Mr. D. Burkhalter, of Farmington, has built a silo this summer with a capacity of 60 tons. His is a stone structure held together with steel hoops. It sets on a concrete foundation. The ensilage keeps well in these silos except only about a foot in depth on the top where the air could not be excluded till the latest device is adopted which is to spread over the top silled oats which are wet. They soon sprout and form a thick green mat. The air is perfectly excluded.

During last May an infant child of our neighbor was suffering from cholera infantum. The doctors had given up all hope of recovery. I took a bottle of Chamberlain's Cholera, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days time the child had fully recovered. The child is now vigorous and healthy. I have recommended this remedy frequently and have never known it to fail.—Mrs. Curtis Baker, Ohio. Sold by The Delta Drug Store.

William A. Laidlaw's handsome home near West avenue station, Mount Tabor, was burned to the ground by a fire which started there last Monday night at 10:30. The loss is about \$3500, partly covered by insurance. The origin of the fire is supposed to have been a defective flue. Mr. and Mrs. Laidlaw and their two-weeks-old baby had just retired to rest when the fire started and they were cared for at neighbors' houses. Wielding hands worked hard to save the furniture and the piano and most of the more expensive household goods were moved to places of safety before the flames reached them. It was found that the fire had started in the second story and spread toward the roof. In the absence of a regular fire brigade, as Mount Tabor is at present outside the city limits, it was impossible to save the house with the aid of the bucket brigade, who worked gallantly, but they succeeded in preventing the fire from spreading to adjoining property. The fire burned itself out in a little over an hour. A big crowd gathered from the surrounding section, and it was the opinion of many that the fire was an instructive object lesson in furthering the movement which was for its object the bringing of Mount Tabor within the city limits, so that at least sufficient fire protection will be obtained.—Oregonian. Mr. Laidlaw formerly owned a store in this city.

"I have been in the drug business for twenty years and have sold most all of the proprietary medicines of any note. Among the entire list I have never found anything to equal Chamberlain's Colic, Cholera and Diarrhoea Remedy for all stomach and bowel troubles," writes O. W. Wakefield, of Columbus, Ga. "This remedy cured two severe cases of cholera morbus in my family and I have recommended and sold hundreds of bottles of it to customers to their entire satisfaction. It affords a quick and sure cure in a pleasant form." For sale by The Delta Drug Store.

Heartburn.
When the quantity of food taken is too large or the quality too rich, heartburn is likely to follow and especially so if the digestion has been weakened by constipation. Eat slowly and not too freely of easily digested food. Masticate the food thoroughly. Let six hours elapse between meals and when you feel a fullness and weight in the region of the stomach after eating, indicating that you have eaten too much, take one of Chamberlain's Stomach and Liver Tablets and the heartburn will be avoided. For sale by The Delta Drug Store.

HILLSBORO V McMINVILLE.
Nearly 200 people went from Hillsboro and vicinity last Sunday to witness the ball game between Hillsboro and McMinnville, which was won by Hillsboro, 5 to 1, contrary to the expectations of both McMinnville and Hillsboro people. Who won the day for Hillsboro would be difficult to answer. Every man on the team doing excellent work.

Downs, the 16-year-old wonder, pitched a beautiful game from start to finish. The highest number of players who faced him in an inning, was in the seventh, when five men came up but no scores were made in that inning. Only three safe hits were made off him during the entire game. Success caught in fine style and was in the game at all times. McFee made the only sensational catch of the day, catching the ball with one hand after a long run. Very few errors were made on either side.

Matt Redmond pitched a good game for McMinnville.

The score—
Hillsboro: Downs, Pitcher; McFee, Catcher; Hare, S S; Purdin, 1 B; F. Briggs, 2 B; F. Cook, 3 B; McFee, R F; Hatch, C F; Miller, L F.
McMinnville: Matt Redmond, Pitching; Pilkington, Catcher; C. Redmond, Parrott, Livest; N. Brown, N. Brown; McFee, R F; McFee, R F; Hatch, C F; Miller, L F.

