

A VERY STRANGE CASE

UNDER W. TER TWENTY MINUTES AND STILL LIVES.

In an Attempt to Rescue Her Brother a Fifteen-Year-Old Girl Goes to the Bottom and Remains Until Tardily Rescued by Neighbors.

Forest Grove, Or., Aug. 12.—Bessie Mills, 15 years old, remained under water yesterday for twenty minutes, and today she is suffering no ill effects from her experience. Physicians who have investigated the case declare that in the time she was under water no water entered her lungs.

Bessie, in company with her brother Frank, and Desale Christian, were playing in Galea creek on a raft. Suddenly Frank stepped off and went down over his head. He caught the raft when he came up and tipped it so that Bessie Christian slipped off. Bessie grabbed Bessie and was pulled into the water. She managed to get back on the raft, but seeing her little brother struggling some distance away, she leaped toward him and struck the water on her stomach. She sank at once. The other two children were rescued by some women, but they could not find Bessie. The boy ran and gave the alarm. George Meyers came to the rescue and after a few minutes located the girl at the bottom of the creek clinging to a root. It required all of his strength to unclasp her fingers.

The women set to work to try to revive her, although they believed her already dead. It was a surprise when she opened her eyes. She was taken home and cared for and within a few hours was all right.

The theory of physicians here who investigated the case is that when Bessie struck the water on her stomach, the breath was forcibly expelled from her lungs, and at the same time she was rendered insensible, in which condition she remained until she had been brought out of the creek, where respiration started artificially. Had she "come to" while beneath the water undoubtedly she would have drowned.

BOTH SIDES WANT THE CANAL.

Colombian Minister at Washington Wants a Treaty Negotiated.

Washington, Aug. 12.—While the international disturbances of Colombia are quieting, there is no warrant for jumping to the conclusion that the Panama canal program is seriously endangered. There is no need of immediate action, since the necessity of investigating the French company's title at Paris comes first and our treaty, were one negotiated, for some months yet.

The Colombian minister continues to give assurance that there need be no delay in securing an agreement which would allow the Colombian congress to convene in ample season, since both the Conservatives and the insurgents want the canal. It should also be noted that the responsibility for maintaining order and preserving neutrality along the route of the canal would fall upon the United States by the terms of whatever treaty is negotiated, and so the condition of affairs there will really have nothing to do with the safety of our waterway, once a treaty is agreed upon. Similarly, neither Colombian faction would be able to override the action of the other in dealing with the United States, since recognition by this powerful republic of a rightful government there would be final, so far as our relations with it were concerned.

The greater danger to the pending negotiations comes from possible mischief makers, who might want to see the Panama proposal fall in the interest either of the Nicaragua route or of no canal at all. Counteracting such influences, should they be discovered, would doubtless be the activity of the French company, which would not to see its transaction fall at this stage through perversity of the Colombian government.

Think It Was a Case of Murder.

Seattle, Wash., Aug. 12.—The police are satisfied that the man who rented the boat at Green lake last Saturday evening was T. P. Newton of San Francisco, and believe the grappling irons will bring up but one body, that of Mrs. Newton. They think also that the murder was committed for the purpose of robbery. The woman was known to have a large amount of money on her person.

Circumstantial Evidence is at Hand to Convince the Authorities that Newton Deliberately Unset the Boat and Allowed the Woman to Drown, While He Used the Oars to Boat Himself Ashore.

The upturned boat, with a man's hat underneath, was found on Sunday morning.

The lake will be dragged thoroughly and if the body of the woman only is found a determined effort will be made to hunt down the murderer.

SHAH VISITS THE KING.

The Visiting Monarch Will be the Recipient of Many Attention.

London, Aug. 12.—The Shah of Persia, Mozaffar El Din, and his suite, who arrived at Dover Sunday, reached London yesterday and took up their residence at Marlborough house as guests of King Edward.

In accordance with the Persian monarch's express wish, the train from Dover only traveled twenty miles on a tour. He therefore had plenty of time to array himself in full state uniform, and when he left the train at Victoria station he was resplendent in a blaze of diamonds. On his turban (cap) a huge diamond stood out like a headlight, his epaulets were adorned with large emeralds and his breast was covered with jewels of all kinds. The gems worn by the members of the Shah's suite were only a little less rich than those of his majesty.

THE ROMANCE ENDS

DISAPPOINTED FORTUNE HUNTER SUICIDES.

