Once before strawberries were sold at $1.00 per crate of 48 boxes the price touched on Wednesday, but only once. Town was full of berries this week and Wednesday and Thursday may be considered the height of the season.

The Hillsboro Cornet Band will, if the weather is at all favorable give its first open air concert of the season in court house yard next Saturday. At the same time and place the Y. P. S. C. E. of Christian church will serve ice cream and cake.

Mrs. E. H. Warren is prostrated with a severe attack of pneumonia, and while her family and friends are anxious, they do not abandon the hope that she will recover. Yesterday at noon her condition was thought to be somewhat improved.

Mr. W. I. Tupper late of Mitchell county, Iowa, is a late arrival who fixes his temporary home in Hillsboro. He has chosen Oregon for his new residence and may buy farm land later on in this county depending on opportunity to do better in some other neighborhood.

Deputy School Supt. S. T. Adams wishes us to express for the pupils of the rural schools of our county who passed the late examination his and their sincere thanks to Mr. T. S. Weatherred of the city for so kindly and neatly filling out their diplomas. They will not soon forget his courtesy.

Prof. Albert Sweetser, of Pacific University, will occupy the pulpit of the Congregational church next Sunday morning at 11. He takes the place of Mr. Hughes who delivered the commencement address before Y. M. and Y. W. C. A. of the college at the chapel. The pastor will occupy his own pulpit in the evening at 8 o'clock.

The date of examination of eighth grade pupils who apply for county diplomas has been changed so as to commence a day earlier than was announced last week. The amended date is June 19 21 inclusive. Examinations will be held in several parts of the county at the same time. Applicants should correspond at once with the county superintendent, touching the place where they can most conveniently attend.

Pres. Mohler of the O. R. & N. Co. writes a letter to the city council of Portland asking that a dry dock 500 feet long with a lifting capacity of 16,000 tons be built. Estimates of promoters heretofore have not gone beyond 10,000 tons, and many have stopped at 8,000, wherefore President Mohler who is in a position to know something of the plans of the Union Pacific must see something big in the transportation possibilities.

At 12:45 p. m. yesterday Miss Milne sent in a telephone alarm stating that the rail road station was on fire. The department promptly responded and had the fire extinguished in 16 minutes after the alarm sounded. The fire originated in a small invoice of patent medicines. The damage is to the drugs, several rolls of matting and to the building, all told a hundred dollars. The new hose was used for the first time.

Loui Manning was buying neat's-foot oil this week at the Pharmacy. The salesman remarked; "This is the genuine." "That is what I want. It is for my team harness that I have used for 17 years." Talking further he stated that the harness is all that he has used in that time and that it is yet good for 3 years wear. The only repairs has been new breast straps. The original cost was $47.50. There were cheaper harness but this set suited him and the cost for 20 years is only $2.37 per year, while a $30.00 set would last no more than 10 years which brings the cost to $3.00 per year. It pays to get good harness and then take care of them.

The following is a list of those pupils in the county who successfully passed the examination and receive certificates of graduation from the public school course, class of 1901:

QUALIFICATION TO TEACH.

Address read before County Sunday School Convention June 6, by Mrs. Robert Imbrie:

In my talk today I am going to give the result of my experience in what I call ungraded Sunday school work, as I think the Sunday schools in the country and the small towns represent the same difference that an ungraded public school does to a graded school.

Every child should attend Sunday school as in addition to a knowledge of the Scriptures there is a certain culture and refinement imparted, which he does not seem to acquire outside.

What is the most important qualification is rather difficult to determine, though in my opinion to be a thorough Christian, to make central in all our life the righteousness of the kingdom of God.

That is, we are to live to do God's will, to be what he made us to be, to do what he wants us to do, to attain the divine beauty, then and then only are we qualified to teach his little ones.

In teaching the lessons that the Great Master has left for us it is necessary to put the principles into practice, one must live the Christ life so far as possible.

It is true that there is a sacredness about personal work that makes most of us shrink from it. It is a grave responsibility to endeavor to teach and lead a soul into the light. A person that is not willing to accept such a responsibility is not qualified.

A teacher must be able to give supplementary work in addition to the regular lessons.

He must elaborate upon them and be able to draw out from the pupils, ideas concerning spiritual things. Especially is this true of the primary teacher. Every superintendent should require his primary teacher to come fully prepared to interest his pupils during the full lesson time, to so interest them that it will leave a lasting impression.

There are many children who never receive any spiritual development or moral training outside the Sunday school, and it requires a tactful person to deal with such. An old saying, "Talent is something but tact is everything" is especially applicable to a Sunday school teacher.

