Houser & Otis F. R. Dailey's Old Stand

Roosevelt for Equal Rights.

President Roosevelt must be pleased by the passage of a woman's suffrage bill in the senate of his home state. When Governor of New York he spread great consternation among the moss-backs by recommending woman's suffrage in his inaugural message to the legislature. It got wind that he meant to do so, and all manner of pressure was brought to bear upon him against it by representatives of the great corporations and by "society" women; but Teddy's sturdy backbone did not weaken. The conservatives prophesied that no New York Legislature would ever follow his advice. But only a few years have passed, and already the legislature is lining up with Roosevelt.

Facts for Voters.

A number of big corporations and business men say they believe that equal suffrage would hurt the development of Oregon. The United States census shows that all the states where women vote have grown rapidly in population, agriculture and manufactures. The following cold facts are submitted to the common sense of Oregon voters:
According to the last census, in the past ten years population increased 30 per cent. in Colorado, 32 per cent. in Utah, 40 per cent. in Wyoming, and 88 per cent. in Idaho. In Oregon it increased only 30 per cent.
The value of manufactures increased 82 per cent. in Wyoming, 137 per cent. in Utah, 142 per cent. in Colorado, and 187 per cent. in Idaho. In Oregon it increased only 11 per cent.
The value of farm property increased 151 per cent. in Colorado, 237 per cent. in Utah, 369 per cent. in Idaho and 431 per cent. in Wyoming. In Oregon it increased only 100 per cent.
According to the last census, the average earnings of men engaged in farm and factory work were \$512.23 per year in Utah, \$483.68 in Idaho, \$412.91 in Colorado, and \$618.54 in Wyoming. In Oregon they were only \$483.59.
During the last ten years, according to the census, the value of manufactures increased \$8 for each person in Idaho and Wyoming, \$34 for each person in Utah, and \$57 for each person in Colorado. It fell off \$20 for each person in Oregon.

These figures prove clearly that equal suffrage does not hurt a state's development.
The protest of the big corporations merely shows their opposition to anything that will increase the power of the plain people. Many of the corporations that signed are all controlled by a few persons. In these cases half a dozen separate signatures represent only so many different tentacles of one and the same big octopus.
The initiative and referendum are the chief defense of the people's rights. It is worthy of note that the three rich society women who asked the corporations to protest, spoke against the initiative and referendum in their circular letter.

The Federated Trades Council of Portland has just passed unanimously a resolution offered by the women of the Garment Worker's Union, endorsing the equal suffrage amendment, and calling attention to the fact that the great corporations which are the enemies of the people are also the enemies of justice to women.
