th day of July, 1900, the sum of \$24.99, said sum having since been paid. We find that there was due Washington county, Oregon, from J. A. Laidie, ex-county clerk, on the 5th day of July, 1900, the sum of \$136.30, said sum having since been paid.

Recommendations.

We recommend that the county treasurer keep an accurate account of warrants paid in a special book that purpose, and account to show dates of payment and numbers and classification of warrants paid, and date and number of county clerk's receipt for filing and entry. We recommend that all instruments, etc., received by the county clerk be numbered in series consecutively and that all county, probate and circuit court cases be numbered in series consecutively, and that all monies and fees received by the county clerk from the above sources be receipted for by corresponding numbers and so entered on the county records.

Editor's Awful Flight.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, gradually growing weaker day by day. Fortunately, a friend advised trying 'Electric Bitters' and to my great joy and surprise, some bottles cured me. It is the most powerful purifier on earth and the best salve in the world. Cure guaranteed. Only 25 cents. Sold by Delta Drug Store."

That Throbbing Headache.

Would quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for sick and nervous headaches. They make pure blood and strong nerves and build up your health. Easy to take. Try them. Only 25 cents. Money back if not cured. Sold by Delta Drug Store.

Head Letter List.

The following is a list of letters remaining unclaimed for in the postoffice at Hillsboro, Sept. 18, 1900: Annie E. Brown, Mrs. E. Evans, Mrs. M. A. Stillwater. All letters not called for by Sept. 15, will be sent to the Dead Letter Office. One cent will be charged for each letter called for.

Portland Head.

At Gates' Ice Cream Parlor. Plain bread 3 loaves for a dime, cream and french twist 5 cts. a loaf, pullman 10 cts. a loaf. Two deliveries per day, 10:30 a. m. and 4:30 p. m., send in your order. Tickets \$3 for a dime, 8 for a quarter, \$2 for a dollar.

Call on F. J. Barber, Second street

if you want a first-class shave or haircut. Try his razors, either hot or cold.

Warrants Nos. 243 and 244, issued

September 7, 1900, to H. P. Ford, sheriff, amounting to \$1,041.66 and covering a bill for collecting and assessing the delinquent taxes for the years 1891, 1892 and 1893, have been passed by us without further comment than the present.

We regret that the method of filing

the paid county warrants in past years has been such that we have been unable, in the time allowed, to check same to our entire satisfaction, although we feel assured that had we done so they would have been found perfectly correct. In conclusion we take pleasure in stating that we have been treated

COURT THIS WEEK

County Court Met Wednesday last

BID FOR BRIDGE LET

Report of Experts Accepted and was Approved.

Guardianship of Minors

Guardianship of Minors Shipley est. petition of administratrix of estate of J. H. Humphrey, dec'd; asking for an allowance of \$45 for services.

County Court—Law.

Perry T. Bailey adjudged insane and committed to the asylum at Salem.

Commissioner's Court.

Reports of Geo. A. Morgan clerk, Register and Recorder for month of August filed and approved.

Delinquent Taxes to State of Oregon.

Delinquent taxes to state of Oregon. Action of the county judge in drawing warrants to pay delinquent state taxes was approved.

W. H. Hutchison, general agent

for Deering Harvester Co. of Chicago, in the city this week visiting with their agent for Washington Co. Messrs. Schumlerich & Son.

Miss Stuebeling, stenographer of Mr.

Minnow who worked in Congressman Tongue's office four or five years ago was in town this week, doing some extra work in the same office.

U. G. Gardner, blacksmith on Third

street between Main and Washington is confined to his room by an attack of typhoid fever. At last report he was thought to be on the road to recovery.

Mr. W. R. Hoyt is confined to his

room with severe attack of erysipelas. He was attacked on Saturday evening. Yesterday evening it was thought she was somewhat improved.

Mr. John Peters, living on the

Thos. Conell farm west of town, has been sick for several days with blood-poisoning. A slight scratch on the hand made by an out-straw was the origin of the disturbance.

