TO WOMEN FAIR VISITORS

INFORMATION FOR WOMEN

Who May Go to the Lewis and Clark Centennial Exposition in Portland—A Timely Warning.

At the time of the Centennial in Philadelphia, in 1876, the Young Women's Christian Association, then six years old, sent out circulars to warn girls against coming to see the exposition with the idea of getting work. Notwithstanding this there were hundreds of girls stranded who exhausted their small savings in three or four days and found no work; how to protect them was a problem which is well remembered by those who were managers of the Association at that time.

Desiring to meet these conditions we make the following suggestions:

1. See to it that you have money enough for an emergency and for your return home.
2. See to it before leaving home you learn from a reliable source that your destination in Portland is a safe one.
3. See to it that you accept no directions from either men or women on trains, if unknown to you, and that you report to the conductors any advances made. You must depend upon yourself and the railroad officials for information concerning trains. Any questions will be answered by the TRAVELER'S AID AGENTS to be found at the stations on the way. They will be women with badges.
4. See to it that you have an authorized TRAVELER'S AID card of identification.
5. See to it that you apply for these cards to your Organization, Society or Guild.
6. See to it that before accepting employment in Portland, through advertisement or otherwise, that the EXPOSITION TRAVELER'S AID COMMITTEE endorses it.
7. See to it that before going to any lodging or boarding house that the EXPOSITION TRAVELER'S AID COMMITTEE recommends it. The address of the Portland headquarters of this Committee is 312 Oak street, Portland, Ore.

Emergency Hospital at Fair.

Dr. F. A. J. MacKenzie has been appointed medical director for the Lewis and Clark exposition. Two surgeons and a staff of trained nurses will assist the medical period during the exposition period.

An emergency hospital will be established on the grounds, in a building now being constructed for the purpose. The exposition officials are taking this precaution to provide against any emergency that may arise, though it is not regarded as likely that there will be any great need for such a hospital.

At expositions held in the East there have been a number of prostrations from the heat. Oregon's mild climate gives promise of a very low percentage of heat prostrations; in fact, the physicians scarcely expect any, but they will be ready in case their services are needed.

There is also much less liability of accidents at their exposition, owing to the substantial character of the buildings and the fact that no intramural railway is required.

An ambulance wagon of the latest pattern will be provided, manned by a hospital corps selected by Adjutant General William Finner of the Oregon National Guard, from among his best men.

Oregon Patents.

Granted this week, reported by C. A. Snow & Co., patent attorneys Washington, D. C. Charlie E. Brown, Stayton, log sawing machine; William C. Lawrence, Portland, loop box; Larkin G. Price, Kings Valley, gate; William Wolkman, Portland, plating machine. For copy of any of above patents send ten cents in postage stamps with date of this paper to C. A. Snow & Co., Washington, D. C.

One Fare For Round Trip.

The Southern Pacific Company will make a rate of one fare for the round trip from Portland to all points in Oregon, Ashland and north for visitors from the East to the exposition at Portland to enable them to look over Western Oregon with a view of settling or investing. These tickets will be good for fifteen days limit, with stop over at all intermediate points, and will be sold to holders of the exposition round trip tickets from points East of the Rocky Mountains.

This will afford the various counties and communities that will maintain exhibits and advertise in other ways at the exposition, every inducement to have the Eastern people visit their section.

June Designer.

The woman who meditates traveling this summer will be especially interested in the June Designer, which pictures the latest inventions which will add to her comfort. A well-written article by Myra Emmons tells how one may make a trip to Europe, spend a month on land and have a satisfying glimpse of six different countries for one hundred and fifty dollars, exclusive of ocean steamer expenses. Those who want a breath of country air as reasonably as can be obtained will appreciate "The Summer Outing," which presents camp life of most novel character. There are, however, many women who just now are far more interested in the planning of their wedding gowns than traveling outfits, and for these are given three pages of bridal costumes, with the addition of outfits for the flower-girls and pages. The college girl will be pleased with "Dramatics at Vassar," and the school teacher in search of an appropriate entertainment for commencement Day will gladly avail herself of "The Daisy Party," than which no daintier or more summer-like frolic for the little folks can be imagined. All mothers will prefer to any other pages in the magazine the two on which are given lullabies, with charming border of drowsy babies being sung to sleep by the crickets. The Housekeeping article this month carries the readers far away to Scandinavia, where the oddest of domestic methods prevail, and of unusual interest to those who have their own support to earn is the new series by Bertha Hasbrook.

