EMPERORS WILL MEET

EMPEROR WILLIAM LEAVES TO MEET THE CZAR.

Disarmament of the Continental Powers and the New Commercial Treaty Will be Discussed by the Two Noted Sovereigns of Two Great Nations.

Kiel, Aug. 5.—The Imperial yacht Hohenzollern, with Emperor William aboard, sailed yesterday morning for Revel, Russia, where his majesty is going to pay a visit to the czar on the occasion of the Russian naval maneuvers.

St. Petersburg, Aug. 5.—Extensive preparations are being made for the reception of Emperor William on his approaching visit to Russia. He will be met by the czar in the royal yacht of the Russian navy, which will arrive at the port of the Russian capital on the day of the emperor's arrival.

Berlin, Aug. 5.—The King of Italy's proposal of a contraction of European armaments is a subject on which the czar and the German emperor will converse at their meeting at Revel, on the occasion of the Russian naval maneuvers. Emperor William almost certainly will give the suggestion an encouraging reply.

His opinion, well known to diplomats, is that the disarmament is a dream of the future and a fantastic idea when considered in connection with the existing conditions of the world.

Germany cannot consent to limit her fleet in time of peace, which is the defense of her existence, he is quoted as saying, "because other nations are unable to equal it. We can stand the expense and besides I consider that the army tempo in the future all that it costs, in discipline of character and wholesome training of the boy."

Opinion here does not regard the meeting of the emperors as of large importance, though it cannot be called a mere visit of kinship, for the czar is the chancellor, Count von Bismarck, and Count Lamedorf, the Russian minister of foreign affairs, accompany their respective sovereigns.

A new commercial treaty between Russia and Germany is regarded as still a long way off, but the Tageblatt thinks this is one of the subjects to be discussed by the emperors. Some government journals express regret that there is still a strong anti-German feeling in Russian political circles.

Prince Henry joined the emperor of the trip, and this seems to have been a late thought, as nothing was known publicly about the prince's intention to go to Revel until the official announcement yesterday. Prince Henry went on board the Hohenzollern last night. The prince, two or three days ago, assisted in saving the life of the Austrian balloonist, Strohschneider, whose balloon collapsed over Kiel harbor. The prince saw the accident, went in a pine-tree himself to rescue the balloonist, and took him on board the Kaiser Frederick III.

Attention to Burn Railway Bridge. Pleasanton, Aug. 5.—Some person or persons as yet unknown set fire to the railroad bridge one and a half miles south of this place early yesterday morning. Coal oil was used to start the fire, and the approach of the bridge, and the heavy timbers that supported the structure for 100 feet. The flames were discovered at 1 o'clock by a special Southern Pacific watchman, who secured assistance and extinguished the blaze before it had time to destroy or badly damage the trestle.

Grasshoppers in Livermore Valley. Oakland, Aug. 5.—A grasshopper pest has appeared in the Livermore valley, and the farmers are fearful that their crops will be destroyed. Last week a large number of insects raided the orchards and vineyards. The trees on the Lorraine place have been stripped clean of leaves. Sulphur is being burned in great quantities, and it is hoped that the raid may be speedily checked.

Earthquake in Montana. Helena, Mont., Aug. 5.—An earthquake in Missoula county last evening caused slight damage. It lasted about two seconds, vibrations being quick and short. At Bonner one of the large dynamo at the electrical plant was shaken from its adjustment. At Clinton the stocks were quite severe. The operator reported that several buildings collapsed.

Women's Congress in Session. Mont. Eagle, Tenn., Aug. 5.—The women's congress opened here yesterday with delegates present from all the leading women's organizations of the state. Among the speakers were Mrs. Selma Hallman of Tennessee, Mrs. Victoria Campbell, Mrs. Jewett Talford and Mrs. Corde Lee Carter.