One must have sympathy and above all, love for humanity to interest children. All my life will I remember and cherish the kind and loving sympathy of one of my teachers. He made a practice of visiting and having his class visit him. He entered into our every joy and sorrow. We could go to him in our troubles and he was ever ready to sympathize and consol. Do I need to tell you that it was a serious affair that kept one of his pupils at home?

Though that class of sixteen girls are scattered (some gone to their long last home) his name will always remain green in our memories, and somewhere and sometime I hope his prayer will be answered and he will meet his class again.

A teacher should establish the kingdom of Heaven within himself before attempting to point the way to others.

He should first know that the beginning of Heaven is right here, this day and hour and that one does not have to wait until after death to find either Heaven or hell.

A direct word from a teacher to a pupil may do more good than we know. We all have our opportunities and it is not the opportunities we have but the use we make of them that counts in our life work.

Someone has said, "Never delay to do the duty which the moment brings, whether it be in great or smaller things., for who doth know what he shall do upon the coming day."

Then, fellow teachers, let us try to do our best, for the very longest life is but a drop in the ocean of eternity. So let us live and work together while here on earth; so that when the Master cometh to make up his jewels, we shall all be there, none found wanting in that great "Eternal City" where sin and sorrow are felt or feared no more.

Mrs. Cole living on Second street has a letter of late date from a friend at Ogdensburg, New York in which it is stated that the spring had been so cold and rainy that up to the date of writing spring planting of crops had not been completed. We feel impatient here because of our June showers, but we are more favored than our New York neighbors.

Rev. H Hanson will occupy the pulpit in Baptist church Hillsboro next Sunday morning, June 16th, at 10 30 o'clock. His sermon will be spoken in the German language.

Miss Matie Abbott is visiting at McMinnville this week.

Tax sales were redeemed yesterday amounting to $400.

CITY COUNCIL.

The council met at special session last Tuesday evening. The mayor and all councilmen present except councilman Northrup.

The following communication was received from Pres. Gates of the Light & Water Company:

Hillsboro, Oregon, June 10, 1901

To the Honorable Mayor and City Council of the City of Hillsboro:

Gentlemen.—A copy of your resolution of June 4th, 1901, has been handed to us by the City Recorder and in reply will say we can not accept your offer of $11,000 for the plant of the Light & Water Company, but we are ready to arbitrate its value at any time.

And we would say further, that in order to save the expense of getting two or three high priced men, if the city will select some thoroughly competent man whose character and reputation are above suspicion, the Company will submit to arbitration at his hands.

The Company would further beg leave to suggest that according to the terms of the contract existing between the city and Company the city should determine by ordinance between now and July 7th, 1901 whether or not it will purchase the plant or extend the franchise.

The Company has no desire to be technical about time and is perfectly willing to give the city any reasonable time in which to prepare for the purchase of the plant, if it determines to purchase, but it would like to know between now and then what the city proposes to do. Respectfully submitted,

The Hillsboro Electric Light & Water Company.

By H. V. GATES, president.

No action was taken on the communication.

On motion of Councilman Tameisie a special committee Tameisie, Brown, and Milne, was appointed to act with mayor to select an arbitrator to act for the city with an arbitrator chosen by the Light & Water Company to fix a price on the plant under the terms of the contract.

The recorder was instructed to draw an ordinance authorizing a bond issue to get money with which to buy the Light & Water Company's interest in the plant, and to refund old bonds.

The recorder will also draw ordinance authorizing the council to buy the Light & Water plant.

The bill for 500 feet new fire hose $450 was audited and a warrant voted to pay it. The hose was tested and stood a pressure of 400 pounds to the square inch. The mechanics making the test say that it would have stood 600 pounds.

The finance committee were instructed to correspond with the holders of bonds about to fall due and find out whether the company will take refunding bonds in payment and whether bonds for additional money needed would be taken and at what use. The committee will also personally see local capitalists. It is desired to sell the bonds at home if negotiations can be concluded. The council adjourned to meet in special session this evening.

One of the conductors of the pupil examination that is to be held in several parts of the county June 19 21 makes these pertinent suggestions to those 8th grade pupils who covet a county diploma. He says: In the first place if you use legal cap always keep the red line on your left hand and turn your paper over end wise and from your body. Leave one line blank between each numbered question. Use the Roman letters to designate your answers and put such letters in the middle of the paper on the line left blank. Be sure to read your questions very carefully and think out what you wish to say before you begin to write about it. Do not write the question but make the answer so definite that the examiner is sure of the question from it. Do not get excited or nervous but make haste slowly. Make your answers as short as possible so that they are complete statements and fully answer the questions. In arithmetic work your problems out in full and do not simply give the results. Be neat and do not forget to use capitals properly. Do not make too many paragraphs.

