Thanksgiving day in this portion of Oregon was warm, a great contrast to the weather they are having in the Old World. The unprecedented snowfalls continue in the British provinces. Many places and villages are isolated, and everywhere in the north railway communication is delayed, and in some parts entirely stopped. There are instances of funerals being snowbound between the house and the cemetery, and children have had to be dug out of the drifts between their houses and the schools. Even in West Cornwall and the Island of Jersey, where snow is a rarity, heavy falls are reported. Ten to 20 degrees of frost were registered in the United Kingdom last night.

G. J. Palmateer this week bought of H. T. Bagley for \$50 cash, the building on Second street, until recently used as a tailor shop. Mr. Palmateer will remodel the building for use as a confectionary store and build an addition on the south side for a telephone exchange. He expects to occupy his new quarters by the 1st of January.

The lectures of W. Waugh Lauder, the pianist at Marsh hall in Forest Grove last week, were attended by a number from this city, among whom were: Mesdames S. T. Linklater, A. B. Bailey, C. K. Henry, John Bailey and the Misses Minnie Warren, Laura Waggener and Anna McDonald.

About a month ago R. Cave, the hardware man, laid in a large number of air-tight heaters, the lot when placed on display reaching the full length of his store. Yesterday Mr. Cave said to us: "Every last stove has been sold, and I have come to the conclusion that it pays to purchase good stoves, and then advertise them. I am satisfied advertising pays."

Under date of November 22, a Bethany subscriber hands us a bunch of roses as follows: "I also want to say while I am at it, that I am glad of the moral tone you put into your paper. We need men who will stand up for that which makes for righteousness in a community. Of course, I am not referring to the defeated local option law, but to general principles. A good many of us, who otherwise are strongly for local option felt that the law as it now stands would not be practicable in our state at this time, but we do hope for such a modification of it, as will commend it to favorable consideration of all those who love righteousness. By the way, our local telephone line is nearly completed, and in a few days the bells will be ringing and the Bethany farmers will be in talking connections with the civilized world. It will be a great boon to us, and will save many a rough trip in winter time. Just as our rural route does, which is being appreciated greatly. Soon there will be another from Hillsboro to Phillip via Bethany, which will do away with the post offices at these two places."
