REPUBLICAN PLATFORM.

The following are the resolutions adopted by the Eugene Convention and constitute the platform on which Hon. Binger Hermann will stand during this campaign:

"Resolved, That we hereby record our high appreciation of the private worth and the public services of the late Hon. Thos. H. Tongue, Congressman from this district, and we deplore his death as a loss to his state and the Nation.

"Resolved, That we recognize Theodore Roosevelt, President of the United States, as a stalwart type of American citizenship, worthy of these, the best days of the Republic, and we heartily endorse his position upon the great public questions of the day and his administration, and so it resolved further, that he be extended the hospitalities of this state upon the occasion of his proposed visit.

"Resolved, That we do hereby endorse and reaffirm the platform of the last Oregon State Republican Convention.

"Resolved, That the Republican party of this Congressional district favors and will earnestly labor for the improvement of our rivers and harbors by the National Government."

Made Young Again.
"One of Dr. King's New Life Pills a night for two weeks has put me in my teens again," writes D. H. Turner of Dempsytown, Pa. They're the best in the world for Liver, Stomach and Bowels. Purely vegetable. Never gripe. Only 25c. at Bailey's Pharmacy.

A Farmer Straightened Out.
"A man living on a farm near here came in a short time ago completely lobbied up with rheumatism. I handed him a bottle of Chamberlain's Pain Balm and told him to use it freely and if not satisfied after using it he need not pay a cent for it," says C. P. Bayder, of Patters Mills, N. Y. "A few days later he walked into the store as straight as a string and handed me a dollar saying, 'give me another bottle of Chamberlain's Pain Balm. I want it in the house all the time for it cured me.'" For sale by Delta Drug Store.

June being the favored month for weddings, that issue of The Designer gives special space to articles of interest to the woman who expects soon to be a bride. "Brides and Bridal Attendants," "The June Bride's Trousser" and "Woman's Fads and Fancies" all cater to this one subject, and even the fiction leans to that side for "Lavinia's Wedding Gown" and "Thalia's Successful Play" have matrimony as a theme. The fashions and milliner shown in this month are charmingly summery and dainty, and so are "Fashions and Fabrics" and "Points on Dressmaking," both of which have left heavier subjects to disport on the light and airy side of woman's attire. In the literary portion of the book "The Magic of the Roof Garden," "Summer-Sitting Rooms," "Farm Life for the Children's Summer Vacation" and "A Cherry Ripe Drill" all breathe of summer freedom and wholesome out-of-doors. A new department is "A Page of Puzzles" for the little folks, while their elders are invited to edit for cash remuneration "What Women are Doing" and "Helps Along the Way." An extremely interesting article treats of "Labor Saving Devices for Women," and the usual departments of "Etiquette Hints," "Floriculture," "Book Notes," "Toilet Table Chat," "In Motherland" and "The Kitchen Kingdom" are none of them permitted to flag in interest.

THE FIRST GUN.
The following is a full report of the democratic meeting and analysis of Mr. Bismarck's speech, which occurs at the court house tomorrow afternoon, May 15:

A. E. Reames, the youth who professes to believe he is capable of wearing the late lamented father-in-law's political shoes, addressed an audience at the court house on Saturday afternoon, composed of democrats, republicans, socialists and prohibitionists. Mr. Reames failed to electrify his audience.

Mr. Reames was introduced by J. M. Wall, and began by offering excuses for his campaign. He had sacrificed a great deal, in leaving a busy office where five persons were in his employ; had been delayed in starting upon the canvass on account of the necessity of writing his work in shorthand so the employees could at-

GEN. MILES' PHILIPPINE REPORT.

The Army and Navy Register, which for a number of years has been an ardent supporter of Lieut. Gen. Miles, will, in its issue tomorrow, editorially condemn Gen. Miles' recent report of atrocities in the Philippines. The editorial is as follows:

"The judge advocate general of the army has explained in a communication to the secretary of war, the valuelessness of Lieut. Gen. Miles' comments on what appears to be, in most instances, idle rumor and unsustained report.

