SPAIN NOT A "FAVORED NATION."

"Under treaty with Spain we agree to give her ships, for ten years, the same privileges our own have. If Spain be allowed free trade with the islands all the commercial nations of Europe may claim it under 'the most favored nation' provision of our treaties with them."

The Corvallis Gazette, that voices the above, does not get the right idea of the Spanish treaty. The treaty was not commercial, and hence no article can be construed as a "favored nation" clause. When Spanish ships were given the same rights as American, it was a part of the purchase price by which the Philippines passed to us, and in no way effects trade relations with other nations. Thus we might have free trade with the Philippines, which would give the same advantage to Spain, yet Japan, or China or Germany could not ask for the same privilege. Spain was not any more made a "favored nation" by giving her ships the same rights in the Philippines with American ships, than when we paid the $20,000,000 cash in that same transaction.

TONGUE ON THE TARIFF.

At a conference between President Roosevelt and the Oregon congressional delegation Congressman Thos. H. Tongue suggested these thoughts for the consideration of the administration relative to the Philippine tariff. In considering the policy of reducing the tariff schedule as Senator Mitchell in the senate is advocating, the president said he wanted to adhere as much as possible to the "open door" policy in the Philippines, in order to maintain that policy in other Asiatic countries. Mr. Tongue said:

"Considering, for a moment, that the policy should be maintained, why should we not lower the duties on cereals, flour, the various food products manufactured from wheat and oats, meats, dairy products, lumber and such articles which would be shipped mainly from the Pacific Coast in the trade in which we can compete with all the rest of the world? In other words why not encourage the use of such food products as we can furnish in great abundance by lowering the duty and cheapening the article, even if we do have to lower the duty on such goods coming from other nations. That is, to lower the duty upon those goods upon which we are quite certain we can withstand the competition from any other nation."

The president replied: "That is a very valuable suggestion. It did not occur to me. It is certainly worth considering, and I certainly shall give it careful consideration."

CONFORMATION OF BEEF AND DAIRY CATTLE.

Under date of January 5th, the U. S. Department of Agriculture issues the following circular descriptive of a bulletin that should be widely circulated and read:

The selection of cattle best suited for their intended use is of great importance to feeders and dairymen; and it is even more important to breeders of either beef or dairy cattle. For the purpose of presenting in a simple and graphic way some imformation concerning the difference between good and inferior animals and the extent to which certain desirable qualities effect their value for beef and dairy utility, the United States Department of Agriculture has had prepared and will soon issue Farmers' Bulletin No. 113 entitled Conformation of Beef and Dairy Cattle. It was prepared by Andrew M. Soule, Professor of Agriculture, and Vice Director of the Tennessee Agricultural Experiment Station. The author has endeavored to define as nearly as possible the ideals that should be kept in view in pursuing the business and to point out as far as possible the relation of these standards to the economic side of animal industries. By diagrams, descriptions and suitable illustrations he has given the information necessry to enable the stock feeder, the breeder, the farmer or the dairyman to become a competent judge of cattle by sight and touch.

Beef and dairy cattle are considered together because stronger contrasts can be drawn and differences can be shown more clearly.

The bulletin is for free distribution and will be sent to any address on application to senators, representatives and delegates to congress, or to the secretary of agriculture, Washington, D. C.

ASTORIA'S NEW PICTURES.

The Kaleidoscope has been turned at Astoria so that The News sees this beautiful picture of what soon is to be:

A rift appears in the clouds that have so long hung over Astoria's horizon. The spirit of progress has suddenly struck the city. It is due to the initative of the Smith Point owners.

Free factory sites mean everything for this city.

A little push and judgment will secure the best business enterprises at this point—by reason of Smith's Point. The switch will secure the sites.

It is an ideal location for factories. Only six miles from the high seas, in a protected harbor, with fresh water for its shipping, it is without an equal in the west.

Everett boasts of its free sites. They are 150 miles from the high seas. They are in salt water. They can only be reached from the interior by a heavy mountain grade.

The free factory sites at Smith's Point are on the only water level grade in the west, from the summit of the Rockies. They are the culmination of the watershed of the greatest river in the west; the second in the nation and the third in the World.

A special published in the Globe-Democrat, dated Chicago, Jan. 7th, states that at the big dispersion sale of Hereford cattle here today Perfection, a bull owned by Thos. Clark, of Beecher, Ill., sold to Gilbert H. Hoxie, of Chicago, for the record price of $9000. This is the highest figure ever paid for a bull in this country, and stands next to the sale of Lord Wilson, in England, some years ago for $19,300. Hoxie is the son of the late John R. Hoxie, the railroad magnate, and is a millionaire. His hobby is fine cattle. He owns a highly improved stock yard at Thornton, Ill., and a big ranch near Taylor, Tex.

