The county clerks' convention, called to meet in Portland, September 9 and 10, has been postponed until a later date, probably in November or December. The reason for postponement is because court meets in most of the counties of the state in September, and consequently clerks would be unable to attend the convention.

Lincoln was a long-sighted man. He had never been to the Pacific coast, but when, in 1865, Schuyler Colfax started to make a tour of this region, Lincoln said: "Remember me to the people of the Pacific coast; tell them that they have the treasure house of the world." What he saw nearly 40 years ago only a comparatively few men are now but dimly perceiving.—Ex.

Mr. Messinger is anxious to avoid any possible error in weighing and has gone to considerable expense to put in scales which he believes are the best manufactured.

A team belonging to Julius Asbahr, who lives about 2 1/2 miles south of Hillsboro, broke away from the hitching chains at the court house one day last week and took a run along the side-walk on the east of the court house yard, knocking the pickets off the fence for a couple of hundred feet. Mr. Tongue organized a force of men and fought the fire for three days and nights. The fire destroyed several hundred dollars worth of fencing before it was under control. Hunters started the fires on the Scappoose mountains near Shady Brook, which did considerable damage in the cedar timber, burning a large number of cedar posts, but destroyed no buildings. The fires are still burning in this section.

Death of Blanche W. Olsen.

On August 22nd, at 3 o'clock in the afternoon, occurred the death of Miss Blanche W. Olsen, eldest daughter of Mr. and Mrs. F. A. Olsen of this city. The announcement was a profound and sad surprise to the whole community, for Miss Olsen was a favorite with all who knew her and few realized that her illness was so serious, though the family knew that the end was near some time before her death.

She was born and her girlhood was passed in this city. She was a bright, lovable girl and everyone was her friend. About two years ago she entered the employ of the Telephone Company of Portland and was one of the most trusted and efficient workers in the office there, but ill health forced her to resign a few weeks ago, though her condition was not considered serious.

It is altogether probable that she would have regained her health but for an incident that happened at the time the camp meetings were being held in Warren's Grove. The "hold up", which occurred between town and the grove one night was under discussion, and like others she talked about the affair. With the report still fresh in her mind she was returning to her home, after her day's work at Palmateer's, where she had been employed. She was riding her wheel and as she came to the bridge near her father's residence, two men came running up the bank, and in her nervous condition she imagined they were after her. She rode home at the top of her speed, and when in the house fainted. Her serious illness dated from this time: pneumonia developed, and on Monday last she passed away.

Miss Olsen was to have been married to Walter Oberg, of Portland, in a short time. She was 17 years and eleven months old.

The going out of this young life, so full of promise, is a sad bereavement to her relatives and friends. Her associates in the office at Portland sent as their last loving tribute magnificent floral pieces. The grave and coffin were lined with flowers. The funeral was held Wednesday forenoon from the Haywood school house, one and one half miles west of the city, the burial taking place in the Old Fellows' cemetery, James A. Campbell officiating.

An Explanation.

To the Editor:—As there seems to be considerable misunderstanding as to the attitude of the Hillsboro committee and their associates as regards the proposed electric road from Portland to Forest Grove via Hillsboro, we would ask for space in your paper to bring before the people of Washington county a few facts relative to our position to the same.

First and foremost, we want the road, no matter what individual or corporation builds it.

Second we will do all we can to help any substantial movement that will accomplish this object, but we are quite tired of empty promises.

Third, we are not in sympathy with the manner in which Mr. Andrew Graydon has lately, and is now handling the project, because there is no guarantee furnished by him that he is able to furnish the money necessary to build the road, even after the \$100,000, or any other sized subsidy has been subscribed by Washington county and Portland.

And it should appear very plain to anyone that without such a guarantee his present effort is in every way quite similar to all his other efforts for the past two years; viz: always a failure, because he will never anything to back it—only "somebody's".

And further, another reason why we cannot co-operate with Mr. Graydon is that we feel sure that he will again fail in this effort; hence those who subscribe to take stock will be tied up in dead paper, and will not be in position to take any other project until the contract with Mr. Graydon has expired, consequently, might be the means of delaying or obstructing an otherwise successful move.

In conclusion, we wish to be fully understood that we will do the utmost of our ability, anyone who can furnish guarantee to build the road, if the people of Washington county will contribute a satisfactory subsidy.

F. M. HEIDEL.

Labor Men Invited.

The Oregonian says: "When Secretary of the Treasury Shaw faces the audience at the Marquam Theater on the night of August 31, he will have few, if any empty benches staring him in the face, as returns are coming in from all sections of the state which indicate that there will be a record-breaking audience at the meeting."

Chairman Frank C. Baker's desk was loaded with mail yesterday, and in almost every instance the writers signified their intentions of being present. If the city turns out as strong a force as will come from the outside, the Marquam will hardly hold the crowd. Mr. Baker looks upon the visit of the secretary as more than a visit of a political speaker, as there will be matters which will later redound to the benefit of the city and state.

Taking that view of the matter, Mr. Baker has sent invitations to the labor unions in the city, and bases the invitation on the ground that good will be accomplished for the city in a commercial way. That is the view of the officers of the commercial club have taken in the preparation for the reception to be tendered Secretary Shaw. Mr. Baker has sent a special invitation to the Typographical Union, as he was formerly a member of that body.

The meeting of the county Lewis and Clark club will be held today at Forest Grove and a good representation from Hillsboro will be present.

Until September 15th we are selling cutlery and pipes at a reduced price of 25 per cent. Goods of guaranteed quality. Mail orders and family recipes a specialty.

Forest Fires.

About 25 men went from here to help save Sawyer Bros' mill, which was endangered, the millowner having telephoned to Brownville for aid. The fire was still raging east of the mill in a fine body of timber at last reports.

Roseburg, Or., Aug. 24.—Forest fires are still raging at Leona, 35 miles north of this place. Considerable damage has been done on Big Sandy and the Leona mills lost one of their big dams, which means a loss of nearly \$1000. Four sections of land near Ollalla, 20 miles south of Roseburg, and the ranch home of L. Aubin (near Ollalla), were entirely destroyed by forest fires.
