This weather is just too lovely for anything for that big roof on First street near the depot. Every time a man passes under it and gets about a barrel of water down his neck he has something real pretty to say about the owner of that building. Eave-troughs may be cheaper next summer, but they will not be needed half as much as now.

An Arkansas printer, in making up the forms in a hurry the other day got a marriage and a grocer's ad. mixed up so that it read as follows: "John Brown and Ida Gray were united in the holy sacrament by the quart or barrel. Mr. B. is a well known young codfish at 16 cents per pound, while the bride, Miss G. has some nice pig's feet which will be sold cheaper than any in town."

Hon. E. W. Haines of Forest Grove, and senator from this district, seems to be ahead for the speakership. There is no doubt about Mr. Haines' ability for the important position and his Washington county friends hope he may succeed in pulling down the plum.

Patten & Perry's "Jerry from Terry" Co. which gave a performance in Crescent theatre Wednesday evening, drew a good house. If you have neglected to get that present until now, and are yet undecided as to what to get, the advice of "Wex Pones" might be of assistance. If the gift is for a lady, you might get a piano or a sewing machine. Both are better than the old fashioned piano or sewing machine. A gas-stove, for which scores of records can be had, is a useful gift. A mopola, which will wash any floor for which a disc is provided—a washboard—a carpet sweeper—any of these are up-to-date presents. If the present is for a man, if he smokes—tobacco. If he doesn't smoke—no tobacco.

The Portland Journal of Wednesday evening says that Harrison Allen, district attorney for Clatsop, Columbia, Washington and Clackamas counties, has moved to Portland, where he will be associated in the practice of law with Judge Charles H. Carey. Although Mr. Allen denies that he has resigned his official position he admits that he will be with Judge Cary after January 1. He says that he is considering his resignation, but added that he will continue to refuse to say anything about it until Governor Chamberlain returns from the east. In the event that Mr. Allen's resignation is accepted by Governor Chamberlain, it is considered by the wisecracks that John M. Wall, a well-known democratic attorney of Hillsboro, will succeed to the position.

Prof. Horner tells a good story on himself that is being widely circulated. When visiting the catacombs during his trip abroad last summer, Prof. Horner longed to secure a bone to bring home as a souvenir, and watching his chance when a guard was not looking the O. A. C. man picked up a bone, put it under his coat and managed to get away with it. Whether it was a rib or a joint of a big toe does not matter. All went well until recently the professor had a dream and in that dream he went to heaven. As he walked the pearly streets a strange individual approached, and slapping Prof. Horner on the shoulder said, "Hello, Jack Horner! What have you done with the bone out of my frame which you swiped in the catacombs?" Whether the O. A. C. man had an answer ready or not is not stated, but the dream has haunted him so persistently that he declares his intention of returning to the catacombs next year and replacing the stolen rib.—Corvallis Gazette.

When Mr. Huston and Mr. Swiger were here, last week, looking up the electric line proposition, it was stated by Mr. Huston that there was a division of opinion among the directors of the company as to whether they should build from Portland to Forest Grove, or extend their line from Salem to Albany, some of the directors favoring one route and some another. It looks a little as though the Albany people had the best of it judging from the following item, which appears in the Albany Herald: "The Willamette Valley Traction Company is said to be the purchaser of the Albany street car system. This is the same company that is now building an electric line between Salem and Portland. The purchase of the Albany line may be taken as an indication that the electric line is to be extended on south from Salem to Albany. This is one company in Oregon that is not only buying roads on paper but is actually laying ties and rails and building expensive bridges. The Salem-Portland line is completed from Salem north beyond Chemawa and cars are running regularly. An expensive modern steel bridge is being constructed over the Willamette and at the present rate the road will be completed into Portland next summer. Preliminary surveys have been made a few miles south from Salem and it is presumed that building will be commenced between Salem and Albany by the time the Portland-Salem connection is made."

Long Tennessee Fight.

For twenty years W. L. Rawls, of Bells, Tenn., fought nasal catarrh. He writes: "The swelling and soreness inside my nostrils was so bad that I began applying Bucklen's Arnica Salve to the sore surface; this caused the soreness and swelling to disappear, never to return." Best salve in existence. 25c at all Druggists.

The happy couple took the afternoon train for Portland where they have a new home prepared for their permanent residence.