"Some of the atrocities to which Gen. Miles devotes himself came to his notice in a most impersonal way, and his charges were never backed up by promised written statements, which appeared to have been necessary in repeating officially such serious accusations. It seems to us that Gen. Miles has not contributed in any degree to the glory of the army by making a report of this kind and it strikes us that he has gone out of his way, in a merely verbal fling, which invites the suspicion of 'persuasion and coercion' by army officers of witnesses valuable to Lieut. Gen. Miles as giving support to the sensational and indefinite charges he has made.

"As the judge advocate general says, the instance set forth in the Miles report have been made the subject of official investigation. The government authorities have done all within their power, apparently to trace these charges to their source, and to punish the culprits, if there are any. We do not believe that Gen. Miles wished to contribute to the ammunition of the critics of the army, or that he realized that he was aiding the cause of the so-called anti-imperialists, but the publicity which has attended his report has that unfortunate effect. We have believed that Gen. Miles had just cause for complaining on account of some injustice of which he has been the object during the past few years, but his warmest friends and admirers, among whom the Register would class itself, must deeply deplore the state of mind and form of expression with which the lieutenant general commanding has dealt with this subject.

"In considering the condition of the Philippines, where some of the military acts were probably unnecessary, to say the least, it should be considered that we have had in the islands 120,000 men, and there has been on duty in various parts of the archipelago no less than 6,000 officers. The so-called atrocities, if those incidents have such a violent character, were committed by not more than twelve officers. This is a small percentage and might well justify salvage, when we consider that the subject has been thoroughly agitated, and has been, and is still, the object of official investigation. It was a mistake to have touched on the matter in this official way unless something more definite could be given than has been vouchsafed by Gen. Miles. His report only served to renew an unpleasant, not to say unseemly, discussion, and it is to be regretted that Gen. Miles, among the last acts of a brilliant career, should have been betrayed into such an expression."

A Sure Thing.
It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for Consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. B. VanMetre of Shepherdstown, W. Va., says "I had a severe case of Bronchitis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely." It's infallible for Croup, Whooping Cough, Grip, Pneumonia and Consumption. Try it. It's guaranteed by Bailey's Pharmacy. Trial bottles free. Reg. sizes 50c, \$1.

Greatly Alarmed.
By a Persistent Cough, but Permanently Cured by Chamberlain's Cough Remedy. Mr. H. P. Barbage, a student at law, in Greenville, S. C. had been troubled four or five years with a continuous cough which he says, "greatly alarmed me, causing me to fear that I was in the first stage of consumption." Mr. Barbage having seen Chamberlain's Cough Remedy advertised, concluded to try it. Now read what he says of it: "I soon felt a remarkable change and after using two bottles of the twenty-five-cent size, was permanently cured. Sold by Delta Drug Store."

Quick Arrest.
J. A. Cullidge of Verbena, Ala. was twice in the hospital from a severe case of piles causing 24 tumors. After doctors and all remedies failed, Bucklen's Arnica Salve quickly arrested further inflammation and cured him. It conquers aches and kills pain. 25c. at Bailey's Pharmacy.

TWO MEN SPEAK.
At the dedication of the St. Louis, Mo. World's Fair, both President Roosevelt and Ex-President Cleveland, made speeches. Pointed statements from these speeches are here reproduced:

The Louisiana purchase determined that we should be a great expanding nation, instead of relatively a small and stationary one.

When we acquired this territory we made evidence once for all that consciously and of set purpose we had embarked on a career of expansion.

This work of expansion was by far the greatest work of our people that intervened between the adoption of the constitution and the outbreak of the civil war.

The nation that expands is a nation which is entering upon a great career and with a greatness that must of necessity come perils which daunt all save the most stout-hearted.

Courage and hardihood are indispensable virtues in a people, but the people which possesses no others can never rise high in the scale, either of power or of culture.—Theodore Roosevelt.

