A TOWN DESTROYED

RETREATING ARMY SETS FIRE TO HAYTIEN CITY.

Government Forces Route Firmin's Troops.—Haytien War Becoming a Matter of Grave International Interest.—4000 Rendered Homeless.

Washington, Aug. 12.—Minister Powell has cabled the state department from Cape Haytien that the provisional (Vasquez) government of Hayti has notified the United States legation that Gonaives, Port de Petit Goave and St. Marie Provinces are in rebellion. The government troops captured Petit Goave after strong resistance in which many lives were lost. Firmin's troops in retreating from the place set fire to and destroyed the town.

Port au Prince, Aug. 12.—The correspondent of the Associated Press visited Petit Goave Saturday and found that the town had been entirely destroyed, there being nothing left but a pile of ruins. About 4000 persons are homeless and are greatly in need of assistance. The greater number of them have sought shelter in the Simmonds factories near the town. The French cruiser D'Assas arrived at Petit Goave with provisions for the sufferers and returned to Port au Prince with 200 women and children and fifteen wounded men. The authorities refused to permit the Firminists to leave, fearing they would go to other points to take up arms again.

Each party accuses the other of having set fire to Petit Goave, but the general belief is that Chicoye, the Firminist commander, resolved to destroy the town when he saw that he could not hold it against the Fouchardists.

A Port au Prince dispatch on Saturday last gave the news of the burning of Petit Goave after an attack had been made on the place by Fouchardists. According to the dispatch General Chicoye, who is minister of the interior in the Firminist provisional government, set fire to the town and abandoned it.

Washington, Aug. 12.—Minister Bowen at Caracas yesterday advised the state department that the Germans intend to land a naval force at Porto Cabello to protect German interests, which are threatened by the uprising now in progress. The minister advised that we follow suit. After a conference between the officials of the state and navy departments instructions were cabled Commander Nichols of the Topeka to proceed from La Guaira to Porto Cabello and to land a naval force in case of attack. The Topeka has already left for Porto Cabello.

THE CABLE CUT.

Washington, Aug. 12. — Minister Bowen has cabled the state department from Caracas, Venezuela, that the revolutionists have cut the cable at Barcelona.

Minister Bowen says the cable was cut immediately after the receipt of a message stating that the revolutionists were entering the city.

Washington, Aug. 12.—Commander McCrea of the gunboat Machias yesterday cabled the navy department that a defacto blockade had been established by the insurgents of Cape Haytien. The Machias is at her anchorage.

Acting Secretary of the Navy Darling sent the following reply to Commander McCrea:

"If the blockade is not effective Cuban, American and unprotected, innocent, neutral vessels shall be protected in their international rights. Can send your collier from San Juan if necessary."

The following instructions were cabled to the Topeka:

"Be ready to land force in case of attack on port for protection of foreign property also if requested. Prevent bombardment without due notice.

"DARLING, Acting Secy."

The following is the text of the dispatch received by the navy department from Commander McCrea of the gunboat Machias, dated August 10 at Cape Haytien:

"Secretary of the Navy: Your dispatch has been received. Having notified the Haytien admiral, Killick, of determination to protect foreign commerce and telegraphic cables and resist bombardment without due notice, he replies accepting terms, with notice to all foreign consuls that this port is blockaded in accordance with the orders of the cabinet council established at Gonaiva, Hayti. Blockade is de facto and prohibits the entrance of merchant vessels. Firmin signs proclamation.

THE TOPEKA ON GUARD.

Washington, Aug. 12.—The Topeka reached Porto Cabello, which is only a short sail from La Gauira, some time yesterday. The trouble at Porto Cabello grew out of the uprising that has convulsed Venezuela for some time. It is directed against President Castro and has kept the country in a state of ferment for many months. Minister Bowen recently sent word that President Castro was leaving for the front with the expectation of fighting a decisive battle with the insurgents. The latter has been gathering strength at Porto Cabello. Our consul at that point has sent word recently that the lives of some American residents, including members of his family, were imperiled, and two of the taken away on a government ship Since then there has been no word of a critical condition of affairs, but the dispatch of yesterday indicates that a crisis has been reached.

STOOD AT HIS MOTHER'S GRAVE.

Chicago's Revolting Murder Mystery Becoming More Mysterious.

Chicago, Aug. 12.—An important development in the Bartholin-Mitchell murder mystery was made Monday when it was discovered that Bartholin had been surprised July 30 while standing at the cellar grave of his murdered mother by a real estate agent.