Palma, a distinguished Cuban patriot, has been elected president of the New Republic. He takes office in March, and will be the executive to organize the government of the new nation. Thus the Cuban dream of independence that for years has been only a misty idea and an uncertain hope, is within a few weeks to be realized. Uncle Sam will bring his civil officers and his soldiers home, and the Cubans will be at home without company. Can they in that sacred privacy develop the moral fibre necessary for self-government?

The democrats of the country are not quite harmonious. The eastern men of the party stand for gold, while thetr western namesakes are yet dallying with silver. The westerners don't realize what hurt them in 1896 and 1900.

The population of the Philippines is found to be 6,961,330. This is the American count, and is almost four million less than the Spanish.

The assessable property of Oregon has been increased by the amount of $24,000,000, as shown by the 1901 assessment rolls.

Any of the leading makes at greatly reduced prices.

Regular Lincoln $1.50 14 k pens at $1.20. All other grades and makes at same reduced rate

Call and see them before buying.

HOYT, The Jeweler.

A Medicine for Old People.

Rev. Geo. Guy, Greenwich, Kas., is past 83 years of age, yet he says: "I am enjoying excellent health for a man of my age, due entirely to the rejuvenating influences of Dr. Miles' Nervine. It brings sleep and rest when nothing else will, and gives strength and vitality even to one of my old age."

"I am an old soldier," writes Mr. Geo. Watson, of Newton, Ia., "and I have been a great sufferer from nervousness, vertigo, and spinal trouble. Have spent considerable money for medicine and doctors, but with little benefit. I was so bad my mind showed signs of weakness. I began taking Dr. Miles' Nervine, and I know it saved my life."

Dr. Miles' **Nervine**

Saved me from the insane asylum," Mrs. A. M. Heifner, of Jerico Springs, Mo., writes. "I was so nervous that I could scarcely control myself, could not sleep nor rest, would even forget the names of my own children at times. I commenced using Dr. Miles' Nervine and it helped me from the first, and now I am perfectly well."

Sold by all Druggists on Guarantee.

Dr. Miles Medical Co., Elkhart, Ind.

Biliousness

"I have used your valuable CASCARETS and find them perfect. Couldn't do without them. I have used them for some time for indigestion and biliousness and am now completely cured. Recommend them, to every one. Once tried, you will never be without them in the family." EDW. A. MARX, Albany, N. Y.

Kodol Dyspepsia Cure

Digests what you eat.

This preparation contains all of the digestants and digests all kinds of food. It gives instant relief and never fails to cure. It allows you to eat all the food you want. The most sensitive stomachs can take it. By its use many thousands of dyspeptics have been cured after everything else failed. It prevents formation of gas on the stomach, relieving all distress after eating. Dieting unnecessary. Pleasant to take.

it can't help but do you good

Prepared only by E. C. DeWITT & Co., Chicago. The $1. bottle contains 2½ times the 50c. size.

Out of Plumb.

When the wall is out of plumb the building is more or less unsafe, and the higher the wall is carried out of the perpendicular the greater the danger of collapse. It's about so with the health; it is out of plumb when the digestion is impaired, when there is a dull, sluggish feeling, with nervousness, irritability and sleeplessness. Every day that these symptoms are neglected increases the liability to physical collapse.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It purifies the blood and cures nervousness, irritability and sleeplessness by curing the diseases in which they originate.

"For three years I suffered untold agony," writes Mrs. H. S. White, of Stanstead, Stanstead Co., Quebec. "I would have spells of trembling and being sick at my stomach, pain in right side all the time; then it would work up into my stomach and—such distress it is impossible to describe. I wrote to the World's Dispensary Medical Association, stating my case to them, and they very promptly answered and told me what to do. I took eight bottles of Dr. Pierce's Golden Medical Discovery, and five vials of Dr. Pierce's Pleasant Pellets. Thanks to Dr. Pierce and his medicine I am a well woman to-day. Dr. Pierce's medicines also cured my mother of liver complaint from which she has been a sufferer for fifteen years. We highly recommend these medicines to all suffering people."

The People's Common Sense Medical Adviser, a book containing 1008 pages, is given away. Send 21 one-cent stamps for expense of mailing *only*, for the book in paper covers, or 31 stamps for the volume bound in cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

Onions—$1.25 cwt,

BRIGHT'S DISEASE.

The largest sum ever paid for a prescription, changed hands in San Francisco, Aug. 30, 1901. The transfer involved in coin and stock $112,500.00 and was paid by a party of business men for a specific for Bright's Disease and Diabetes, hitherto incurable diseases.

They commenced the serious investigation of the specific Nov. 15, 1900. They interviewed scores of the cured and tried it out on its merits by putting over three dozen cases on the treatment and watching them. They also got physicians to name chronic, incurable cases, and administered it with the physicians for judges. Up to Aug. 25, eighty-seven per cent of the test cases were either well or progressing favorably.

There being but thirteen per cent of failures, the parties were satisfied and closed the transaction. The proceedings of the investigating committee and the clinical reports of the test cases were published and will be mailed free on application. Address JOHN J. FULTON COMPANY, 420 Montgomery St. San Francisco, Cal.
