The premium lists for the State Fair have been published and are being distributed.

President Roosevelt has appointed John W. Minto postmaster of Portland, vice F. A. Bancroft, resigned. Mr. Minto takes charge of the office July 1.

Steve Russell, of Vancouver, was arrested at Hood River, while in the act of selling whiskey to Indians, by Deputy Sheriff J. C. Snyder. Russell pleaded guilty before United States Commissioner Prather.

Mrs. John A. Logan, who was recently elected president of the Red Cross, has been in public life many years. She is the widow of the famous Civil War leader who was later a member of the United States senate.

For a swell wedding in the East recently, the invitation had printed on them in the lower left hand corner, "No children expected." A lady remarked, after studying the card a moment, "They'll come just the same."

Myrtle Berry, aged 18, of Peora, Ill., and a member of the graduating class of the high school of that city, has become totally blind, the effects of close study. She never was afflicted before and surgeons believe she can be cured, but her parents do not believe in doctors and until they give their consent to an operation the girl must remain in darkness.

To prove that the strawberry stories going the rounds in Oregon are all right and true to the letter, the Newberg Graphic says: "This for the consideration of those who may doubt Oregon's claim as the banner strawberry state. Milton Newlin has counted the berries on four strawberry hills of the Magoon variety, the result being 199, 216, 226 and 251 respectively. Where can you beat it? And this is not much of a strawberry season either."

At a meeting of the Retail Liquor Dealers' association of Astoria it decided to boycott the Portland Journal because that paper took the side of local option in the campaign just closed. "Boycott" is a nasty word, and the man or body of men who resort to that means of carrying their point or of showing their disapproval, will find that they are only kicking against the pricks. The Journal will be doing business when the "boycott" is as dead as a last year's mackerel.

Every town but this one is tossing bouquets at their sprinkling cart and the people all say that a town without a means of street sprinkling should go back to the days of the fallow dip. The Polk County Observer says in this connection: "The town is much more cool and pleasant since M. D. Coulter began operating his big street sprinkler. The clouds of dust that have blown through the town since the warm weather commenced have made life almost unbearable, and the change to sprinkled streets is appreciated."

The Women's Christian Temperance Union is doing a noble work in St. Louis during the fair, in taking measures for the care and protection of girls who arrive in that city alone. Girls are frequently lured into dens under the false pretense of obtaining work at good wages. An agent of the Union meets every train entering St. Louis and watch for the girls. In case they are being deceived a home and legal aid is at once offered them. Girls who have nowhere to go are also provided for.

The Portland Telegram in a recent issue says: "A Portland sportsman who has just returned from a trip to Patton Creek, one and one-half miles from Gaston, says the fish laws of the state are violated daily by the residents of that section, and that the fish and game warden could capture a score or more of offenders any Sunday that he would visit the creek. At one place in the creek, the sportsman says, a dam has been made, and last Sunday a number of people were there with dipnets, and were taking out trout by the hundreds."

One of the most cowardly despicable boycotts that has ever been our lot to hear of is that placed on the handwork of the blind broom-makers of Oakland, California, by the Labor Union of that state. This cruel, heartless act should bring the blush of shame to the cheek of every union man. When organized labor finds it necessary to hurl its immense strength and influence against the product of a few blind artisans, whose only hope is to keep themselves out of the almshouse, then, indeed, have affairs come to a pretty pass in this great country. We re-echo the blind people's appeal that humanity should take cognizance of their helplessness, and patronize their wares.—Corvallis Gazette.

At the last meeting of the student body for the year of Pacific University of Forest Grove, the members and friends of the varsity track team presented a beautiful loving-cup to their captain, A. C. Gilbert, and a souvenir ring to manager Thomson. Both men have worked hard in the interest of track athletics this season, and this recognition shows the appreciation felt by students and faculty. A cup similar to the one given Mr. Gilbert was sent to Trainer McClanahan, who is now in California.

The spirits distilled in the United States for the fiscal year amounted to 141,000,000 gallons; an increase of 13,000,000 gallons over the previous year, although the distilleries diminished 47,

Six Hundred Women and Children Perish in Burning Boat.

