D. M. C. GAULT, Editor.

FRIDAY, AUGUST 15, 1902.

A special session of the U.S. Senate for November is talked. This meeting is desired for the ratification of a reciprocity treaty with Cuba. The rejection of such treaty is not contemplated. The privilege of choice seems to be eliminated.

Half of the stores in Grants Piss have been boycotted because they are "unfair." It does not appear that the offending merchants offer an inferior stock of goods or that they ask a higher price for them, but rather that they do not close the doors at the hour set by the cierks.

Some of the democratic papers are brutal in their announcement of the return of Gen. Smith from the Philippines whom they denominate "Old Kill and Burn." Gen. Smith in three months did what the Spaniards did not do in 300 years-con quer Samar. In this task he was careful of his men and showed mercy to the enemy. Gen. Smith is hearing himself gloriously before his country as he did before the enemy.

Smith's plaining mill in East Portland, the concern that was installed in June and much advertised as a "fair mill," is proving unsatisfactory to the union. Its management signed the scale which was 9 hours with the pay of 10 hours, but the day has been lengthened to 11 hours. The time and a half as was promised. Before congress passed the tariff act, Oregon, on August 20, 1902, viz:

The men are leaving and returning during the rebellion; practically all to the non-union mills where they the cotton thread sold in the world the se'l see 6 t 3n r 5 w.

He names the following witnesses to assert "made promises" are kept.

May it not be sentiment run to seed, this agitation of what is termed "child labor?" Children, to grow into well-balanced maturity, must labor, and the fad that keeps them in idleness should not be tolerated. Children in school labor quite as drudgingly as in the cotton mills excepting only the number of hours per day. Some of our school officers complain that child labor in the ing the young of parts of the county. But they forget that the child labors which children may labor, whether on the farm, in the factory or in

The big coal strike in Pennsylvania is in its 14th week, and the parties seem as stubborn as at first. There has been some risting and several deaths. Two regiments of state troops are on duty to preserve order at an expense of \$1200 per day. The miners are out of money and their wives and children are hanging on the outskirts of the soldiers to get the scraps left over from the table. Union men may be able to view the some with indifference but just how husbands and fathers can, is not the effect that President Roosevelt Cuba absolutely has no tariff-concesmey, under the right of eminent do- sions which can be made to meet our mine or mines and operate them till tariff is not for protection but for revthe wants of the government are enue, wherefore Cuba has nothing to

Eastern Washington last week and an abatement can be allowed for reciafter a tamiliar interchange of views, procity while what is left is that had prevailed. This applies to which we do not in turn receive. all stations on the O. R. & N, in Oregon as well as in Washington. A flat reduction of three cents per bushel was made for all wheat shipped east to Mississipps points. This was done to provide a new outlet, for it was claimed by the milroad men that the wheat buyers at Pacific Coast tide water ports are not paying what wheat is worth. The Independent, many months ago made the same claim. There is no reason The other sources of revenue, live. why the Chicago price should not be stock, the dairy, fruit, hay and the paid in Portland. COTTON THREAD.

method of a dozen years ago,

The death of William Clark, one of the largest manufacturers of scotover time is paid pro rata instead of of the results of the protective tariff. timber. After congress passed that David C. Carrie Josephine G. Godbey tariff act, which placed a high rate of duty on cotton thread, the Coates Bros., who were large thread makers in Scotland, came over to the United States, bought land in Rhode Island, on which they erected factories in which was placed Scotch made thread machinery, imported a number of operatives and their famionion fields and hop yards is dwarf. lies from Scotland, and began the manafacture of thread on American soil. They were followed by the quite as much when mured in the Clark Bros, who located in New school house. Do our school men Jersey. Both concerns prospered, want the school house emptied as well as the fields and shops? Do they realize what idle hands will do? Publicists must not teach that children are to do no work. The problem for law makers is to fix the proper number of hours during which children may labor, whether for less then it was possible to sell the Scotch made thread before or July 26, 1902. since the tariff, and for less money than the framers thought possible. Had not the manufacture of cotton thread been encouraged by the tariff it is highly probable that the vast bulk of the thread now used in the United States would be imported from Scotland and the price would be much higher than it is today. protective duty placed on cotton thread,-Seattle Post-Helligencer.

Cuba has set up a government as plain. Eastern papers begin to bint elaborate as a first class power though that the big coal trust is encouraging its territory is but 45,000 square the strike which allows them to dis- miles, less than half the size of Orethe strike which allows them to dispose of the big stock that had acquired at the state of the state of the county court of the state of the the country to a plan suggested to maintain its notional government. main, properly take possession of reciprocity reductions.