Several hundred Texans recently attended a meeting called to ensure enforcement of the law. Every man in attendance broke the law by taking his gun with him. A member of congress is numbered among the dead.

LEWIS & CLARK'S CAMP GROUND

GREAT FALLS, MONTANA.

Takes Advantage of the Portland Exposition to Tell the World of Its Wonders.

Great Falls, the thriving Missouri river city of Montana, upon the site of which Lewis and Clark camped on their memorable journey to the Pacific one hundred years ago, is awake to the fact that much historical interests clusters about its site and vicinity, and the Great Falls Commercial club has taken steps to tell the world many important facts regarding the city. To this end a large lot of attractive folders has been prepared, to be distributed at the Lewis and Clark exposition.

The inside covers of these folders contain tersely written facts, offering the salient features of the sojourn of Lewis and Clark at Great Falls, the extent of this thriving city's commercial enterprise and the resources of the region in which it is located. The outside covers show a cut depicting Lewis and Clarke making a treaty with the Indians, and a map tracing the course of the explorers in their trip through Montana. The reading matter says in part:

"One hundred years has wrought a wonderful change in the country at the falls of the Missouri. The bear and buffalo encountered by Lewis and Clark have given way to a modern city of 18,000 inhabitants. Great Falls, the commercial center of northern Montana, is one of the finest residence cities of the Great Northwest.

"Great Falls" railroads handle 20,000 cars monthly. It is the coal mining center of the state. It is one of the largest wool markets in the world and an important point for the shipment of beef and mutton. It is surrounded by a wheat growing country. There are free home-steads to be had; improved farms cheap; both irrigated and bench grain farms. The Sun river irrigation scheme that has been undertaken by the government will irrigate 350,000 acres of as fine land as the plow ever turned. Nearly all of this land is open to entry, subject to the rules of the department."

A Kansas newspaper declares it has made a new discovery, "a hitherto unthought of method of preventing lobbyist from hanging about the legislature." The plan consists of putting the lobbyists in the penitentiary.

All records were broken in New York last Sunday in the number of immigrants passing quarantine. Within 12 hours 12,039 foreigners, arriving in steerage, were permitted to enter New York, indicating that the spring influx of immigrants this year will probably exceed the records for former years. Ten Trans-Atlantic liners brought this army of immigrants to the United States. They began to arrive early in the morning and the last to pass quarantine was the Homburg-American liner Blucher, which was admitted at 6 o'clock in the afternoon and added 605 names to the already long list of foreigners arriving in the steerage.

To the strains of "Nearer My God, to Thee," the body of Frank Guglielmo, hanged at Salem Friday last for the murder of his sweetheart, was last Sunday afternoon consigned to its last resting-place in Mount Calvary cemetery, Portland. Headed by De Caprio's Italian band of 11 pieces, and followed by eight carriages containing 28 persons, including clergyman, mourners, pallbearers and sympathizing friends, the funeral cortege wended its way from the undertaking establishment on Seventh and Ankeny streets to Sixth, up Sixth to Morrison, thence to Fourth, and from there to St. Michael's church, at Fourth and Mill, where Rev. Father Alexander Costello preached a sermon first in Italian and then in English over the remains of the dead murderer. After the obsequies in the church, the procession proceeded to the cemetery, where the interment took place in the family vault.

Whatever may be the facts about the Bowen-Loomis controversy, it deserves probing to the bottom. If secretary Loomis was guilty of any of the abuses of his official position with which Mr. Bowen charges him he should be dismissed in disgrace. If Mr. Bowen has been guilty of furnishing the facts to the newspapers, as Mr. Loomis charges, he should be compelled to resign, whatever truth there may be in the charges.

The state department at Washington was informed Monday that the British government refuses the request of Mrs. Maybrick for a complete pardon. Therefore she she will not be able to testify at the trial in her case involving the property of her mother, the Baroness Deroques.