In choosing a place to spend the Fourth, the celebration at West Union, grounds on Holcomb donation, must not be overlooked. The literary exercises are to be of a very high order, and the games in the afternoon will supply side splitting amusement. The music for the day will be furnished by the Bethany Band, which deservedly has a reputation for excellence.

The Hillsboro cornet band has been engaged for the Beaverton celebration.

"Why not spend your vacation at Yaquina Bay, where can be had excellent fare, good fishing, good boating, safe bathing, alluring rides and rambles. The courses and exercises at the Summer School, of 1901, at Newport, will afford great variety of instructions, diversion and entertainment. No other resort offers equal attractions and advantages.

Stephen A. Holcomb aged 79 years who lived on his donation land claim, settled on in 1846, accidentally shot and killed himself last Tuesday afternoon with a gopher gun. No one was an eye witness to the accident though Mrs. Tannock's little daughter had been with him a few minutes before. Holcomb had followed gopher hunting for several years and was employed by farmers for miles around to rid their places of gophers. He had ten or a dozen guns which he used for the purpose, setting the shooting iron in the underground runaways of the pests. He had been trying for several days to kill a gopher that plowed through the yard on the Mauzey place now occupied by Mr. Tannock. About 4 p. m. of Tuesday he left home to set another gun. He had dug down to the runaway and when last seen alive was on his knees adjusting his gun. It is thought that he found a lump of earth that had to be removed and that he laid the gun on the ground between his knees; it is only about ten inches long. In taking it up to replace in the hole the trigger caught on his garments and as he looked down the thing was discharged, the bullet striking his face just below the left eye and coming out at the top of the head.

The remains were buried yesterday from West Union church in Jolly cemetery by Tuality Lodge No 6, A. F. & A. M. of which he was a member. Stephen A. Holcomb was of the 1845 immigration. He bought from Henry Buxton soon after coming to Oregon the claim which afterward was known as the Holcomb D. L. C. This land except the fractions which he alienated to his sons has always been his home. Good citizenship was emphasized throughout his life. His political convictions were decided. When he was a republican he was one all over and clear through and afterward when he changed to a populist he was the most radical o the radicals. It is not too much to say that his prejudices were strong but this very trait brought him friends. Stephen A. Holcomb was welcomed into the society of the first men of the county and state. He never sought office nor held public station except that of school director.

Six sons and one daughter, with his wife survive him. Their eldest daughter was drowned in 1852 being torn from its mother's arms while she was crossing Gale's Creek in a wagon where the water was high. Another child was drowned at the same time and their mothers but barely escaped.

Jackson P. Long, of Downsville, Wis., died June 9, 1901, aged 69 years. Deceased was born near Grafton, Rensselaer county, N. Y., and emigrated to Wisconsin in 1852. At Lincoln's first call for volunteers he enlisted in Co. G. Sixteenth Wis., the regiment's first engagement being at Shilob. In the first day's battle he was wounded in the right knee. Receiving an honorable discharge returned to Wisconsin and the following August wedded Anna M. Harrington, who with twelve children, all grown, survives him. Deceased has one son in Oregon, L. A. Long, of The Argus. Two brothers, Sedgwick Crandall, of Petersburg, N. Y., and Kenyon Crandall, now visiting here, survive him of his immediate family.

Mr. Ralph Wann, county recorder of conveyances, did a sensible thing when on Wednesday last he wedded Miss Vickers. There was a dash of romance attending the ceremony which was conducted by Rev. H. Oberg. Mr. Wann had furnished his future residence ready for occupancy. The bride asserted that a place good enough for them to live in was good enough to be married in. And there they were married in the presence of the friends of both. The entire party accompanied the bride and groom to the railroad station, where the rice throwing took place. There were many packages of rice—shall waste be said? Hardly, for it served the purpose of expressing good will and wishing a happy wedding trip.

The Fourth Quarterly meeting for this conference year of the church of the United Brethren in Christ Hillsboro circuit will be held at Shadybrook school house, Saturday, June 15th 1901 at 2 p. m. Also preaching Friday at 8 p. m. Sabbath, Love feast at 10 a. m. Grove meeting at 11 a. m. In the afternoon there will be a basket dinner. All are cordially invited to attend.

The June number of the Delineator, a fashion journal 17 west 13th St., New York has been received. The magazine does not come regularly so that a comparison of this number can not be made with those sent to subscribers previous to this one, but it is not too much to say that the June number surpasses all that have gone before. As a specimen of printing it is next to the Inland Printer in excellence. The colored illustrations accompanying the article on the Pan-American Exposition are perfect. The fashions are those prevailing and illustrated so that women folks may intelligently select suitable costumes. How an edition of 625,000 can be printed so that the last shall show the same excellence as the first is not explainable except new stereotype plates be substituted for the old before they become badly worn. The Delineator is worthy a place in every family.
