

No one in future will be able to say they could not get a nomination and then feel sore because they were turned down. The primary election law gives everybody a square deal, and no matter what office a person may aspire for he can circulate a petition and thereby have his name placed on the primary ballots. It is free and open for anybody to participate who wish. It will be a straight party vote and instead of a convention nominating a party ticket as heretofore, the voters who register in time will do so, and the person receiving the highest number of votes for each office will become the candidate. It is going to be interesting to know whether those who take part in this primary election will support the candidates when it comes to the election. Here is a good opportunity for the republicans in Tillamook county to drop their foolish factional fights and support the party's nominee. They ought to do it if they think anything of party principles. It entirely rests with the republicans themselves whether they want to win at the coming election or whether they will court defeat again. It will be a straight party vote at the primaries, and it should be a straight party vote at the election if the republicans think anything of their party. The democratic "knockers" will as usual circulate all manner of political lies about prospective republican candidates, for they know it is only by causing dissension in the republican party that they can expect to win.—Tillamook Headlight.

Arlington Record: Oregon is fast forging to the front as a democratic state. If Senator Fulton would only die or resign now so that another democrat could be appointed senator by our non-partisan governor, elected by republican votes, we would have something more to be proud of and to congratulate ourselves about. Republican voters should see to it that he is re-elected governor, and as fast as any vacancy occurs in any office be sure to fill it with a democrat, as there are no republicans worthy or capable of filling any important office in Oregon.

A Painter's Broken Arm.
A friend once entered the studio of George Inness, the American landscape painter, while he was at work and remarked that the picture on the easel seemed to him much better than certain former works of the artist. "Right!" said Inness. "This is going to be one of my best things, and the reason is that I have had the good luck to break my right arm and am obliged to paint with my left hand. You see," he added, showing his right hand in a sling, "this hand had become so darned clever that I could not catch up with it, and it painted away without me, while this hand"—showing the left, with which he held his brush—"is awkward and can do nothing without me."

Railroad Lands for Lease.
Lands of the Oregon and California Railroad Company, in Oregon, will be leased for the year 1906 subject to cancellation of lease in the event of the sale of the land during the term of the lease. Owners of farms and ranches adjoining railroad lands should file their applications not later than February 1, 1906, after which date applications from others will also be considered. Poison in War.
When the French beat the Germans along the coast in 1881 the latter retired to the interior. When the French pursued them they found a queer line of defense, beyond which they could make no progress and in storming which many died. The Germans had poisoned the springs, water courses, etc., as they retreated, and the campaigns of the French against them never got farther than the poison line. The poison was a native one, as deadly as arsenic or strychnine.

A Modern Miracle.
"Truly miraculous seemed the recovery of Mrs. Mollie Holt of this place," writes J. O. R. Hooper, Woodford, Tenn., "she was so wasted by coughing up puss from her lungs. Doctors declared her end was near that her family had watched by her bed-side forty-eight hours; when, at my urgent request Dr. King's New Discovery was given her, with the astonishing result that improvement began, and continued until she finally completely recovered, and is a healthy woman today." Guaranteed cure for coughs and colds. 50c and \$1.00 at all drug stores. Trial bottle free.

If you think it is necessary to keep the good will of the congregation by advertising in every church program, go ahead but change the \$ to expense not advertising.—Rusty Mike's Diary.

May Live 100 Years.
The excellent chances for living a full century are excellent in the case of Mrs. Jennie Duncan, of Haynesville, Me., now 70 years old. She writes: "Electric Bitters cured me of Chronic Dyspepsia of 20 years standing, and made me feel as well and strong as a young girl." Electric Bitters cure Stomach and Liver diseases, Blood disorders, General Debility and bodily weakness. Sold on a guarantee at drug all stores. Price only 50c.

Grafting the bone from a dog's leg on to the leg of a man to replace some five inches of bone that had been removed, and so saving the man his leg, was the remarkable surgical feat performed by a San Francisco surgeon. Some men have stated that they want to defeat a legislative nominee who will not pledge himself in advance to support for the senate whoever gets the greatest number of votes at the primaries, regardless of whether he happens to be a bedrock democrat or a republican scalawag. Not many thoughtful, discreet men with minds of their own will care to swallow so bitter a pill, even though they believe in senators being elected by a direct vote of the people.