In acquiring the Louisiana territory, Jefferson proposed reconciling consistency with duty by procuring confirmation of the treaty by the Senate, and composing its unquestionable validation by a subsequent constitutional amendment.

In view of the conclusive settlement since then of the government's power to acquire territory, and considering the fact that we have immensely increased our area by the acquisition of islands separated by thousands of miles from our home domain, we may be inclined to think lightly of President Jefferson's scruples concerning the acquisition of lands, not only adjacent to us, but indispensably necessary to our peace and development.

If President Jefferson's doubts and wonder had been allowed to control his action, we might have lost the greatest national opportunity which has been presented to our people since the adoption of the constitution.—Grover Cleveland.

NEWS OF THE STATE.

The out-break of small-pox at Prineville is said to be under control.

The buying and selling of real estate has not been stopped in Portland by the strike. Transfers last week amounted to \$150,390.

There are five trades unions on a strike. The painters, carpenters, electricians, laundry workers and teamsters.

Phoenix Iron Works of Portland, is manufacturing fire hydrants of a new design which are highly praised by skilled fire fighters. Portland gets fifty.

Fidelity Lodge No. 4 A. O. U. W. East Portland, plan to build a meeting hall this summer, but are meeting with indifferent success, because of the strike. Many of the members are painters and carpenters, and are not over burdened with cash.

Mrs. A. H. Finch, wife of the manager of the Jordan Laundry at Pendleton, will suffer the loss of both her hands near the wrist as a result of getting them caught between the rollers of the mangle Monday afternoon. The bones and flesh of the hands were mashed to a jelly.

Doerbecker & Holbrook, the Portland furniture manufacturers asked the city council to vacate streets in St. Johns. The council refused to do it, whereupon the company have abandoned the project, because a single block of land is not large enough for the proposed plant.

The Southern Pacific Co. has put an extra train on its Portland-San Francisco train, whose sole duty is to collect fares. The conductor is relieved of this duty and now looks after running his train. This is more like steam-boating, where the captain runs the boat and the purser takes the fares.

The Pacific States Telephone Co. commenced work Monday on the free line that is to be run to Carlton from this city. They have a large force of men at work and it will not be long before all regular subscribers will have free telephone connection with Carlton.—McMinnville Telephone Register.

A. S. Dresser, of Oregon City, Saturday formally assumed charge of the Oregon City Land Office, succeeding Hon. C. B. Moores as Register. Mr. Dresser announced that there will be few if any changes in the present force of the office, since the majority of the clerks hold their positions under civil service appointment.

A test case of the Sunday closing law, as pertaining to games of base ball, is to be made at Eugene. Representatives of the Ministerial Alliance went before Deputy District Attorney L. T. Harris this afternoon and entered complaint against those interested in the game played there yesterday. A test case is to be made against all officers of the Eugene Base Ball Club, and will come to trial as soon as possible. The base ball men threaten to retaliate and prevent church entertainments, etc.

A. M. Broumbach has been elected president of the McMinnville College to fill the vacancy caused by the resignation of Prof. Boardman. The choice is in recognition of the work that Prof. Boardman had done. He had been a teacher in the school six years before the beginning of this present school year when he was allowed a leave of absence for one year to be spent in the University of California in post graduate work. The new president is a native of Idaho and is 34 years of age.

A Sunday excursion to Corvallis last Sunday was the cause of some excitement while it lasted. The Salvation Army squad was singing and exhorting on the street. There excursions gathered about the detachment and were quite orderly until a small boy on the outskirts raised a disturbance, whereupon the city marshal ordered the Army to move on. It refused. Johnson Porter went to the assistance of the marshal, when one Barrett from Portland jumped on Porter. The latter got Barrett's left ear between his teeth and bit a piece out. The men were separated but the Portland crowd was fierce when the blood was seen running down the neck of their favorite. They hunted Porter, but his son, in the mean time, had got a big six shooter in the hands of the hunted man. He did not conceal it, and the rioters thought it best to leave him alone. This is one time, being armed preserved the peace.

