The Commoner is a little careles in its first statement touching the "sound policy which prevailed in mate and better grass production. this country until the republican party surrendered to the New England depth and richness of your soil, but demand," The truth is that the second bill passed by Congress Feb. 9, 1792, was a tariff act, framed on protective lines recommended by Alexander Hamilton one of the noted finance ministers of this country. Democratic free trade prevailed at times notably just before the civil war in the '50's and again in 1893 6. Whenever the free trade idea prevailed there was hard times and when a tariff act on protective lines has been in force prosperity has blessed the nation. So pronounced has this been that a high protectice tariff along about the time of Webster and stock states in the country." Clay was called the "American system." Neither the republicans not Wall street originated the idea. Hamilton reports on, the first state papers that discuss the subject long before the present republican party wrote its first platform. If there is wrong in writing tariff schedules on

protective lines, it was our fathers who did it. Hamilton went further than the republicans of this day. He recom-

mended that manufactors which competed with American made goods, be excluded."

year, and the Berkshires were as good as any that were there. The report in a Western labor pa "I also saw some fine displays of per that two trades-unions in Charsheep, and judging from the remarklotte, North Carolins, had taken two ably healthy condition of the sheep, little girls out of the factories and

Not, howeve, the only pianos; there are some twenty-five different pianos for sale at the houses that Eilers built, all of them sterling, substantial merit and all of them guaranteed by us. Among them are the Hobart M. Cable, the Hazeltine, the many tonad Crown, the Decker, the Vose, the Emerson and many others, every one a first class make.

Further, we sell pianos cheaper and on better terms than any other house in the Northwest, because, having these four houses that we have built up by industry and fair dealing, we handle pianos in immense quantities and therefore receive concessions that houses doing a small business cannot. and these advantages we offer you in the shape of lower prices on high grade instruments than any other house can.
