On Tuesday, Mrs. James Harper of Reedville, while returning to her home from this city was thrown from her buggy and suffered a compound fracture of her right arm. The horse became frightened and ran into the ditch thrashing Mrs. Harper out. Dr. Linklater attended the injured lady.

Eugene D. Smith of Forest Grove has filed suit for divorce against his wife, Mary A. Smith, giving desertion as his grounds for separation. They were married at Owatonna, Minn., September 6, 1875, and have ten children, four of whom are minors, and plaintiff asks for the custody of them. V. L. Rutter also files suit for divorce against his wife, Mattie Rutter, on the grounds of desertion. They were married in Lincoln county, Oregon, March 4, 1901, and have one child, a daughter, aged 4 years.

Today will occur a joint picnic at Columbia Academy, when the pupils of Miss Grace Reverman, teacher of the Centerville school, and those of Miss Elizabeth H. Withycombe, teacher of the Academy, will join in having a most delightful time. There is to be a program in the morning, a picnic dinner, to be followed in the afternoon by a game of base ball between the two schools. There will also be races and other games and a number of prizes to be given. Ice cream will be served too, and if the pleasure of this day are not remembered a long time it will be no fault of the two ladies mentioned, for they have done everything possible to make the picnic a happy success. They were in town Tuesday and went home in the evening with a goodly supply of gifts for the prize winners.

John W. Penders, Sarah P. Bolrick, W. Pearl Chandler, Carrie E. Frick, Ethel Bell Moselev and Howard H. Markel are the graduates this year from Pacific University.

June 18 was the first real hot day this year in Chicago, Boston and other Eastern cities. In the former city 21 deaths are reported and many prostrations occurred. Four deaths are reported from Boston.

This is ideal weather for the Rose Show in Portland. The Development League and Pioneers Association have been enjoying the week in that city, and many visitors have been in attendance from Hillsboro and the surrounding country.

Linn, a son of F. C. Ballard, the barber, was accidentally cut across the wrist with a knife one day this week while playing with a companion. The wound exposed, but did not cut into the tendons. Dr. A. B. Bailey dressed the wound.

On Tuesday C. L. McCracken purchased the frame building adjoining the City Restaurant, formerly occupied by Fred Emerson, and will move in July 7th, where he will continue the restaurant business. The brick vacated will be occupied by the Pacific States Telephone Co., as telephone headquarters.

One day last week the City Livestock Station, on Second and Main streets, received a bunch of seventy-nine fine horses from Eastern Oregon which are on the market, and in the past few days some twenty five or thirty have been disposed of. There are in the lot some splendid farm and carriage horses. Sheriff Connell will show you their good qualities.

D. Robinson, who works in the condenser, was arrested last week charged with assault on Jay Meyer, of this city. The step-son of Robert Kuhn, of this city, Robinson had a jury trial on Saturday which after being out several hours, failed to agree. The case was to have been brought up again Tuesday, but the defendant concluded that he had assaulted the lad more or less. So he pleaded guilty and was fined \$10.

Glen, a son of Landlord Jeremiah of the Hillsboro Hotel, while playing ball on Wednesday, caught a "hot" fly square in the mouth, knocking loose the lower front teeth and breaking the process, the bone that holds the ivorys. Dr. A. B. Bailey took the lad in hand and replaced the process. He says the teeth will be in good shape soon, but in the meantime the boy will have to live on a liquid diet.

A most malignant case of diphtheria was reported from Forest Grove to the county judge on Wednesday and Dr. Via, the attending physician, was notified to put the patient under strict quarantine and also all persons who had been exposed to the disease. The man suffering from the disease recently came from Holland and is working for a Mr. Peterson. All precaution will be taken to keep the disease from spreading. The man was reported dying Wednesday morning, but on Thursday was said to be better.

A Forest Grove special of Wednesday says that after fifty years' active work as an educator, Professor Joseph Marsh today submitted to the board of trustees his resignation from the chair of ancient languages in Pacific University. In point of service, Professor Marsh is the oldest teacher on the Pacific coast, having spent forty consecutive years in the position which he has now given up. Although he is in his 71st year, his resignation came as a surprise to all and it was accepted with regret by the trustees of the institution.

Dan Emerson, a young man 20 years old, was arrested last Saturday charged with stealing a purse from the person of Tom Emerick, and spent Sunday in the county jail. He had a hearing before Justice H. T. Bagley on Monday and on the advice of his attorney pleaded guilty to simple larceny. He was given a suspended sentence and if he conducts himself as an honest young man should for the next year the sentence will be withdrawn, otherwise he will have to go to jail. He will probably decide that money earned honestly brings the most happiness and that it is just as easy to be good as it is to be bad, and a good deal more satisfactory.