Fashionable Newport Club the Scene of a Suicide That Startles Society.—Desperate Act of a Man Because of a Broken Engagement.

Newport, Aug. 12.—The Newport reading room, Newport's fashionable club, was the scene of a suicide yesterday afternoon, the last chapter of a romance that has attracted attention for more than a year.

Robert Roden Remington, who had inspired to the hand of Miss May Van Alen, the elder daughter of James J. Van Alen, and had been rejected, shot himself in the head with a 37-caliber revolver. Death was almost instantaneous. There were two wounds. The bullet that ended his life entered the mouth and penetrated the brain. The suicide took place in a quiet room of the clubhouse when but few were present, and those few were seated on the piazza some distance away.

Remington went to the clubhouse at 1:30 o'clock and called for the daily papers. After perusing them a little while on the piazza he proceeded upstairs to a part of the building which is not occupied a great deal in the summer time. He had not been there very long when two shots were heard.

Daniel B. Fearing, a member of the club, was in the clubhouse without the other gentlemen, and they heard the pistol reports, but did not attach any significance to them. Some minutes later the barber of the club, over whose room the library into which Remington went is located, appeared and asked in regard to the pistol shots. It was then decided to make an investigation, and the gentlemen on the piazza, with Mr. Fearing and his companions, went to the library and found Remington dead on the floor.

Near his side was the 38-caliber revolver with which the deed was done. The face was covered with blood from the wound in the forehead, and crimson stains were on the cheek from the blood which oozed from the mouth.

The accident ends the curious and at the same time pathetic attempt of a man with little means and an unbounded ambition to shine in society. For years Remington had been a fortune hunter, and his last attempt failed, he ended his existence. The immediate cause of his suicide was the breaking off by Miss Van Alen of the engagement which had existed between them. This took place some months ago, but the fact did not leak out until last week. When the announcement was made Remington at once stated that the relations of himself and Miss Van Alen remained unchanged, and that their marriage would take place in the fall.

Shortly after the suicide word was sent to Mr. Van Alen of Remington's act, but it was some time before the news was broken to Miss Van Alen. As a result of it she is prostrated, and the attendance of a physician has been necessary all evening.

MOROS ARE TROUBLESOME.

An Active Campaign in Mindanao is Advised by Chaffee.

Manila, Aug. 12.—The Moros in Mindanao are renewing their attacks upon the outposts and back trails of the American columns of Lake Lano, which is under the command of Captain J. J. Pershing of the Fifteenth cavalry. The American have successfully repulsed the Moro attacks and have suffered no losses.

The commanders of the American forces in Mindanao report aggressive action against the Moros to be necessary, and ask permission to move against Bacolod and other strongholds of the hostile Mohammedans. There are about 2000 American soldiers in Mindanao available for the desired aggressive movement.

Washington, Aug. 12.—A cable dispatch from General Chaffee states that in his judgment an active campaign against the Moros in Mindanao is necessary in order to curb the opposition that has been growing against United States authority. General Chaffee, who is now in Mindanao, has been directed to use his own discretion in the matter, and will no doubt engage in an aggressive movement, against the insurgent Moros.

SCHWAB A SICK MAN.

Steel Magnate Said to Be Losing His Mind.

Pittsburg, Pa., Aug. 12.—A special to the Pittsburg Dispatch says: President Charles M. Schwab of the United States Steel corporation has accepted the services of his physician and decided to retire indefinitely from active business life. He will leave America to seek some quiet nook in a foreign straits life he has led can teach him. This information is authentic.

Dr. Golden never leaves the Schwab home, and the exact nature of his patient's condition cannot be learned from him. Schwab is not confined to his bed, but spends much of his time on the wide veranda which affords fresh air and a sweeping view of the mountain slope. He is always with his wife or his parents.

The strange part of Schwab's illness is that he is always within view of those who call at his house, yet he will not allow any person to approach him. Heretofore the visitor to the Schwab home was greeted with a hearty welcome and a vigorous handshake. Now the visitor is met at the entrance and told that Schwab cannot be seen. Intimates of the family receive the same message, and no one has been able to converse with President Schwab since he came back to his home.

The people of this town, who still call him "Charlie" because of their early and intimate acquaintance with him, are discussing his prospective departure. They know he is a sick man, and are relieved that he will spend possibly a year in an effort to regain his health. The presence of sisters belonging to the Order of Mercy who
