### Crop Report.

The past week was dry and the hotter of the season. These conditions were very favorable for haying, and this work it has been pushed along rapidly. The hay crop promises to be heavier than last year, although in some few localities it is not so good as expected. Pasturage is getting short, and consequentis decreasing.

late sown. Oats show considerable improvement. Corn and gardens have still plentiful in many yards, and con-

Apples, pears, peaches and prunes, doing nicely. The berry season in the with amazement and their mouths to western section is drawing to a close, but in the higher elevations in eastern Oregon it is now at its height.