New York, June 15.—Five hundred lives were lost today by the burning of the steamer General Slocum, which was bound out of New York with an excursion given by St. Mark's German Lutheran Church, of this city. Most of the dead were children. Over 5000 persons were aboard the vessel when it left its berth at 9 o'clock. When near Hell Gate a fire broke out in the lunch counter, in the forward part of the vessel. The flames spread with the rapidity of an explosion. There was a stampede, and women and children were forced over the sides of the boat like a waterfall. Scores were sucked down by the whirlpools of Hell Gate. The captain, William Van Schaak, who is one of the oldest excursion-boat captains in New York, was unable to reach the vessel on the rocky bluffs, and headed for North Brother's Island.

Before the island was reached the blazing upper deck collapsed, burying and burning hundreds who were crowded below. The vessel struck with a crash, and many more jumped overboard, only to drown, as the water was beyond their depth.

By this time dozens of small boats had come to the assistance of the vessel, and most of those remaining were taken off safely. The vessel burned to the water's edge. Many bodies have been recovered, nearly all of them women and children. Captain Van Schaak has been arrested.

To the Mardi Gras.

Account of Mardi Gras carnival, to be held at Portland, June 28th to July 9th, inclusive. The Southern Pacific will sell round trip tickets to Portland and return, including one admission to carnival, at \$1.25. Sale dates June 27th to July 7th, good for six days after sale, but not later than July 10th.

THE WAR.

London, June 15.—A dispatch to the Central News from Tokio, filed this, Wednesday, afternoon, says a naval engagement is now in progress off Tauschima Island, in the Korean Straits, between three Russian cruisers, which escaped from Vladivostok, and a number of Japanese ships. No details have yet been received.

Tokio, June 15.—The entrance to the harbor at Port Arthur having been cleared of obstructions, is now open for the passage of ships in and out. Yesterday the Russian protected cruiser Nojik steamed out to sea and engaged with vessels of the Japanese blockading fleet.

St. Petersburg, June 15.—General Stackelberg, though the army headquarters at Harbin, reports a number of desperate skirmishes with the Japanese, in which both sides lost heavily and in one of which the Russian Gen. Gesnross was severely wounded. At midday yesterday an entire division of Japanese made a desperate attack on the left flank of the Russian position at Vafangow. They attacked in three columns, and after shelling the Russians with heavy artillery made a furious bayonet charge in the face of a heavy charge from rapid-fire guns and musketry. The desperation of the Japanese charge is shown by the fact that some of them succeeded in getting within a few yards of the Russian trenches before they were shot down. They were finally compelled to retire, leaving fully 300 dead behind.

The First Siberian Rifles bore the brunt of the attack, and their losses were very heavy. Their commander, Colonel Kavastounoff, fell almost in the first fire, with a bullet through his brain. Adjutant Sub-Lieutenant Nodochinsky was killed almost at the same time. Two majors and a number of officers of lesser rank were picked off by the Japanese sharpshooters, whose fire was unusually deadly and accurate. General Gesnross was shot just as the Japanese attacking column broke and fled. A shrapnel bullet shattered one side of his jaw, but he refused to retire.

Another Severe Engagement.

A report was also received from General Kharkevitch telling of the battle between the outposts at Utian Saturday. He states that the Japanese attacked from front and flank early in the afternoon and the fighting raged until late. Finally the Japanese were driven back, and the Russians followed up their advantage under cover of darkness. Just before dawn the Russians charged the heights of Liao Tung, carrying the Japanese position with a loss of but four killed and 18 wounded.

General Kharkevitch also reports that his scouts have reported to him that a Japanese column numbering 3000 men is marching toward Huayensiang.

TOGO CAPTURES FLEET OF JUNKS.

Chefoo, June 15.—Admiral Togo's squadron captured a number of rice-laden Chinese junks which were attempting to run the blockade into Port Arthur last night. They were confiscated and prize crews placed aboard to take them to Sasebo.

JAPANESE OCCUPY VILLAGES.

St. Petersburg, June 14.—Emperor Nicholas has received the following dispatch from Kuropatkin dated June 13.

"This morning the advance of two Japanese divisions was discovered northward from Pulatien. The advancing forces at 2 P. M. were observed to extend from the village of Vandchon along the valley of the Tassa, one division advancing by the Tassa Valley. The enemy halted at 4:30 P. M., occupying the villages of Taotsiatung, Changsiatung and Luissiatung and the heights southward of Vandchon.

PRaise for Frank Baker.

Republican Chairman's Able Management All Over the State.