Runs by innings—
Hillsboro 0 0 1 0 0 0 0 0—1
McMinnville 0 0 1 0 0 0 0 0—5
Struck out by Downs 8, Redmond 7.
Bases on balls by Downs 1, Redmond 4.
Time of game 1:20

CHURCH BUILDING BURNED.
The Congregational church in Forest Grove, the most prominent building in Forest Grove excepting the college buildings, was fired at 2 o'clock Saturday morning and burned to the ground. Not a thing was saved. It is not known how the fire was started but it is believed by almost, if not, that all it was a home

job by an incendiary. The bells on two churches in the town were subject to be used for spreading fire alarms, that on the Christian church and the one on the Congregational church. The bell on the Christian church had not been used for a year or more as an alarm bell and was known to be out of order. There was an attempt to sound an alarm from the Congregational church but the attempt was a failure. How the bell was put out of service is not known. The incendiary might have tampered with it but if he did, ashes cover his method. There is a well authenticated story to the effect that the water mains were disturbed, but the fire bug failed. The fire department had a 101 of hose on a cart and two nozzles were plugged, each with the leg of a pair of blue cotton overalls. The water was turned into the hose but it did not spout out. Then it was discovered that the nozzles were plugged. The water at the hydrant was turned off to be unplugged. All this took time. The fire getting a better start each minute. By the time the apparatus was in working order the whole building was a mass of flame. A devilish boy may have plugged the nozzle but the people at the Grove think the incendiary did it. The organist went to the church Friday afternoon to practice music for Sabbath services. She entered and saw a small bottle in the aisle and spots on the carpet. A door leading to one of the Sunday school class rooms was ajar. She supposed some one was in the building. She made no investigation, but as was her invariable custom when the janitor or others were about the church. She returned home without touching the organ. There has been friction between members of the church on the one side and adherents to other interests on the other hand but if the opponents expected to awe the church to inactivity by burning their place of worship, they do not know how to read human nature.

The society improved the church the summer before last, by attaching additions that cost about \$1,000. The fire is thought to have been started in this new part. But there had been no fire in the stove for weeks. The building was wired for electric light but the switch for cutting off the current was near the outer entrance door, hence the electric current only just entered the outer hall when the lights were turned off. The church that originally cost \$7,000 was insured in the Fireman's Fund Insurance Co., of San Francisco, for \$2000.

The church stood on a beautiful plot of ground known in Israel Mitchell's plat as surveyed and marked in 1849 as lots 3 and 4, block one. By a bond for a deed, Harvey Clark and wife conveyed the lots to T. A. & P. U. April 23, 1851. This was before a patent from the General Government was received by Harvey Clark for his donation. This patent was issued and bears date, Jan. 18, 1850. It was recorded April 23, 1862. Harvey Clark and wife made good, the bond by a deed to Tualatin Academy and Pacific University dated July 10, 1855, on Nov. 22, 1859 for a consideration of \$600. T. A. & P. U. deeded to Cushing Ellis 10 lots, among which were three church lots 3 and 4, block 1. Harvey Clark and wife joined T. A. & P. U. in this deed, August 15, 1873. Cushing Ellis with his wife, Mary F., conveyed lots 3 and 4, block 1, to the trustees of the 1st Congregational church of Forest Grove. The trustees that year were, Joseph D. Bates, A. J. Anderson and Geo. H. Collier. Bates was a farmer, Anderson was principal of Tualatin Academy and afterward the first president of Whitman College in Walla Walla. Collier was Professor of Natural Sciences in the College. The consideration named in the Ellis deed is 500. It is a quit claim but as the fee simple title seems to have been in Ellis, his quit claim conveyed as good title as a "warrant and defend" could do. The deed however contains this condition clause: Provided however and this conveyance is made and accepted upon the express condition the premises herein described and hereby conveyed shall not be alienated by the said party of the second part but shall continue in perpetual possession. If at any time any part or parcel of said premises shall be conveyed by an instrument of writing to a third party, then this deed will become null and void and the said premises heretofore described and hereby conveyed together with all and singular the tenements, hereditaments and appurtenances thereunto belonging or in anywise appertaining, will revert to the said parties of the first part their heirs and assigns. At first there was a log structure on the ground but it finally became so dilapidated that it was unfit for occupancy except for fleas. In one year, at least, those annoying insects held full possession. In 1858, the building burned last week, was erected, at a cost of about \$7000. It is believed that at that time it was the finest place of worship in the state. Certainly its equal could not be found outside of

