FRIDAY, JUNE 30, 1902.

The elephant was badly handled in Marion county. Geer seems to have given him a plug of tobacco.

That democratic mule that Huston rode was a good puller. The majority of 270 for Furnish in this county certifies to that fact. The mule ought to have had just such riders in some other counties.

Frank Davey representative elect from Marion county is announced as a candidate for speaker of the next house. Lets see. Marion county went something over two hundred and fifty for Chamberlain, did it not?

The time was when Oregon was classed as a grain state, that is, the leading industry was grain. It is different now. We are a lumber state now. Last year the lumber trade brought about $3,000,000 more into the state than grain and its products.

Williamson is elected to congress in the second district by 6649 plurality with five counties to hear from. Thus the majority in the state on congressman is over 12000 and in an off year too. We have the Philippines and will keep 'em.

The iron masters have fixed the price of steel rails for 1903 at $28 per ton. In 1867 when they were first made in commercial quantities the price was $166 per ton. In 1898 they sold for $17.62 then the steel trust increased the price to the present figure.

Stump speakers during the late campaign stated that we sold about $600,000,000 worth of products more than we bought. If this vast sum of money continues to be poured into the United States year after year there is nothing to prevent us becoming a wealthy people.

There is no beef trust in Oregon. Our population is not so dense but individual butchers can supply the custom that is tributary. Especially in the country and country towns is this true. A butcher kills two or three bullocks per week and retails the meat by the side of his competitor. Thus competition keeps prices within bounds. Further, the trade is to small too entice the big dealers who alone are able to make combines.

The Boer war of South Africa is ended. Peace papers were signed last Saturday by Milner and Kitchener on one side and the Boer leaders on the other. The Boers have lost their national government but obtained homes that will be protected. All in all their political condition will be better than it was before. England has expanded and has an experience in campaigning that could have been learned no where else.

The New York court has enjoined the meat trust from doing business in that state. They are restrained and enjoined from fixing and determining, by combining together, the prices to be charged for meat, and from agreeing among themselves as to the supply of meat to be brought into this state by them, and from acting upon any understanding tending to diminish such supply, and from fixing or maintaining prices of their and each other's products by agreement. They are also enjoined from acting under any agreement whereby the price of labor shall be affected or competition therein affected, and also from maintaining uniform rules for credit to dealers or fixing uniform prices for cartage.

The comments of the eastern press shows that the political situation in Oregon is quite well understood there. Oregon is for Expansion. We are not flag furiers and the fact was emphasized at Monday's election. The New York Sun's comment is a fair voice of what all say. It writes: "Assuming that the complete returns will elect a democratic governor, the defeat of Furnish is manifestly due to local and personal causes and the operation of the sinister influences of which we spoke before the election. The size of the pluralities for the rest of the state ticket and for the candidates for Congress indicates no reaction on the Pacific Coast against the administration and the republican policy in national affairs. This should encourage the managers of the campaign in all the districts of the November states. The issue of stay or scuttle was clearly defined in the Oregon contest. Oregon emphatically answers "Stay," and contributes the first elected members of the republican majority in the Fifty-eighth House."

HOLY WRIT AND THE RICH MAN

The Oregonian takes exception to Bishop Potter of Yale College, when he says, "Christ did not denounce wealth any more than he did poverty." The Portland paper contends that this is "not the lesson of the parable of Dives and Lazarus." The editor fails to get the spirit of Christianity as generally recognized by the followers of Jesus and the religion of the Bible. The service is one of the heart and the money that one has enters not into the problem only as man lets it control his life. There are elements attending wealth that are clogs to man's spiritual growth. The wrong use of wealth Christ condemns. Dives put his trust in riches and enjoyed his good things on earth while Lazarus was indifferent to the moment here but looked forward to what an eternity had in store. Matthew was a wealthy man yet he was chosen for an apostle. Zacheus was a wealthy man but he had a heart for heavenly things and was accorded the privilege of personal association with Jesus. Jesus was not a socialist as we modern understand that term. Man must keep in mind that Deity looks at his heart and not into his pocket.

THE RECENT BUSINESS IDEA.

The business methods of the present time seem to call for new terms to express business ideas. Syndicate sounded a little foreign for a time, but eventually became a familiar word. Trusts and combines dropped in to stay, and the homely old terms of partnership and copartnership passed down the line to take place with terms seldom used or obsolete. Now comes Merger, a rather more formidable expression, as it has to define more extensive operations.