Frank C. Baker, chairman of the Republican State Central Committee, is receiving a great deal of commendation from members of the party all over the state for his management of the campaign. Many newspapers are showering praises upon him for his success in drawing back into the party men who were inclined to desert this or that local candidate. Mr. Baker persuaded a large number from their prejudice, and to him is due some measure of credit for the victory of republican legislative candidates in such close counties as Wasco, Linn and Coos.

Mr. Baker has many friends in the state to whom he wrote appeals in the course of the campaign calling upon them to put their shoulder to the wheel and threatening to hold them personally responsible should things go wrong in their county. The letters exercised a strong influence; many of the recipients carried them about for days proudly exhibiting them to their acquaintances.

Senator Fulton, when in Portland the other day, told about a man he had met in Washington county who had been fighting Haines for state senator. The man had received a letter from Mr. Baker pleading with him to keep up his record as a loyal republican. The letter was effective. From the very hour he received it he was a staunch Haines man. Walter L. Toose, of Woodburn, who was Hinger Hermann's right-hand man in the last fight, a few days ago told a similar story about an influential republican in Linn county who had gone on the war-path against Cornett, republican candidate for state representative. He had not long been out for Cornett's scalp, however, when he received a message from Mr. Baker. The man never told what the message contained, but immediately he buried the hatchet and joined the Cornett camp. Cornett was elected by one vote.

Mr. Baker did the same for Whealdon in Wasco and for Coke in Coos and Curry, nominees for state senator. Both were elected by very narrow margins.

The general opinion of country newspapers is that a state campaign in Oregon was never managed more ably than by Mr. Baker.—Oregonian.

STATE ITEMS.

A sharp frost Tuesday night killed potato vines and tender vegetables in the Mount Hood settlement and the upper part of the valley. During the rain here snow whitened the crest of the Cascade mountains.

William Vaughan, of Eugene, and a companion have just returned from a trip to Crook county. They came across the Cascade mountains via the Santiam route and report 12 or 15 feet of snow on the summit.

Salem, Or., June 10.—At a meeting of the State Board of Education, of Eugene, the entire corps of instructors of the State Deaf Mute School were re-elected for the ensuing year. Superintendent Clark, who has given good satisfaction, is also retained.

The 4-year-old daughter, Florence, of Mr. and Mrs. W. H. Hardy, who reside at Clark's Creek, near Elgin, died the early part of the week from eating poisonous mushrooms, gathered in the marshes in that vicinity. The child was buried at Elgin Friday.

Announcements are out for the Oregon Pioneer Association, which meets in Portland, Wednesday June 22. Everyone who came to Oregon prior to Feb. 22, 1859 is a member. These meetings are exceedingly rich in reminiscences and will pay anyone to attend.

Shortly before quitting time Saturday night, J. P. Olsen, one of the proprietors of the Eugene planing mill, accidentally ran his left hand into the "stickler," with the result that his hand was badly lacerated. The third finger was cut completely off and the other fingers cut up terribly.

Shortly before 5 o'clock Saturday morning, while crazed with drink, Thomas Lavin, proprietor of the Gem saloon, at Sumpter, shot himself in the head and fell dead. A misunderstanding with his wife is supposed to have been the motive for his last spree and the rash act. Lavin was formerly in the barber business at Sumpter. Besides his wife, he left one child, one brother in Salt Lake and another in Idaho, and has one sister in Illinois and another in New York.

Mrs. Jean Doherty, whose sudden and mysterious illness Tuesday morning was the cause of her husband's arrest and the starting of a sensation in Hood River, is dead. Death relieved the young woman's sufferings. She rallied but slightly from her sudden attack Tuesday morning, and was conscious at intervals of only a few minutes each. The cause of her fatal sickness and death remains and unsolved mystery to the attending physicians.

An exceptionally severe and unseasonable frost at Oregon City Tuesday night did extensive injury to all kinds of vegetation in Clackamas county. Vegetables, such as corn, beans, squash and peas suffered great damage, while alarm is felt for the safety of the potato crop, which has become one of the main industries with the farmers of Clackamas county. Especially in the lowlands the plants of this crop have become discolored, and it is certain that the growth of the vines has been seriously retarded if not entirely destroyed. The frost was the most severe that has been experienced in this section for years. In some localities it is reported that ice formed on standing water. Fruit of all kinds is too far advanced to be injured by the severity of the frost.

"Hillsboro in Biography."

