Didn't Make Good.
Tess—Don't you think Mr. Galley is awfully handsome?
Jess—Huh! "Handsome" is an handsome does." He told me last evening that he was going to kiss me before he left.

Tess—The idea! Weren't you indignant?
Jess—I should say I was. When a man promises to do a thing he ought to keep his word.—Philadelphia Press.

"PE-RU-NA WORKED SIMPLY MARVELOUS"

Suffered Severely With Headaches—Unable to Work

Miss Lucy V. McGivney, 452 3rd Ave. Brooklyn, N. Y., writes:

"For many months I suffered severely from headaches and pains in the side and back, sometimes being unable to attend to my daily work."

"I am better now, thanks to Peru-na, and am as active as ever and have no more headaches."

"The way Peru-na worked in my case was simply marvelous."

We have in our files many grateful letters from women who have suffered with the symptoms named above. Lack of space prevents our giving more than one testimonial here.

It is impossible even to approximate the great amount of suffering which Peru-na has relieved, or the number of women who have been restored to health and strength by its faithful use.

Loans.

Unto the government we bow
And lend a reverent ear.
I'd rather lend it cash, I vow,
And be a financier.
Washington Star.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

J. C. CROWLEY & CO., Toledo, O.
Sold by Druggists. Free.

Hall's Catarrh Cure is the best.

Wash Day.

"Wash day is Monday everywhere," said a globe trotter.

He made a gesture of amazement. "How strange that is," he said. "We believe in the Bible, the Algerians believe in the Koran, but both of us believe in the same wash day."

"The Germans, the French, the English, the South Americans, the Arabs, the Japs, the Chinese, all have Monday for wash day. G where you will over the world, and on Monday clothes, white and wet from the tub, flap crazily in the wind."

A Great Campaigner.

Congressman Thomas Hedge, of Iowa, holds that Leslie M. Shaw, secretary of the treasury, is one of the best political campaigners in the country.

"Nobody ever gets away," said Hedge, "if Leslie gets a chance to address him personally. In one campaign he carried a splendid new watch. After addressing an audience he would circulate among the voters, saying to this man and that: 'I wish you would give me the correct time, I am afraid of losing my train.' Of course, each man complied, feeling flattered at the request. Shaw used to say it was hard on the watch, but he believed the votes he made in this way more than made up."

—Indianapolis News.

Showing Due Consideration.

Mrs. Nutritch Woody—Now that we're fixed so well we'll have to have a regular day to be "at home."

Nutritch Woody—All right. What's the matter with Mrs. Woody's?

Mrs. Nutritch Woody—Oh, no; Mrs. Van Astorville has that day and I don't want to interfere with her.—Philadelphia Press.

Willing to Be Accommodating.

"Say, I'm tired of calling every day to get you to pay this bill. When are you going to settle?"

"What day would suit you best?"

"Well, after this you may call on Fridays."—Cleveland Leader.

A Perfect Specimen.

"Is he an egotist?"

"A perfect specimen," answered Miss Cayenne. "He is one of the people who regard their mere existence as a favor which the world can never fully reciprocate."—Washington Star.

Among Other Things.

Tommy pushed his mother's daughter in a vat of boiling water.

When they found the little girl. All her hair was out of curl.

—Philadelphia Ledger.

But few men will pass through the peony gates if St. Peter springs an investigating committee on them.

Trying to get into heaven on the strength of a tombstone testimonial is risky business.

WIT OF THE YOUNGSTERS.

Teacher—Is there any connection between mind and matter? Small Boy—Sure. If a boy doesn't mind there'll soon be something the matter.

Little Grace—Why didn't you wear your religion to-day, grandma? Grandma—Wear my religion? What do you mean, dear? Little Grace—Papa says you use it as a cloak.

Mamma—You have drawn the horse very nicely, Charlie, but you have forgotten one thing. Where is his tail? Charlie—Oh, that horse doesn't need any tail. There ain't no flies on him.

Teacher—What would you call a man who makes an oration, Willie? Willie—An orator. Teacher—That's right. Now, Johnny, what would you call a man who writes an ode? Johnny—An odor.