Half mile run—Cummings, M. C. first; Gates and Walker, P. U. second and third; time, 2:12 1-5.

50 yard dash—Peterson, P. U. first; Long, M. C. second; Harris, P. U. third; time, 5 2-5 seconds.

100 yard dash—Peterson, P. U. first; Grey, M. C. second; Harris, P. U. third; time, 10 4-5 seconds.

120 yard hurdle—Fletcher, P. U. first; McKinzie, P. U. second; McMinnville lost third place on illegal running; time 18 2-5 seconds.

220 yard dash—Peterson, P. U. first; Long and Grey, M. C. second and third; time 25 seconds.

220 yard hurdle—Fletcher, P. U. first; Prideox, P. U. second; Stites, M. C. third; time, 28 seconds.

1 Mile run—Cummings, M. C. first; Gates, P. U. second; Patty, M. C. third; time, 5 minutes, 30 seconds.

Shot put—Barrett and Philbrook, P. U. first and second; Dodson, M. C. third; distance 36 feet, 6 inches.

High jump—J. M. Philbrook, P. U. first; Nelson and Stites, M. C. second and third; height 5 feet 2 inches.

Broad jump—Peterson and Gilbert, P. U. first and second; Nelson, M. C. third; distance, 20 feet 4 inches.

Discus throw—Barrett and Philbrook, P. U. first and second; Dodson, M. C. third; distance, 95 feet.

Pole vault—Gilbert, P. U. first; Akin and Cummings, M. C. second and third, height, 9 feet 6 inches.

Hammer throw—Barrett and Philbrook, P. U. first and second; Akin, M. C. third; time, 54 seconds.

Too Great a Risk.
In almost every neighborhood someone has died from an attack of cholera or cholera morbus, often before medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for anyone to take. Chamberlain's Colic, Cholera and Diarrhoea Remedy has undoubtedly saved the lives of more people and relieved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by Delta Drug Store.

A rural cook contributes the following receipt for a pudding, to the household column of the St. Louis Globe-Democrat: Take nice, soft light bread, slice thin, spread with any kind of good preserves, a layer of bread and one of preserves, as much as you want; then make custard same as for custard pies, pour over and steam twenty minutes; then let cool, turn out in large glass bowl; pour over it sauce made of one pint whipped cream and the beaten whites of two or three eggs; flavor with lemon, sweeten a little. This looks so pretty if made of blackberry or blue damson plum preserves, but is fine with any kind.

Exports and Tariff.
The theory that under protection commerce with foreign countries would disappear was tenaciously held by free traders down to the present era. It was finally and reluctantly admitted that protection would build up the industries of the country, but every free trader was prepared to prove irresistible logic that in so doing there would be a complete destruction of trade with the outside world. Even at this very moment there are arguments advanced by free-traders that our foreign trade cannot expand unless there is a relaxation in protection.

In the teeth of all this, and despite every prediction of tariff reformer and free-trader to the contrary, the export trade of the country has advanced, not merely as has the like trade of the other countries of the world, but by gigantic bounds. The policy which, according to closet theorists, was to leave us isolated, "hemmed in by a tariff wall" has placed us not only in the first rank, but the very first county in the world in the volume of exports.

An export trade which has substantially doubled in volume in ten years' time certainly does not call for any change in legislation for the purpose of trying some experiment which it is alleged will better this condition. It is a condition out of all comparison better than is seen in any other country in the world. Our export trade has grown to these extraordinary proportions under a policy which the opponents of pro-

Exports and Tariff.
To save a life, Dr. T. G. Merritt, of No. Mehoopany, Pa., made a wonderful cure. He writes, "a patient was attacked with violent hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles so I prescribed them. The patient gained from the first, and has not had an attack in 14 months." Electric Bitters are positively guaranteed for Dyspepsia, Indigestion, Constipation and Kidney troubles. Try them. Only 50c at Bailey's Pharmacy.