The school election held last Monday created very little interest, only fifteen or twenty persons being present. This is probably owing to the fact that the schools of this city are conducted in an admirable and economical manner and the taxpayers are willing to let well enough alone. R. H. Greer was re-elected director and Peter Broewer clerk, both without opposition, a very good recommendation for the efficiency of the gentlemen named. Mr. Broewer's report shows the teachers are all paid, with over \$700 in the treasury, and the indebtedness of the district is about \$300, a great reduction in the last few years. Total enrollment for the past year was 523.

Economy Fruit Jars at Greer's.

Born.—On Friday last to Mr. and J. Krieger, of Verboort, a son.

There will be graduating exercises and a basket social at Centerville school house Saturday evening, commencing at 8 o'clock. Friends of the pupils invited. Ladies are requested to bring baskets.

GRACE M. REVERMAN, Teacher.

Don't forget to tell your friends that the celebration in Hillsboro this year will be the best ever held in the city. Hon. E. E. Beckman of Portland will deliver the oration and there will be something doing every minute of the day.

Last Saturday the 3-year-old daughter of Mrs. O'Connor, who lives on Third and Bassline, got her fingers caught in the chain of a bicycle and had them badly crushed. Dr. F. A. Bailey was called and the little girl's injuries attended to. Though badly jammed, the doctor will save all the fingers and the little girl will be as good as new in a short time.

J. Claid Greaser went to Brownsville, Linn county, last week Tuesday and returned Friday with his wife who has been visiting her parents there for a month. Mr. Greaser took a day for fishing while away and he informs us that he had a companion caught sixty-three in about an hour. That is he caught six and the other fellow three.

Last Sunday evening an amateur company at Verboort placed "Under Tom's Cabin" on the boards there, under the auspices of the Sisters of Mercy of St. Mary's Home. There was a short program in connection with the play. The attendance was unusually large and the report is that the evening's entertainment was very successful, financially and otherwise.

Capt. W. Hill Gatrell, some sixteen years ago a resident of Greenville, but who disposed of his farm and went to California, has returned and purchased property near his old home and now intends to remain there. He says that he finds that after sixteen years of living elsewhere Oregon is good enough for him. Mr. Gatrell intends to go into the chicken business on a large scale.

A young lady, probably from Boston, stepped into a dry goods store in this city the other day and blushing asked the chief clerk if he had "any of those elastic bands capable of being elongated and adjusted at pleasure, and used by the feminine portion of mankind for putting around the lower extremities of their locomotive members to keep in the proper position and the required altitude habitations of their tibials." The clerk is now on a sheep ranch in the mountains, and it is anticipated that he will recover in time.

Probably the youngest station agent on any division of the Southern Pacific Railway is now located at Hillsboro. The young man arrived last Saturday morning and immediately took possession, though Agent Vickers will probably try to boss the job for some time. In mentioning the arrival of the future railroad man, the father never changed color when he remarked that he was now dad of the "biggest and best kid in the United States." Funny, but the first born makes them all feel that way.

The commencement exercises of the Oregon State Normal school will occur at Monmouth June 26 to 30. This being the 25th anniversary of the establishment of the state normal school at Monmouth, it is anticipated that there will be a large attendance of former students, members of the board and faculty, as well as friends of the graduates. Special railroad rates have been secured for all wishing to attend. To secure this rate you must secure a receipt from the agent where the ticket is purchased. Tickets should be bought for either Dallas or Independence.

No parent should deny the children the delightful privilege of seeing Little Ollie Cooper, one of the foremost child actresses in America, supported by the famous Baker Theatre Stock Company of Portland, in a grand special production of Frances Hodson Burnett's beautiful and charming play, "Little Lord Fauntleroy," at the Crescent Theatre, one night only, Friday, June 21st, under direct personal management of Geo. L. Baker. A beautiful romance with historical characters and scenes. Special correct costumes and scenery. Lower floor 50c balcony 50c, children's gallery 25c, boxes 75c.

On his way from McMinnville to attend the reunion of Indian war veterans and pioneers at Portland, George W. Olds, pioneer of 1852 and a veteran of the Indian war of 1855, died on the train between Dilley and Forest Grove Tuesday morning, from heart trouble, due to senility. Mr. Olds was a prominent Yamhill farmer, 76 years old. He was born in Michigan and joined the great trans-continental movement of 55 years ago, which numbered in its ranks so many honored early settlers. Mrs. Olds, a pioneer of about the same period, was with him on the train that morning. Mr. Olds leaves besides his wife, one daughter, Mrs. James Durham, a resident of Portland. The body was taken off the coach at Forest Grove and Coroner Brown of this city notified. He went at once to Forest Grove and found the remains had been removed to an undertaker. He inquired into the circumstances and took evidence of a witness to Mr. Olds' death, and decided that an inquest was not necessary. The body was returned to McMinnville on the evening train.