The yield of the wheat harvest in

Middle West this year is extraordinary. How the wheat is cultivated and how it is harvested are the subjects of an extremely readable article in the September Magazine number of The Outlook, called "The West's Golden Harvest."

License to wed were issued Sept. 1,

to Adolph Schumacher, 42, and Thelma Selzinger, 18, and James M. Miller, 24, and Lela M. Cornelius, 26; Sept. 3, Wm. M. Curtis and Lizzie L. Taylor, 40, and Sept. 6, Wm. J. Reed, 28, and Eva Hayes, 28.

Sell out? Yes, now is a good time

to sell. The market seems to be at the top mark, and the reason for supposing this is that contractors are shipping from Nebraska and Dakota. The Orienta demand absorbs all the surplus of the Pacific coast. But when the price justifies transportation across the continent there is no use holding for a higher price. When the contracts now written are filed, and the transports gone, there is almost certain to be a drop in price. But farmers must assess and feed.

A. L. Kline—Rattle-snake Jack—

of Weiser, Idaho, was in Hillsboro last Friday, at which time he sought out and paid a visit to his wife's uncle, G. Williams. Mr. Kline knows Eastern Oregon as a farmer and does his cow pasture, and excepting the master of bridges, he cares little for roads.

Farmers are freely selling hay. It

would seem that this is a good date for selling, and only one word of caution is necessary. Let no one sell short. Keep enough in the barn for feeding this winter and take into account that we may have a bad spell of weather in January.

There was a family reunion at

Wm. Barrett's last Sunday. Hon. Wm. N. Barrett and family from Hillsboro, his uncle, Hon. Ira Parson and family, and Mrs. Parish with children, wife of Hon. J. M. Parish, of Washington, were among the guests.

Ringling Bros. comprised with the

city of Portland in such a way that all parties are satisfied. Ringling paid \$500 for city license, and paid to the city \$500 for the street fair committee.

ST. FAIR EXHIBIT

Exhibit Must be Made From Other States Than Oregon

FAIR IN POPULAR FAVOR

Exhibit will be Made From Other States Than Oregon

But ten days remain before the

opening of the state fair. Exhibitors must commence getting show goods to Salem by the middle of next week. The county exhibit from this county must go forward earlier than that, since its arrangements will require time. All material must be received in Hillsboro by Monday next.

As the time grows nearer for opening

day the interest increases in each department. The keen competition that exists in county exhibit is sure to bring out the greatest display of agricultural and horticultural products ever seen in this state. Until this year, Marion county has always had the advantage of freight rates, but the liberal policy of the Southern Pacific in hauling all exhibits free along its lines gives other counties an opportunity to exhibit never before offered and places them on equal footing with Marion.

The livestock department is fairly

glittering with bright prospects for a big show. The entries already received are far larger than ever received at any former fair and preparations are now being made to build more stock room for the livestock exhibitors. That the fair is attracting more than local attention and will be a great and good advertisement for this state, is seen by the fact that prominent breeders from a distance have made entries. Among those may be mentioned the great show herd of Herefords from Reno, Nev., the property of John Sparks. This is one of the finest herds of Herefords in the United States, and among them are cattle that have competed in all the big show rings East, successfully. This herd alone will be worth going miles to see.

Spokane and Co., of Los Angeles,

bringing up their fine herd of Berkshire hogs to introduce them to the breeders of Oregon. Davis Bros., of Dyer, Mont., are coming all the way from Oregon to show a new and improved breed of hogs called Victoria Swine. Hazelwood Company of Spokane is coming with a herd of dairy cattle, numbering 20 head of Holsteins, Jerseys and Guernseys. They are bringing also a point of Poland China hogs, which are said to be of the richest breeding on the coast. L. K. Cogwell, of Olympia, has entered 20 head of Red Polled cattle. Besides these, the Oregon breeders have made a large entry, and it is expected that they will be well prepared to give the visiting breeders close competition in every class.