Portland. The INDEPENDENT is not certain but names architect McDonaid as the one having in charge his building. At one time there was a mortgage on the church but the abstract books show that it has been cancelled, or rather, it was given so long ago that it is supposed to be cancelled. The purposes of the church in the matter of rebuilding, have not been declared. For the present the society will worship in the chapel of Marsh Hall, which is a comfortable room that will seat a larger congregation than could be done in the old church.

Mr. H. E. Lounsbury, traveling freight agent of the S. P. Company has spent three days in the County this week collecting facts and figures which will be printed in a folder distributed in the east. During the year 1900 the six creameries within a radius of 10 miles from Hillsboro handled 4,885,815 pounds of milk. This produced 201,122 pounds of butter fat which was manufactured into 228,855 pounds of butter which sold for \$54634.83. Deducting the cost of manufacture, transportation to market and commission, there remained \$54,204.48 that was distributed among patrons. The by-product of 4,684,693 pounds of skim milk at 12 1/2 cents per hundred fed to pigs and calves was worth \$5,855. This brings the net income from these six creameries up to over \$60,000.

The Bethany band will give an open air concert at the band stand in the court yard Saturday evening, July 27th. After the concert a dance will be given at the opera house. The Bethany band boys are good musicians and will render some choice pieces.

C. Blaser is walling with brick a cellar excavation under his bar where when completed he will keep beer. He will use a pump acting almost automatically for drawing the beverage. Mr. Blaser expects to keep water out of the cellar by draining into the tile drain running through Second Street. For that purpose he has laid tile on the four sides of his cellar on the outside of the wall. These tile are lower than the top surface of his cement floor.

The Oregon Placer & Power Company that owns a mine near Sumpter in Baker County had privilege of buying an adjoining mine. The stock-holders are Hillsboro people or at least they were all here on Monday of last week. A meeting was held that day at which it was unanimously voted to buy the property paying \$13,000 for it. On the spot \$10,000 of the stock was taken and the remainder the next day. The remarkable thing about the transaction is to note that a little town supposed to be slow going can in two days raise \$13,000 for investment in a money maker with other clamoring for permission to invest.

Mr. Silas Bennett, living about 3 miles north of town had a narrow escape Tuesday just after 1 o'clock. He was in his hay lot mowing away hay and when he started to go down he slid on a pitch fork which had been placed there, times up. Two times went under his arm striking his shoulder bone and one of his ribs, another time struck him in his face. Mr. Bennett had presence of mind enough to throw his left hand around when he felt the fork and caught the handle, in thus doing he undoubtedly saved his life. The handle was seven feet long and tipped over, throwing him about twelve feet away from the hay. Mr. Bennett says he never wants another ride in the air like that again. Dr. Tameisie dressed the wounds.