Mamma—For goodness' sake, Nellie, stop yelling at the top of your voice! Why can't you be quiet, like Harry? Nellie—Oh, he has to be quiet in this game. We're playing that he's papa coming home late and I'm you.

"Why, Harry, what's the matter?" asked a mother of her 4-year-old hopeful, who was crying as if his heart would break. "G-grandpa slipped on the street and got his clothes all m-muddy," sobbed the little fellow. "Well, don't cry about it, dear," said the mother. "I'm glad to see you so kind-hearted and sympathetic, however."

"It ain't that," sobbed Harry. "S-sister saw him and I d-didn't."

WHERE THE FLOWERS GO.

The Hospitals and the Poor Get Society Function Decorations.

Few people have any idea what becomes of the tons of flowers used for decorations at fashionable functions, receptions, church weddings and the like. Of course it is an understood thing that the star flowers taken from the churches each Sunday are distributed among the sick in the various hospitals, but very few imagine, if they give the subject a thought, that the beautiful blossoms used in making their homes attractive for an hour or so in one afternoon are not left to wither and die. Where the flowers are sent to some hospital and the centerpiece on the table is divided among the last guests, each being given half a dozen roses, each being given half a dozen roses, each being given half a dozen roses.

SKIN DISEASES

There is nothing more distressing than an itching, burning skin disease, and upon the return of warm weather those who are afflicted with skin troubles find the symptoms appearing and know that they will be tormented through the hot summer months. The blood is heated with humors and acid matter, and as they are forced to the surface the skin seems to be on fire. The treatment of skin diseases with external applications is all wrong, because they do not reach the trouble which is in the blood. The most such treatment can be expected to do is, allay the itching and burning and cover up the trouble for awhile, but as soon as it is left off the disease returns.

All food taken into the body contains, in some form, the elements necessary to sustain the different parts. One portion is used for the making of blood, another for muscle, one for bone, still another for fat, and so on. After these different properties are extracted from the food there still remains a portion that is useless, or waste matter, which is intended to be disposed of through the natural channels of bodily waste, the Liver, Kidneys and Bowels. At this season of the year, however, these organs become torpid, dull and sluggish, and fail to perform this duty, and these accumulations remain in the system and are absorbed by the blood to ferment and sour, producing burning acids and acid humors. The blood cannot properly nourish the system while in this impure condition, and begins to throw off these acids through the pores and glands of the skin, producing Acne, Eczema, Tetter, Psoriasis, Salt Rheum and skin diseases of every description.

EOZEMA appears usually with a slight redness of the skin, followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, arms, legs and face, though other parts of the body may be afflicted. In TETTER the skin dries, cracks and bleeds, and is often very painful. The acid in the blood dries up the natural oils of the skin, causing a dry, feverish, hardened condition and giving it a leathery appearance. ACNE makes its appearance on the face in the form of pimples and black-heads, and is particularly disagreeable because of its unsightly appearance, while PSORIASIS, a scaly disease, comes in patches on different parts of the body. One of the worst forms of skin disease is SALT RHEUM. It discharges a watery fluid, forming sores and producing intense itching. The head and face are the parts usually affected, and sometimes the hair falls out and a mass of sores forms on the scalp.

These and all skin diseases are due to the same cause—burning acids and humors in the blood, and until this vital fluid is cleansed and made pure they will continue. The best treatment for all skin diseases is S. S. S., a remedy that is purely vegetable, being made entirely from roots, herbs and barks, and acts directly on the blood with a cleansing, healing effect. It neutralizes the acids and purifies the blood so that the skin, instead of being blistered and burned by the fiery fluids, is nourished by a supply of cooling, healthy blood. It goes down into the circulation and forces out every particle of waste or foreign matter, builds up the blood and cures all skin diseases promptly and permanently. S. S. S. does not leave the least particle of the poison for future outbreaks, but entirely rids the blood of the cause for all skin diseases.

S. S. S. tones up the system and regulates the Liver, Kidneys and Bowels so that they will carry off the natural waste and refuse matter through the proper channels, instead of leaving it to be absorbed by the blood. Nothing equals S. S. S. in the treatment of these troubles and for building up the general health. Write for our treatise on skin diseases and any medical advice you wish. We make no charge for either.
