The County Supt. of Clackamas and Multnomah counties will hold a teachers' meeting at Willburg Saturday, June 8. The Willburg grade and school house is three-fourths mile east of Sellwood. The teachers of the east end of Washington county may find it desirable to attend. They will receive a cordial welcome.

Mr. J. E. Hawkins, of Hillsboro, brought to the INDEPENDENT a specimen of strawberries this week that are remarkable for size. Some of them are 3 1/2 inches by 2 1/2 and 1 inch thick. Ten berries weighed 1 1/2 ounces. The berries are of the Sharples variety very desirable for present table use, though not favorites for canning.

Equire Randall has devised a protection for his cherries. He has one tree where the cherries are beginning to turn red. Through the top he has suspended by a cord three sided pieces of bright tin. The lightest breeze causes them to vibrate and whirl. The birds seem to be afraid of the bits of bright flashing metal and shun what before was a favorite tree in which to perch.

Last Saturday evening a squad of 12 year old boys were playing under the are light at the intersection of Main and Second streets. One lad made a rush on Carl, son of Hon. S. B. Huston. Carl dodged but struck his leg against a piece of farm machinery standing in front of Schulmerich Bros.' Store. The skin was split on the outside of his leg over the knee joint and the bone laid bare. The boy is housed up this week, but getting along fairly well.

Mrs. Wm. McLeod aged 72 years died at her home near Dilley last Friday and her remains were buried Saturday afternoon at the Congregational church cemetery near Forest Grove. She was born in Maryland and had resided in Oregon since 1846. Deceased was a daughter of the late J. B. McClaune, of Salem, who crossed the plains to Oregon with Dr. Marcus Whitman in 1836, and returned to Maryland. Mrs. Matheny leaves a husband and the following children: Mrs. Joseph Brasler and Mrs. W. Stone, of Salem; Mrs. M. Wilson, of Seattle; Miss Katherine Matheny, of Portland; the Misses Maren, Della, Stella, and Samuel Matheny, of Gaston.

Memorial Day was fittingly observed at Middleton. Appropriate to the occasion were the exercises held at the public school building, consisting of songs, recitations etc., after which a procession a half mile long was formed of school children, old soldiers and patriotic citizens. This marched to the cemetery where beautiful flowers, nature's own gift were lovingly strewn on the graves of the brave heroes of the Spanish and Civil wars who have gone to join the silent hosts. A few years ago this day was not observed at this place, but by the untiring devotion and zeal of patriotic teachers and a few veterans of the Grand Army of the Republic it is now observed in a manner befitting the brave ones to whom it was dedicated.

State Supt. of Schools Ackerman has recently made a decision that touches the question of who may sign a petition for revising the boundary lines of school districts. The superintendent rules that "Qualifying elector" in the third proviso, Sec. 45 of the school laws, reading as follows: "provided, further, that in districts of the third class any head of a family who is otherwise a qualified elector and having children of school age, may vote at such election without property qualifications," mean any citizen of the state, male or female, who is 21 years of age and has resided in the district 30 days immediately preceding the meeting or election; and, further, that such "elector" cannot vote for any other purpose than the election of school officers; and further that petitions for changing district boundaries must be signed by legal voters and that "legal voters" here means those who can vote for any purpose whatever, and, hence those who can vote only for the election of school officers can not legally sign a petition for the change of a district boundary."

Father Boyd, who hatches up near Dilley tells a good mouse story. Lately mice had annoyed him to such an extent that he declared war. As an instrument of extermination, he bought one of these new fangled rodent traps that has a tale wire that is thrown down by strong spiral springs. The mice contracted the bad habit of playing over the top of his dining table, wherefore he set his trap there. Just to one side was a jar of jam. During one of his meals he had occasion to go out of the dining room. Just before he returned he heard a great crash. The cat, poised past him, tall as big as a baseball bat. She charged to the barn but seemed not to find a resting place. Back she came and under the house she skipped. He returned to the table for investigation. Everything seemed to be in order except the jar of jam which was spattered everywhere over the floor and the glass in a hundred fragments. Soon Mr. Boyd missed his new mouse trap nor could he find it anywhere. When next he skinned milk he found in one of the pans his trap with a part of the cat's lip and whiskers. That explained why the cat ran, and why she does not now jump on the table.

John McNamara, "John Tom" was arrested last Monday morning on a bench warrant issued out of the Circuit Court. The defendant was indicted at the March term of Court on the charge of taking a purse containing money from a shelf in Gates' confectionery store. John probably had wind of what was doing and remained in the back ground. He has been in town for five or more weeks, but seldom or never came on the streets. He however diligently worked in the onion fields in Tualatin bottoms. The case may be tried at the July term of Circuit Court if a jury is called otherwise it will go over till the November term.

Mr. N. Johnson, who lives on the Portland road beyond Cedar Mill was in town Monday. He is busy planting potatoes and will cultivate 7 acres of burbanks this year. He likes to sow wheat on his potato ground, and almost always has a good crop. He prefers rotation to summer fallow. This year however will not have potato ground enough for fall sowing of wheat. One of his neighbors, Mr. Hansen will have planted between 10 and 12 acres of potatoes.

Congressman Tongue accompanied by Mrs. Tongue and his daughter, Mrs. Beams starts this evening for California to meet the River and Harbor Committee. Mr. Tongue will join the party next Tuesday at San Diego. The party embraces the 17 members of the committee with probably the committee clerks and Mr. Barton's stenographer together with the wives of the members and numbers about forty persons. It will come north inspecting harbors and rivers along the way. The Willamette river will be seen and the farms along the bank for Mr. Tongue thinks it is quite as important for the committee to know that we have something to export as it is to have an improved harbor and river channel, or rather it is an unanswerable argument for shipping facilities to know that we have products to be shipped. Portland will be reached Friday morning, June 28. A side trip to The Dalles and possibly beyond, will be taken and another one to Astoria and the mouth of the Columbia. The committee will leave Oregon for Puget Sound on Sunday evening, June 30.

At the last meeting of the city council a resolution was passed which offers the Electric Light & Water Company \$11,000 for its interest in the plant and system now operated, and allowed President Gates five days for acceptance or rejection. Mr. Gates heretofore has offered to sell for \$16,000, so the parties find a difference of \$5,000 between them. It is understood that the city's proposition will be rejected. The matter will then go to arbitration as provided in the contract signed ten years ago. Mayor Bailey states that the city can get all the money needed for refunding outstanding bonds from Chicago capitalists, at a rate of interest less than six per cent. Local money lenders offer money at a less rate and it is probable that a 4 per cent loan can be negotiated. The council finds that if terms can be agreed upon there will be no difficulty in getting money for the purchase price.