Mr. Alexander Sutton died at the family residence about two miles southeast of Laurel, at about 1 o'clock yesterday morning, after a few weeks illness from paralysis. Deceased was a native of Missouri, where he was born on March 21, 1837, being at the time of his death, aged 64 years, 3 months and 27 days. He came to Oregon in 1867 settling at Amity, where he resided until 1883 when he removed to Scholls, in this county and remained until 1886 when he took up his residence at the present homestead where he has since continued to live. He was married to Miss Sophia Gregg in 1863. His wife survives him and also five children, viz: Charles H., living at Moscow, Idaho, T. S., living on the home place, N. B., in Colorado, Mrs. O. B. Messenger, of Moro, Sherman Co., Ore. and Mrs. Nellie Williams, of San Francisco Cal. Deceased was an industrious man and a good citizen and had succeeded in clearing out and improving a good farm and making a comfortable home for himself and family. He was a member of Tualatin Lodge A. F. & A. M. of Hillsboro and enjoyed the confidence and esteem of a wide circle of friends and acquaintances. The burial was at Mountain-side cemetery at 2:30 P. M. today.

Amel Wagner is visiting with his parents in town this week.

Bert Hager has gone to Eastern Oregon to work during harvest.

It was stated a few days ago that Messrs. Haines and Shipley had bought 1000 tons of timothy hay for which they paid \$10 per ton or \$10,000 the lot. We all received the statement with very pleased satisfaction and said it was a whole dinner in the bucket. But read the paragraph in another column where it is shown that six dairies wrote to the producers, \$50,000. Dumping that amount of money into a neighborhood year after year and the result will be wealth in the near future.

We in the Willamette valley have always supposed that the wealth of Baker county has been in cattle and in gold mines. The mines are developing wonderfully and deservedly attracting attention. But a representative from that county recently stated that the real wealth of the county is in agriculture. The great sage brush plains of Power River valley are to be wheat fields. This is to be brought about by irrigation. Power River is a small stream running through the prairie and will not furnish water for any considerable system of irrigation, but the land owners are to join in building a system of reservoirs where the water that falls during the winter and spring will be stored for use in the summer. These reservoirs will be shallow and broad. The evaporation will therefore be considerable but the loss will not equal the expense of building high embankments and dams. The sage brush plains are found to be wonderfully productive when watered and the people of Baker county has the watering of the country in mind.

A Good Cough Medicine.
Many thousand have been restored to health and happiness by the use of Chamberlain's Cough Remedy. If affected with any throat or lung trouble, give it a trial for it is certain to prove beneficial. Coughs that have resisted all other treatment for years, have yielded to this remedy and perfect health been restored. Cases that seemed hopeless, that the climate of famous health resorts failed to benefit, have been permanently cured by its use. For sale by The Delta Drug Store.

SUMMONS.
IN THE CIRCUIT COURT OF THE State of Oregon for Washington County.
J. H. Ranous and Fannie Ranous, Plaintiffs,
vs.
D. P. Cartwright, Defendant.

To D. P. Cartwright, the above-named defendant:
In the name of the State of Oregon, you are hereby required to appear and answer the complaint of the plaintiffs filed herein on or before Thursday the 25th day of July 1901, and if you fail so to appear and answer, the plaintiffs will apply to the Court for the relief prayed for in their complaint, to-wit: for a judgment against you for the sum of \$97.50, with interest thereon at the rate of eight per cent per annum since March 18th, 1900, and the costs and disbursements of this suit, and for a decree foreclosing a certain mortgage executed by you to secure the payment of the aforesaid sum of money and which mortgage is recorded on Page 172 of Book 33 of Records of Mortgages of Washington County, Oregon. And further that the land described in said mortgage to-wit: "Lot numbered seven (7) in Fairdale, in Washington County, Oregon, containing five (5) acres," be sold and the proceeds applied to the satisfaction of said judgment. And for such other and further relief as may be equitable. The time prescribed for the publication of this summons is six weeks and the date of its first publication is June 14, 1901.
This summons is served by publication by order of the Honorable L. A. Hoots, county judge of Washington county, Oregon.
Made and dated at Chambers, Hillsboro, Oregon, on June 13th, 1901.
J. H. HUSTON,
Attorney for Plaintiff.