Peter Van Vissingen, who holds a mortgage on Mrs. Bartholin's home and who sent his agent to the Calumet property to appraise it the afternoon of July 20, furnished the police with the information about Bartholin working on the grave of his mother. The agent called and rang the front door bell repeatedly. No one answered and he went to the rear of the house and looked through a basement window. There he saw a man standing in one corner looking at the floor apparently absorbed in thought. Suddenly the man in the basement looked up and saw the agent peering in. A moment later Bartholin came to the rear door and asked the agent what he wanted. The latter replied that he wanted to see Mrs. Bartholin. Bartholin told the agent his mother was in Milwaukee and she would not return for several days. Shortly after this conversation he was seen to leave the house and the same evening he called at Minnie Mitchell's home. The couple left together and the girl did not return.

Inspector Hunt, when shown the Toledo interview with Hunter said that Oscar Thompson, a former lodger in the house, and who is now under arrest, denied having told Hunter that Williams had left the city to be married. The inspector further stated that Hunter will be brought to this city, together with Milton L. R. Edwards, another roomer in the Bartholin house, who is now in Denver.

At the inquest over the body of the older woman, which was found Saturday night crammed into the hole in the cement floor of the Bartholin home, neighbors readily identified the corpse as that of Mrs. Bartholin. The burial yesterday of Minnie Mitchell by her family removed all doubt in the public mind that the body found in the field at Seventy-fourth and State street last week was that of the young woman who was last seen with Bartholin. Complete hearing over Mrs. Bartholin's body was postponed by the coroner until August 21, in the hope that additional clews to the murderers may be obtained.

It has been developed that Bartholin had quarreled with his mother just before she disappeared over the question of bringing his prospective wife to live at his mother's home.

WHITE HEARD FROM.

Absconding Cashier of Board of Works Said to Have Been Located.

San Francisco, Aug. 12.—From a source of undoubted authenticity it has been learned that the arrest of W. H. J. White, the defaulting cashier of the board of works, will never be made, that the amount of his defalcation will be paid on demand to the amount of $3000 by the Fidelity and Deposit company of Maryland, and that White himself is now in London, England, where he went almost directly from this city.

White sailed from New York on the very day that the police of this city were asked to arrest him on the technical charge of stealing $153. He had demanded that his wife go east with him as far as Chicago, and this the plucky little woman did, leaving a sick bed to comply with her faithless husband's demand. In Chicago White separated from Mrs. White and told her to return to the home of her mother in this city, there to wait until she should hear from him.

It is stated that White's mother not only assisted him to escape from the country, but supplied the money to appease the surety company.

DID HE MURDER HIS FAMILY?

Man Who Killed Himself Thought to Have Commited Awful Crime.

Stockton, Aug. 12.—George Wilder, whose wife and three children were burned in their home near Elliott, in this county, last Wednesday morning, hung himself in his mother's barn near Galt on Sunday. He put a rope around his neck and tied it to a loft beam. He dropped seven feet, breaking his neck.

Circumstances now point to the suicide as the murderer of his own wife and babes. Wilder told several conflicting stories about the fire. He said his wife set the fire to commit suicide, because she had cancer. The neighbors said the dead woman did not have cancer. After discovering his home on fire he ran a mile to a neighbor's house for help, instead of trying to save his family. Since then investigation has discovered that Mrs. Wilder received about $1500 a short time before. None of this was found by the bodies of the dead woman and her babies. It was discovered that her bedroom window had been nailed down, and that the interior doors of the house had been locked. Wilder learned that Sheriff Sibley had made the discoveries. He left Saturday for Galt, where he committed suicide as stated.

First Auction a Success.

San Francisco, Aug. 12.—The first auction of fruit was held by the Sacramento Valley Growers' agency on Jackson street wharf Monday morning at 10:30. As expected, the fruit sold at a very low price. There was quite a number of buyers and no attempt was made to dissuade any one from purchasing. It is hoped that the number of bargains secured will induce many to buy their fruit at auction and in this way make the Innovation a successful venture for the growers.

Cause of Headaches.

Too much blood in the brain is a frequent cause of headache. Pains are felt all over the head, the face becomes flushed, the temples throb, and a strong light or noise causes excruciating pain. In cases of this kind the sufferer should be careful in diet and should not eat meat oftener than once a day. Too little blood in the brain is another cause of headache. It is recognized by dizziness, noises in the ears and pains on the top of the head. The best stimulant is a cup of strong tea or coffee or a bowl of soup. People who suffer with these headaches should sleep with their heads low. A neuralgic headache is often the result of cold caught in a bad tooth, which affects the nerves of the face and is accompanied by pains across the forehead or on the back of the head. A mustard leaf placed on the back of the neck will relieve it. Another remedy which is sometimes effective is a piece of brown paper soaked in vinegar and applied to the painful spot.