G. W. Patterson, of Portland, was in the city yesterday. He says there are immense crowds at Portland, every train bringing in more.

L. J. Palmator has made his confectionary store look like a new building by the addition of a couple of coats of paint. Wonderful! Swarts were the artists.

Yesterday there was born to Mr. and Mrs. J. T. Hurd of Forest Grove, a son, and on the same day a son was born to Mr. and Mrs. J. N. Mier, who live just west of this city.

John Horstmann, of Blomington, had a bad runaway last Friday in which he suffered the fracture of three ribs and had his lungs torn a little. The air escapes from the laceration. Dr. Tamiesie is attending him.

Miss Wilma Wagner, of this city, accompanied by Miss Hidden of Portland and Miss Grace Weston of Vancouver will leave for Europe July 1st to spend a year in the study of music. Miss Frances Clapp of Forest Grove will have charge of Miss Wagner's class in Hillsboro during her absence.

Remember that beginning tomorrow morning Mrs. Bath will offer for sale everything in her store at greatly reduced prices. This applies to her fine stock of new and up-to-date millinery and trimmed hats. The building is to be torn down July 1st, and this sale is made to dispose of all the stock possible before moving to her new quarters.

Next Wednesday is our day at the New Shute Park, and it is expected and hoped that every man, woman and child in the city large enough to handle a rake will be on hand and do what they can. The committee that has the park work in hand has the heavy labor about finished, but there is a lot of tidying up to do and Mayor Demas wants everybody to respond next Wednesday—all day. The park is not ready until you can make it too pretty. Let everybody be there, get better acquainted and have a good time.

A. E. Mead of Buxton was in town Wednesday. He has been working on the roads of Washington county continuously since May 13 in the vicinity of the Cornell road and out in Beaverton and was on his way home to get acquainted with the folks, not having been there since the late mentioned. Next Monday he will begin work on the road near Hope & Ennis' mill, west four miles south of Hillsboro. Mr. Mead says the county board is to be congratulated for the manner in which they are spending the money to fund this year. Every bit of idea is being built with a permanent idea in view, and the taxpayers will have something to show for their money.

Dr. Tamiesie while driving just outside of town had a little unpleasantness with his horse one day this week which resulted in a runaway. On account of the harness being buckled wrong, the animal kicked at everything in sight and the doctor concluded to "let 'er rip," and she went for about three miles, filling the air full of dust and horse-shoes, while the physician looked on expecting the buggy to be knocked into kindling wood. But neither the horse, harness nor buggy were badly injured. This makes the second runaway Dr. Tamiesie has had with the animal within a week, and in both instances he had narrow escapes from serious injury.

On Monday last, shortly after noon, Ed. Wolf, of Cornelius, who is interested in a lot of horses at the Hillsboro livery stable, met with an accident which will probably not prove fatal, but was a pretty close call, and will keep him in bed and at home for some time. One end of a rope, the other end of which had been thrown over the head of a wild horse, circled about and dropped over his head, forming a running, or windlass knot, the animal was running wild and as the rope unbound with the rapidity of lightning, jerked Wolf up against a fence with great force and burned a band around his neck, lacerating the inside of the throat from which the blood flowed freely. The cords of the neck were also badly strained, and the mystery of it all is that the rope did not sever the head from the body. Dr. Tamiesie is attending to the injured man at the Hillsboro Hotel and he believes at present Mr. Wolf has no pinch on life, as the muscles of the throat are somewhat paralyzed and it is with difficulty that he can swallow, and there is yet considerable inflammation.

Advertisement for The Edison Phonograph. Text includes: 'When a man leaves home in the evening it is because he seeks amusement. The best way to keep him home is to give him the amusement there. Make home a competitor of downtown, the club, the cafe, the theatre and the concert hall. No one thing will furnish so much amusement for so many people, so many times, and in so many ways as the Edison Phonograph. Talk about versatility! If you had a brass band on tap and several leading concert hall singers on salary, and two or three funny men to crack jokes, and a beautiful soprano to sing ballads, you could not give the same amount of varied entertainment that the Edison Phonograph gives by simply changing records. You can hear the whole program at our store. The prices on Edison goods are the same anywhere in the U. S. If you buy here you have no freight to pay which means something about \$3.00.
