He has traveled over a good portion of the county in the interest of his candidacy and states that he is very well satisfied with the outlook. He is a young man of sterling worth, identified with ever interest of the county, a republican to the core and a man who, if elected, and there is no reason on earth why he should not be, will make a model sheriff and do honor to the position. Though a young man, he has made a success of his calling, and as sheriff he will conduct the affairs of the office on business principles and in an economical manner. There is no question but both towns will be benefited by the line and no stone should be left unturned that will help to push the project.