MURDER IN LOOKOUT

ASSASSIN CLOSELY FOLLOWS INCARCERATION.

Killing of Man Charged by Bob Courtright Quickly Followed the Murder of Edward Kennedy—Unrest Prevails in the Benighted Community.

Alturas, Aug. 12.—A few days ago Edward Kennedy was shot and killed near Lookout and now the eldest son of famous old Uncle Bob Courtright lies dead of poison—all because some of the men of Modoc are eager to silence forever those fearless characters who dared to give efficient aid to the state in its crusade to punish the lynchers who in the spring of 1901 swung aged Calvin Hall, three other men and Indian child to a hideous death by the rope.

The assassins planned to exterminate the entire Courtright family, apparently, for a pot of beans intended for the family table was loaded with poison. Uncle Bob and two of his sons partook of the beans for luncheon, and all were taen violently ill. One of the sons died in great agony soon after the meal, but the other victims are recovering.

It will be remembered that the head of the Courtright family was one of the most important witnesses for the prosecution during the trial of Brown, last winter, here in Alturas, on a charge of complicity in the Lookout lynching. He swore that he saw some of the accused men at work, just before the murder of Calvin Hall, and the others, making nooses in the Frowbridge store at Lookout. Although brutally examined by Baker, the belligerent defender of the lynchers, the old man stood by his colors and rendered the cause of justice unfaltering service.

Kennedy, who lived about ten miles north of Lookout, was killed from ambush and at night. He was returning home from the Allen ranch, three miles distant from his own abode, and when about half way on his journey fell mortally wounded. A charge of buckshot in the back, it was found, had ended him. Next day some traces of the murderer was discovered but nothing by which his identity could be fixed.

Mr. Kennedy was witness for the state in the Lookout cases, although he was not called to the stand in the Brown trial. It was well known that he felt strongly against the men responsible for the mob rule on the River Pitt, and that he had no fear of them, but would do his full duty as to them if given an opportunity.

Just as there was terror in and about Lookout immediately after the lynching, so there is at present. Many who have knowledge of the circumstances of the great tragedy and who never had any sympathy with the guilty are wondering who will go next. That there is a determination to wreak vengeance on the persons who stood with the prosecution in the lynching trial, nobody in Modoc seriously doubts.

WAS IT A GOLD BRICK FOR SAM?

The United States Seems to Have Made a Diplomatic Blunder.

Washington, Aug 12.—The United States has, it appears, been buncoed into placing itself under diplomatic obligations to the republic of Nicaragua. It requested President Zelaya to save the life of Dr. Wilson, the young Ohio physician, reported to have been sentenced to death for participating in General Reyes' uprising at Bluefields. The shrewd Nicaraguan executive replied that he would be glad to extend such a courtesy to the United States.

It now develops that Dr. Wilson never was in the Reyes expedition and has not been in Nicaragua, much less a prisoner under sentence of death. He is at Bocas del Toro, in Colomia, and has just learned of the effort to save his life, which has at no time been in danger.

Senator Hanna became much interested in the young man, and it was due to his efforts that the state department undertook to intercede in his behalf. Dr. Wilson's mother went to Nicaragua to assist her son. She is now in Bocas del Toro, and learning of his safety is about to return to the United States, her journey having been useless.

PRINCE LOVES AN AMERICAN.

Ready to Renounce the Throne That He May Wed Her.

Paris, Aug. 12.—Le Matin publishes an extraordinary story of violent scenes between the German emperor and his eldest son, the crown prince. The paper hints that the cause of the quarrel is the prince's determination to marry an American girl. At the last meeting of father and son the emperor stamped and swore that a Hohenollern prince should never marry, morganically or otherwise, a girl of common American clay, however beautiful.

It is believed here that the girl in question is Miss Gladys Deacon, the fascinating daughter of Mr. and Mrs. Edward Parker Deacon, and the close friend of Consuelo, Duches of Marlborough, formerly Miss Vanderbilt.

Ship Building Trust Makes Payment.

New York, Aug. 12.—The first payment by the great shipbuilding trust for a private plant was made yesterday when Lewis E. Nixon received $1,000, for the Crescent shipyards.

PYTHIANS CAPTURE 'FRISCO.

Golden Gate City Fairly Stormed by the Incoming Knights.

San Francisco Aug. 12.—The city has surrendered, the gates are wide open. It is in the hands of strangers.

From every staff floats the banner that promises friendship, charity and benevolence. In return San Francisco has pledged its hospitality.

When Mayor Schmitz presented the keys of the city to the commander in chief of the Knights of Pythias he forgot to lock the gates, and thousands who carry no banner and wear no uniform are pouring in. The Knights appointed a holiday season. The people have made it their own. The Knights came together to renew old friendships and old pledges. The people come to see new faces and new scenes.