The Woman Did the Fighting. Clearfield, Pa., Aug. 5.—Carl Pelegis, a farmer, quarreled with his landlord, Ulrich Tokar, on a farm one mile north of Clearfield over the division of the wheat crop. In a fight that followed Mrs. Pelegis struck Mrs. Tokar on the head with a hoe, cutting a deep gash. Mrs. Tokar was killed.

Steyn is now in England. London, Aug. 4.—Former President Steyn of the Orange Free State has arrived in England with his family. He will go to The Hague, whither former President Kruger will go from Utrecht to meet him.

REPUBLICAN TEXT BOOK ISSUED.

Book Notes for the Spell Binders of the Republican Persuasion.

Washington, Aug. 5.—The Republican text book for the campaign of 1902 has been issued by the Republican congressional committee. The book, which is in pamphlet form, containing 250 pages, makes liberal quotations from the speeches of both McKinley and Roosevelt and also extracts from their messages to congress in support of the Republican doctrine. The book reviews the record of the Republican party from its beginning to the present time. Under the heading, "Protection and Prosperity," eighty-one pages are devoted to advocacy of protection.

Twenty pages are devoted to the trusts, and in opening the discussion the book thus describes the attitude of the two parties:

"The attitude of the two great parties on the trust question is clearly defined. That of the Democratic party looks to constant agitation, with no restrictive legislation. Members of the Republican party favor such restriction as will prevent arbitrary advances in price or reduction in wages through exclusive control, but not the destruction by legislative or injury by factitious agitation of legitimate enterprise, through the great manufacturing system by which production is cheapened, prices of manufactures reduced and permanency of employment assured."

Following this is the record of the Republican party on the trust question, mention of the Sherman anti-trust law, McKinley's recommendation, proposed legislation by the Republican and a quotation from Roosevelt's message to the Forty-seventh congress which is described as "conservative and fearless." The assertion is made that the share of trusts in business is comparatively small. The book says: "The trusts have not captured a significant place in the manufacturing industry as they have in public discussion."

Further along it is asserted: "The Republican administration of President McKinley and President Roosevelt have made a good record in their efforts to execute the anti-trust laws. There has been no shrinking of duty because of the powerful financial influence behind the trusts. Taxes on Republican candidates have recognized no man or corporation as above the law." The assertion also is made that "free trade England is the home of trusts."

Ninety-five pages of the publication are devoted to the Philippines and the Republican policy, which includes the early stages of the acquisition, the conduct of the army, declarations from prominent people that the Philippines are not ready for independence and a large portion of Admiral Dewey's testimony before the senate Philippine commission, in which he gave his opinion of Aguinaldo. President Roosevelt's declaration of duty to direct so far as it refers to the conduct of the soldiers to the Philippines, is quoted entire. There is also some discussion of trade with the insular possessions.

More than twenty pages are given to the discussion of the gold standard and an outline of the Republican policy on financial questions.

A chapter is given to diplomacy in the Orient and a declaration is made that "McKinley's policy saved China from dismemberment."

The declaration by the late Amos J. Cummings, "When I refuse to protect the lives of American soldiers, I hope I shall be paralyzed," heads a chapter which declares that "Democrats oppose army appropriations."

Reference is made to the repeal of the war taxes.

Credit is given the Republican party for the isthmian canal.

Considerable space is given to Cuba and it is asserted "that the ground work of a republican form of government was laid by the United States under a Republican policy."

Liberal quotations are made from President McKinley's speech at Buffalo. Reference is made to the Republican efforts to revive the American merchant marine. The Fifty-seventh congress is referred to as a "distinctly business congress," and the principal acts of that congress are mentioned, especial reference being made to the new policy in aid of reclaiming the arid lands of the west. The Republican party is asserted to be the friend of the old soldiers and the pension laws it has enacted are enumerated. The claim is made that rural free delivery is due to Republican legislation and administration.