IN THE CIRCUIT COURT OF THE

State of Oregon, for Washington County. Geo. H. H. Scott and Margaret Scott, his wife, C. A. Coburn, M. F. Cooke, J. M. Kelly and J. M. Kelly, her husband, Ida M. Scott, Anna Eastman and her husband, A. B. Eastman, Ellen S. Latourette, and D. C. Latourette, her husband and her husband, Isaac Palmer, her husband, Plaintiffs, vs. Helen Smith and Chas. H. Smith, her husband, Margaret Philibann and Augustus Philibann, her husband, Sylvester Ackley, Roy Ackley, Leonard Ackley, Harvey Ackley, Guy Ackley and Leslie Ackley, her husband, Defendants.

To Helen Smith and Chas. H. Smith, her husband, Sylvester Ackley, Roy Ackley, Leonard Ackley, Harvey Ackley, Guy Ackley and Leslie Ackley, her husband, Defendants. You are hereby summoned to appear and answer the complaint against you in the above entitled Court, on or before the 15th day of the time prescribed in said writ, to wit: on the 15th day of August, 1900, at the Court house in Hillsboro, Oregon, for the relief demanded in the complaint in this suit which is for the partition and sale of the following described property, to-wit: Lots one and four of Block four of Forest Heights, a choice lot, situated on the south of the Northeast corner of lot two of said block four and running thence South to said line, said lot two, thence West said South line to Southwest corner of lot 1/2 of said lot two, thence North on stand line of said lot two, to a post 110 feet South of North line of said lot two, thence East to place of beginning, to-wit: Washington County, State of Oregon.

This summons is published by order of

T. A. McBride, Judge of the above entitled Court, duly made and entered of record, July 18, 1900.

C. D. & D. C. LATOURETTE,

Attorneys for Plaintiffs.

EX-TREASURER OF CLACKAMAS COUNTY,

Jacob Shade, aged 75 years died suddenly of heart disease at his home in Oregon City last Saturday morning. The deceased has two daughters, Mrs. Phillip Hassler and Mrs. George Wann living in Hillsboro. They were with Recorder Ralph Wann, grandson, went to Oregon City Saturday morning and remained till after the funeral on Monday. Mr. Shade was a native of Ohio but lived many years in Hillsboro. His first wife, mother of Mrs. James Hassler and Wann died in the latter state. In 1876 the deceased died of heart disease at his home in Hillsboro, his wife, who had been his wife for 31 years ago. She survives her husband.

Mr. J. A. Long, who lives above

Glenview, brought his coal to the county exhibit from his shop in the shape of ax handles from oak and elm boxes from maple gnarls. Mr. Long prefers Oregon oak for handles before eastern hickory. The finish of his ax handles is equal to anything from eastern shops or factories, and seeing the timber is better it is easy to see which will be first chosen by the woodmen. The jewel boxes are fine pieces of cabinet work in that they surpass any initial work from European makers. Along with this mechanical display, Mr. Long shows a sample of buckwheat raised on his land, that is 6 1/2 feet high. This he has artistically packed in a cedar-barrel roll in true Indian style.

W. C. Redmond, of Redmond &

Sappington, last Saturday took a mineralogist to the Nehalem to examine Dr. Patton's coal mine. The mine was visited and the tunnel explored. That hole extends into the mountain about one hundred feet, and was bored some years ago. The coal vein was struck at the further end, where it shows a depth of four and a half feet. The outside of the coal is tar-mashed, but the new fractures show a bright coal luster. The examining engineer said he could pass no intelligent judgment upon its worth till he had made a chemical analysis. It might be of no value for the iron worker's forge, yet good for a fuel even in that case. The new fractures show a bright coal luster. The examining engineer said he could pass no intelligent judgment upon its worth till he had made a chemical analysis. It might be of no value for the iron worker's forge, yet good for a fuel even in that case. The new fractures show a bright coal luster.