Every steamer that crosses the bay and every train that enters the city bring holiday crowds. Hotels and lodging houses are filled, and many have been forced to seek quarters in private homes. The restaurants and grillrooms are crowded, and the tamale and sandwich men are doing a record-breaking business. Street cars are packed and the hackmen are kept busy.

All the world has heard of the city illuminated by myriads of electric lights from the ferry to the city hall, and the magazines of the eastern cities and Europe have repeatedly published elaborate descriptive articles about the illuminations, with pictures of the marvelous scenes.

The preparations for the Pythian reception are on a scale surpassing all previous efforts, however, and the night aspect of the streets and principal buildings during the coming week will be something worth crossing the continent to see.

All the former illuminations will be seen again, with many more in addition. The city hall dome will be illuminated clear down to the roof of the building, which was never done before, and the work has required the installation of more than 5000 lamps.

The Court of Honor, suspended above the corner of Market and Third streets, is new in electric illumination. A thirty-foot emblem of the order, weighing three tons, is 150 feet above the ground, and from it the swaying streamers, with hundreds and hundreds of incandescent lamps, extend in every direction to the large white columns that have been placed along Market, Kearney and Third streets. The whole effect of the illuminations is unlike that at any other celebration, and undoubtedly the most magnificent of any ever seen on the coast.

MRS. NATION TALKS VERY LOUD.

Says Our President is a "Beer Swigging Dutchman."

Urbana, Ill., Aug. 12.—Carrie Nation, the Kansas crusader, attacked President Roosevelt in a speech here yesterday afternoon.

Mrs. Nation, in speaking of the Germans in the United States, ended her remarks with the statement that this country had a "beer-swigging Dutchman in the presidential chair."

Considerable indignation was expressed at the remark. Mrs. Nation was asked what she meant, but refused to explain.

The "smasher" visited two saloons and was bodily ejected from both of them.

Strikers and Deputies Shoot.

Scranton, Pa., August 12.—An exchange of shots occurred last night between deputies and strikers at Throop, an isolated mining village six miles north of here. Scores of shots were fired, but no one is is known to have been hit.

Prince Chen Calls on President.

New York, Aug. 12.—Prince Chen, accompanied by Assistant Secretary of State Pierce, Wu Ting Fang, the Chinese minister to the United States, Sir Liang Chung Leng, the new minister and the secretaries to the prince and Minister Wu, went to Oyster Bay yesterday to visit President Roosevelt at Sagamore Hill.

Drowning Boys Rescued by Sloop.

Oakland, Aug. 12.—The sloop Hazel S., which was participating in the race of the California Yacht club Sunday, rescued six boys, all under 15 years of age, who were clinging to the bottom of an upturned boat off the broad gauge mole. The boys had rented the sailboat in the morning, but did not tell who they were. They claimed that they were upset by a heavy roller in the wake of a ferryboat. When the boys were rescued by the Hazel S they were almost exhausted, having been in the water for over two hours.

A DOUBLE MYSTERY.

Headless Body and Cabin of a Vessel Shrouded in Mystery.

Bridgehampton, L. I., Aug. 12.—Mystery surrounds the identity of the headless body of a man taken from the surf here shortly after part of the cabin of a vessel was stranded on the shore. It is believed the man's death is connected with the wreck, but the life savers at the Mecox station, two miles from this village, have seen no vessel in distress off the coast.

With its dead the sea has given up no clew to the man's identity, and the body has been placed in a nameless grave in the village cemetery. Though the body was fully dressed, no papers of any kind were found in the pockets.

The identity of the vessel, the cabin of which was taken from the water is as mysterious as the circumstances surrounding the man's.

A Tailor's Clever Scheme.

"You've made a mistake in my bill," said a young man excitedly yesterday to the proprietor of a prominent tailoring house.

"That can't be," asserted the tailor mildly.

"Oh, but it's so," exclaimed the youth in a flurry. "Look here! Ten dollars too much charged on this bill."

The proprietor compared the bill with his books. "You're right, Mr. Blank," he admitted. "I'll take $10 off, and how much did you say you wanted to pay on account?"

The young man hesitated, grew red, coughed and finally produced a five dollar note.

"That works every time," confided the tailor to an interested bystander after the customer had departed. "Nothing brings a man here in such a hurry as to overcharge him on his bill. When a customer gets a little backward and dodges the place, I send him a bill overcharging him. He comes on a rush to have the mistake corrected, and a little diplomacy does the rest. Best of all, it doesn't hurt his feelings, as would a visit from a collector."—Philadelphia Record.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.