In the closing pages of the book is a chapter entitled "Democratic Harmony" reference is made to the Tilden-Doan fight, (here being a quotation from former President Cleveland's speech and the comments of William J. Bryan and Henry Watterson upon it and the efforts toward Democratic harmony.)

The book is intended for the use of campaign orators and is designed as an exposition of Republican policies generally.

POLICE DO SOME FIGHTING.

Leader of a Fanatical Society Put to Rout.

Manila, Aug. 5.—Governor Benavides of Palawan province has written Acting Governor Wright that the combined police forces of seven towns attacked and defeated a force under Roberto Rico, leader of a fanatical Philippine society. Many of Rico's followers were killed or wounded, but only a few of the police were hurt. The next occurred near Apurimaco. General Pavla has arrived here from Misiones and has had an extended conference with General Chaffee on the general situation.

THE NEXT CONGRESS.

The attention of the democratic reorganizers is called to the fact that two other state conventions of their party have indored the Kansas City platform. The Texas and the North Carolina democrats have just done this, following the example of the democrats of Missouri and other states. Bryanism is not so near being dead as many democratic politicians would like. They will have to reckon with it for another presidential canvass at least. They may keep it out of their national platform in 1904, but the supporters of Bryan in the states in which he is still potent will pass judgement on that platform and the candidates who stand upon it.

Mr. Bryan is understood to have been particularly well pleased by the plank in the recent Missouri democratic platform endorsing the Kansas City deliverance of 1900. He ought to be pleased with that mark of confidence expressed in him by his party in one of the great states. He was the author of the platform of 1900. All that was distinctive in it he wrote, and he forced the trimmers and dodgers at Kansas City to adopt it. There were delegates in that gathering who, though theoretically favorable to Bryan, would have omitted all mention of silver, and would have made no reference to it in any way. He turned all those persons down, compelled the convention to put in the plank which he wrote, and now, when he sees his work of 1900 praised by the democrats of Missouri, Texas, North Carolina and other states, he is naturally elated. If the reorganizers do not like this doctrine he tells them to make the most of it.—Globe Democrat.

APPORTIONMENT STATE SCHOOL FUND.

State Treasurer Charles S. Moore, Aug. 2, apportioned the proceeds of the irreducible school fund, \$214,639.35, among the counties of the state, upon the basis of school population. This is the largest sum ever realized in one year upon the irreducible school fund, though the rate of interest is lower now than it was a few years ago. The irreducible school fund is made up of the money received from the sale of school lands. The money is lent on real estate security at 6 per cent interest, and the interest is divided among the counties August 1, of each year. The school population of each county and the amount apportioned to each are as follows:

County—	No. of children.	Amount.

Wants To Help Oth rs.

"I had stomach trouble all my life," says Edw. Mehler, proprietor of the Union Bottling Works, Erie, Pa., "and tried all kinds of remedies, went to several doctors and spent considerable money trying to get a moment's peace. Finally I read of Kodol Dyspepsia Cure and I have been taking it to my great satisfaction. I never found its equal for stomach trouble and gladly recommend it in hope that it may help other sufferers." Kodol Dyspepsia Cure cures all stomach troubles. You don't have to diet. Kodol Dyspepsia Cure digests what you eat. Delta drug store.

In the opinion of the Brooklyn Eagle, a democratic paper of the Cleveland group, Mr. Bryan is "a good man to ignore." The Eagle's proposed plan is to adopt a gold standard platform and take any candidate the democratic national convention sees fit to name. Mr. Bryan however, is a hard man to ignore in democratic affairs. He is the most popular democrat and the party managers may make the most of it.

Saves a Woman's Life.

Another victim of giant powder was brought into The Dalles Thursday, W. H. Durban, whose place is about five miles below the city on Chenoweth Creek, being the unfortunate. He was blasting some logs and set a can containing four pounds of powder down behind him while he went to light a fuse. By some unaccountable means the powder ignited in the can and a bad explosion occurred, in which Durban had both arms burned, the left one terribly. The left side of his face was burned.

