### THE INDEPENDENT, HILLSBORO, sults obtained, this method has been intelligence has been waited from North ound superior to any other." Official Paper of Washington County

Entered at the Postoffice at Hills boro, Oregon, for transmission through the mails as second-class mail matter.

BY D. W. BATH

Less than four weeks remain in which to take advantage of the low railroad rates to go and see the Lewis and Clark exposition and the wonderful Northwest country.

The big horse and cattle show at the noted horses in the country are on exhitendance.

No clergyman owing obedience to the Church of England in Canada can hereafter solemnize marriage between a dithe other party to the divorce is living. This was the decision reached by the General Synod of the Dominion of Canada, representing every diocese and part of the country, from the Atlantic to the genial gentleman to meet and while Pacific and from the American boundary to the Arctic Ocean.

T. Perkius, an engineer in the land reclamation service, draw crowds daily at various localities where government ir- ing were entertained at a grand ball at great deal of useful information about this important subject. The entertainment is free.

A Canadian farmer, noted for his at sent-mindedness, went to town one day and transacted his business with utmost precision. He started on his way home, however, with the firm conviction that he had forgotten something -what it was he could not recall, try how he would. As he neared home the convic tion increased and three times he stopped his horse and went carefully through his pocketbook in a vain endeavor to discover what he had forgotten. In due course he reached home and was met by his daughter, who looked at him in surprise, and exclaimed, "Why, father, where have you left mother?"-Pall Mall Gazette.

One of the most interesting outsid attractions for Lewis and Clark exposiuns a purling brook. For a mile or more the trail leads through the deep canon, with great fir trees rising on each side and ferns as tall as a man, growing thickly. Then, at the upper end, the sightseer climbs the narrow trail up the slope and along the mountain side, coming out at City Park, a beautiful place of landscape gardening. Macleay Park is left just as nature made it, ex cepting that the one narrow path has been cut through. the builders to the Chicago & North- Polk, Benton and Lane. He has been electric lighted Pullmans. These are and Linn. fitted with ten sections, a drawing room cars, equipped with twelve sections, one drawing room and one compartment, will be operated on the Chicago-Portland line. These sleeping cars, together with dining cars and composite-buffet-smoking, library and observation car, constitute the equipment of the train. In addition to the service that has heretofore been maintained to San Francisco and Portland, the opening of the New Salt Lake Line gives a direct Los Angeles connection to the Overland Limited over a new and desirable route. The following is taken from the last issue of a well-known health journal, and is suggested housewives who are now putting up their winter supply of fruit, as well worth a trial: "The berries selected for canning should be fresh and firm. Place in a clean, cold jar as many as possible without crushing the fruit. Seal the jar without the rubber, and place in a cold oven, with an asbestos mat between the can and the floor of the oven. "When the oven is filled with cans, so placed as not to touch one another, it should be gradually heated, care being taken not to heat too quickly, especially if gas is used. After ten minutes, increase the heat of the oven until it is quite hot, and allow the fruit to remain from 20 to thirty minutes. Hard fruits, such as pears, peaches, apples and plums, require longer cooking. "While the fruit is baking, prepare a syrup, allowing one cup of sugar to each quart of water used. Very acid fruits may require more sugar. Let the sugar dissolve, and bring the syrup just to the boiling point. "When the fruit is cooked, fill the cans to ihe brim with the boiling hot syrup, seal them in the usual way, and allow them to stand until cold. While cooling it will be found possible to seal them a little tighter at intervals, as the glass contracts. "When the can is perfectly air-tight, dip the top in liquid paraffin wax, deep enough to cover. When treated in this way, the fruit will keep for years. "For the aving of time, and the excellent re-

railroad of importance in the United States, met in the Auditorium on the Lewis and Clark fair grounds. President J. W. Adams, of the association addressed the meeting, after which he introduced the speakers, among whom were Governor Chamberlain, H. M.

Cate, president of the Portland Commercial Club and A. L. Craig, General Pasenger Agent of the O. R. & N. Railway. ing for Toose. Mr. Craig is a pleasing speaker, one of

the ablest railroad men in the United progress, opening September 19. It teresting and to the point. He stated will run for ten days.