Merge is defined to mean "to be sunk, swallowed up, or lost." Merger is one who or that which merges. So we have the Merger, proposed by J. J. Hill, et al, by which he designed to sink, swallow, or in some manner destroy the identity of certain railway corporations, to the end that they will cease to be competitive lines only to the extent and in the manner that may suit his convenience. There are other merges in many enterprises too numerous to mention, involving fortunes of immense magnitude, but the NSCo appears to be the only one deeply involved in law suits to keep the antis from smothering it.

The last combination that is of interest to the public—because it assures increased rates for transportation, is the gigantic merger of express companies, which merges the interests of the Adams, American, United States and Wells, Fargo companies. Which one does the swallowing act will never be divulged and the lost identity will be a strong bar to future judicial investigation. As a guarantee that the merger will merge E. H. Harriman will be made president.

On May 26, there was in the U. S. treasury, division of redemption, $833,546,089. In the general fund there was $272,022,059.94, while the liabilities were but $81,400,867.84, leaving a net balance of $190,621,-192.10. The receipts of the government for the month of May ending that date were $40,736,410.26. The expenditures for the same time were $35,475,000, leavieg $5,259,410,26 to pay on the national debt. During May $429,643 in U. S. notes and silver certificates were redeemed in gold. It is this fine financial condition that makes it possible to convert our high interest bearing bonds into 2 per cents.

The war in South Africa is ended but the English tariff on breadstuffs has not been repealed and the treasury officials state that it will not be. Of this fact, we of the Pacific coast must take account. We need not raise less wheat, but we must hunt a new market. The road to this lies across the Pacific. For five hundred years Western Europe has hunted for a short way to that mart and have not been able because of the continent of America. Now we of Oregon have surmounted that barrier and there is nothing to hinder our galleons sailing directly into the harbors of Cathay.

FOR GOVERNOR.

The table below gives the reported returns on the election held on Monday. Note that Chamberlain leads Furnish by only 10 votes with four counties to hear from, Curry, Gilliam, Grant and Malheur. In 1898 these counties gave 116 republican majority. Two years ago the same counties went republican by 289. Surely we ought to get 11 votes out of those counties especially as they are remote and not much effected by the factional fight that has raged at the center. Furnish is governor.

Since the above table was compiled and put in type a mistake of more than 200 has been discovered in the count of Multnomah. The correction is in favor of Chamberlain. Reports from the other counties have been received and it now appears that Chamberlain leads by 335.

Tongue's majority in the district is 5428 with Curry to hear from. Two years ago it was 3019.

The state senate will contain 24 republicans and 6 democrats. Of these 6, only 3 were elected on Monday, the other 3 being holdovers. The house contains 48 republicans and 12 democrats. On joint ballot the republicans can cast 72 votes to 18 by the democrats. C. E. S. Wood will not be senator.

Chairman White of the democratic central committee has set the lid of his talk box in motion and swears by the "eternal gods" that Chamberlain shall be governor. But just the same if it shall appear by the official court that Furnish has been elected he will be inaugurated.

The strikers in Celcago refuse to let free labor work in peace. Rioting was the rule on Wednesday. There were many broken heads but no lives were lost. At 4 o'clock yesterday morning the strikers demands were conceded and the free laborers were discharged. It will be a one difficult next time to get non-union men to take the place of the strikers. Employers may just as well surrender at first.

Shot in His Leg.

For all kinds of sores, burns, bruises or other wounds, DeWitt's Witch Hazel Salve is a sure cure. Skin diseases yield to it at once. Never fails in cases of piles. Lasting and healing. None genuine but De Witt's. Beware of counterfeits. "I suffered for many years from a sore caused by a gun shot wound in my left leg," says A. S. Fuller, English, Ind. "It would not heal and gave me much trouble. I used all kinds of remedies to no purpose until I tried De Witt's Witch Hazel Salve. A few boxes completely cured me." Delta drug store.

BRIGHT'S DISEASE.

The largest sum ever paid for a prescription, changed hands in San Francisco, Aug. 30, 1901. The transfer involved in coin and stock $11,500.00 and was paid by a party of business men for a specific for Bright's Disease and Diabetes, hitherto incurable diseases.

They commenced the serious investigation of the specific Nov. 15, 1900. They interviewed scores of the cured and tried it out on its merits by putting over three dozen cases on the treatment and watching them. They also got physicians to name chronic, incurable cases, and administered it with the physicians for judges. Up to Aug. 5, eighty-seven per cent of the test cases were either well or progressing favorably.

There being but thirteen per cent of failures, the parties were satisfied and closed the transaction. The proceedings of the investigating committee and the clinical reports of the test cases were published and will be mailed free on application. Address JOHN J. FULTON COMPANY, 40 Montgomery St. San Francisco, Cal.