Saved Many a Time.

Don't neglect coughs and colds even if it is spring. Such cases often result seriously at this season just because people are careless. A dose of One Minute Cough Cure will remove all danger. Absolutely safe. Acts at once. Sure cure for coughs, cold, croup, bronchitis and other throat and lung troubles. "I have used One Minute Cough Cure several years," says Postmaster C. O. Dawson, Barr, Ill. "It is the very best cough medicine on the market. It has saved me many a severe spell of sickness and I warmly recommend it." The children's favorite. Delta drug store.

NEWS OF THE STATE.

A channel 23 feet deep and 1200 feet long has been dredged out in the Willamette river in front of Oceanic dock, Portland.

Two masked men robbed a scow at Astoria of \$420 last Friday night, but before they got the money they tied the owner with cords.

Agent McKinney and associates of the Harriman, finished up the inspection of Oregon at Baker City August 1, and immediately started for Chicago, where they will begin work.

The mill men of Portland have formed a lumber trust. The combine announces that there will be no increase in the price of lumber except that fixed by supply and demand.

A 30-stamp quartz mill is building on the Treasury mine in the Blue river country east of Albany. The Treasury is prospecting well and bids fair to surpass the Lucky Boy and Poor Man who have been the great producers heretofore.

The Grants Pass Observer states that the gravel pit from which the S. P. Co. takes gravel with which to ballast its road in a rich placer mine. The gravel is said to be worth \$100 per ton. Pass the salt box. At that value the company should make the gravel and haul it to water.

Several parties from the East ask about Portland as a manufacturing center. One wants to make chairs, another mining machinery and the third stockings. A chair maker ought to do well especially if he constructs easy chairs, for there are lots of people here who like to sit down.

Three well dressed children were taken up last Friday as they aimlessly wandered through the streets of Portland. Their ages are 9, 7 and 5 and name Quingley. Their mother is dead. They say their father brought them from Oak Point on the Columbia, and that they were left on the street while he went to get something for them to eat, since which time they had not seen him.

Two men, men, mind you, were charged with throwing away about a pound of gun powder that had been damaged. Instead of throwing it in the river at Astoria where they were, they strewed it on the street and set a fuse on fire. It did not burn as they expected. To improve the spluttering they blew on it. They succeeded beyond expectations, for eyebrows, whiskers and hair are gone and faces blistered.

The Mountain View Copper Co., whose property is located not far from Kerby, Josephine county, has incorporated with a capital stock of \$1,200,000. J. L. and J. G. Rowell, W. J. McNamara and W. E. Oimstead are the incorporators. The company has a Vulcan smelter of the latest pattern in operation on the ground, which is turning out a considerable quantity of matte that assays as high as 60 per cent in copper. This promises to be a valuable property.—Grants Pass Observer.

The Supt. of Schools for Clackamas county has compiled the reports of district clerks and finds that there are in the county, 8984 boys and 8708 girls; total 7690. Of these 5523 attended school. Seventy-six men and 174 women have been engaged in teaching. The men have received on an average \$42.65 and the women \$32.46. The total receipts of school money for the county was \$2642.59. An average of 7.7 mills tax was levied in 40 districts.

Thos. Arnold, the 17-year old accomplice of Harry Grassell, who is now serving time in the Oregon penitentiary for attempting to wreck a S. P. train at Rice Hill about ten weeks ago, completed his sentence of two months in the Douglas county jail Tuesday. No sooner did he step forth into the outer air before he was taken in charge by an official of the Oregon State Reform School and conveyed on the first train to Turner, where he will be obliged to suffer for a while longer the restraint of his liberty, although he will be allowed to enjoy the customary limited measure of freedom attached to existence at that institution. It transpires that Master Arnold was paroled from the reform school prior to his escape at Rice Hill. Good behavior, however, did not prove characteristic of his actions in the meantime so he must once more suffer for the penalty for his refractoriness.