The editor of The Independent does not lay any claim to the ten or twelve columns of "biography" published in this paper today. The work of gathering the statistics, the wording of the same and the proof reading all belongs to F. E. Ferguson, who makes this "writing of biographies" a business. The credit all belongs to him. We do, however, take pleasure in indorsing the many good things said of our fellow citizens.

Milk Fever.

The United States Department of agriculture has recently issued Circular No. 45, of the Bureau of Animal Industry, entitled, "Milk Fever: Its simple and successful treatment. It gives a complete description of the astonishing successful results obtained in the treatment of this heretofore extremely fatal malady by the injection of filtered air into the udder. Milk fever affects well-nourished, heavy-milking cows in all the large dairy districts of this country, and is characterized by the complete paralysis of the animal shortly after calving. As it attacks the best milking cows in the herd and at a time when the milk flow is the heaviest, the disease is one which has caused very severe losses in our dairy industry. It is, therefore, of the greatest importance that every milk producer acquaint himself with the present extremely successful treatment and should provide himself with a suitable apparatus for injecting sterile air through each teat until the udder is well distended. This air treatment is by far the most simple and practical, as well as the most efficacious and harmless one ever used, and has reduced the mortality from the disease to almost nothing. It is easy of manipulation, requires but little time, and is readily accomplished by means of the apparatus suggested by the Bureau. Up to within recent times most stringent measures were resorted to by every careful dairyman to prevent the disease in his herd. However, since the air treatment has greatly reduced, and even in some cases obliterated, the mortality, prevention is no longer such an important problem, and therefore preventive measures, such as starving, blood letting, etc., which have a severe and lasting effect upon the animals, should be abandoned. The most recent preventive treatment suggested is in line with the favorable results obtained by the injection of air into the udder. It consists in allowing the susceptible cow to retain in the udder for twenty-four hours following calving all the milk except the small quantity required by the calf. The distention of the udder naturally follows as in the air treatment and acts as a preventive against milk fever.

England's navy stands first; is greater than any other two in the world. France's comes next; ours and Germany's nearly a tie for third place, and Italy's next after.

Over 3,000,000,000 pennies have been shipped from the Philadelphia mint in the past five years. Placed side by side they would reach 23,000 miles or nearly around the earth.

There are eight more lynchings in 1903 than 1902, the total for the United States being 104. No less than 8297 persons committed suicide in this country last year. The number of homicides increased from 8834 to 8976 in 1903.

In St. Paul the health officers compel persons who spit on the sidewalks to take out their handkerchiefs and mop up the places they have befouled. If this practice is continued St. Paul ought speedily to become a Mecca of decent people.

J. G. Thompson, manager of Pacific University football interests of Forest Grove, announces that W. P. Magee, of California, has been secured to coach the team next year. Mr. Magee has had four year's football experience. He captained the Santa Clara College football team, on which he played at tackle and half, and afterward went to Stanford, where he coached the team at Santa Clara College.

Mob Chases After Dowie.

All day long, last Sunday, crowds gathered in the vicinity of Zion Tabernacle, on Easton street, London. John Alexander Dowie arrived at ten o'clock and remained at the Tabernacle throughout the day. Three services were held, but the attendance was confined strictly to ticket holders.

Toward 9 o'clock at night, Dowie ventured to leave the building with his wife and son and the long-awaiting mob with frantic shouts dashed after the cab, while reporters in hansom, joining in the chase over a circuitous route to the Hotel Cecil. Dowie obtained rooms at the hotel, withholding his name, but he was requested to leave in the morning.

Resolutions.

Whereas, by the direction of the divine Will our beloved neighbor and friend, J. W. Shute, has answered the call of the angel of death, and

Whereas, in his death we feel we have lost a kind neighbor, dutiful citizen, a faithful and conscientious officer who was careful, painstaking and faithful in the discharge of his duty; yet not arbitrary in his opinions, devoted to his family and home, kind and courteous to his neighbors, and who in the city of Hillsboro, in his death has lost an earnest and faithful servant.

Be it resolved, that the members of the City Council of Hillsboro, Oregon, sympathize with each other and the dear ones of our departed fellow servant, and that the officers of said city will endeavor to remember all his acts of loving kindness and devotion to official duty.

Resolved, that a page in the Journal of this City be appropriated to perpetuate his memory; that a copy of these resolutions be delivered to the widow and son of the deceased; and a copy published in each of the papers published in this city.
