M. Peterson, of the McNutt Real Estate Co., of Cornelius, was in the city yesterday.

R. V. Hoyt and family are spending a few weeks with his relatives in Hillsboro.

The families of Wm. Schulmerich and Mr. Burkhalter left last Monday for a two weeks' outing at Garibaldi.

G. W. Copping, of Echo, went to that place ten years ago without a cent to his name. This year he will harvest 2,300 acres of wheat. This is but a sample of what enterprise and push will do in Oregon.

The penalty for transporting game outside of Oregon for sale, etc., is a fine from \$100 to \$500 and imprisonment; for violation of game laws, \$15 to \$500, for hunting without a license, a fine of \$25 to \$100 and imprisonment.

B. K. Haines, of this city, last week left at this office a branch on which was hanging some twenty or thirty as fine Bing cherries as ever grew in this state or any other. They were large as walnuts, perfect beauties and as good to eat as they were pleasing to the eye.

Forty dollars per ton for ice is a pretty stiff price for congealed luxury, but that is the price asked for ice in this place this summer. An ice plant in Hillsboro would be a gold mine for some one, even if the price dropped to one cent or less per pound, as there is a good field to draw from.

Justice Wright of the supreme court of the District of Columbia today authorized the admission to bail of Mrs. Annie M. Bradley under indictment on the charge of murdering former United States Senator Arthur Brown of Utah, in the sum of \$15,000.

Vice-President Fairbanks has been charged with being "stuck-up" and "as cold as an iceberg," but during his stay in Astoria and Portland he was found to be genial and jolly, and the newspaper boys of Portland made his stay in the Rose City very pleasant.

A city can prosper only as the country which supports it prospers. The wonderful prosperity of Oregon is reflected in the building record of Portland for the six months ending June 30th. This city led the 34 principal cities of the country in the percentage of the increase in building over the same period of last year, with a gain of 78 per cent.—Corvallis Times.

Last May, Thos. Howe, the breeder of fancy dogs, entered A. C. Shute's 2-year-old pointer dog, Don Harold, in the Kennel Show in Portland, and he has proven a prize winner in every class. The animal secured two first prizes and three medals; a silver cup for the best novice dog, another for the best pointer dog in Oregon and three medals as awards in the pointer class.

A letter from J. C. Greer, who is now located at Hillyard, Wash., says that he and his wife are as well as usual. He is taking treatments for paralysis and his physician is hopeful of a permanent cure. Mr. Greer thinks that he will receive help, but to think that a permanent cure is in store for him is a belief altogether too good to take much stock in, but he is hopeful, and his Hillsboro friends will certainly wish that he may receive the benefits his physician predicts.

Vice President Fairbanks passed through Hood River Wednesday on his way home, after his visit to the coast, and was given an impromptu reception on the arrival of his train, by a number of Hood River citizens. Mr. Fairbanks did not wait

for those who were anxious to see him to go aboard the train, but made his way to the platform as soon as the cars stopped. He appeared most cordial, and was particularly attentive to a number of workmen who stood near the track, endeavoring to reach him. He made it his business to shake hands with them, seemingly desiring to eradicate the impression as to his exclusiveness.

Articles of incorporation were filed with the county clerk yesterday, whereby William Bagley, Sr., William H. Bagley and George R. Bagley, associate themselves together as The Bagley Co., for the purpose of engaging in the business of purchasing and selling real and personal property, owning, operating and cultivating farms, production of hops, grain and other farm products. The capital stock is placed at \$30,000, shares at the par value of \$1 each. The principal office of the company will be located in Hillsboro.

The assertion recently made by a public speaker that many men who go to the legislature spend their time trying to pass laws to meet particular troubles which they have experienced is too true. Their personal grievances or selfish ambitions warp their judgment or narrow their views. Too many men who go to the legislature want a separate game law, a separate fish law, a separate stock law and a fence law, for their respective counties. They are unwilling to be governed by a general statute, but want their own counties excepted in one way or another. As a result our statutes upon such subjects are an interminable tangle.—Oregonian.

W. L. Skeels was taken very sick while at the conference which was being held at Corvallis, gave out while preaching. He was taken to a nearby house and attended by his son Raphael. We understand that he has taken him over to his daughter's, Mrs. Grace Lawrence, at Etna, Wash.

Mrs. Walter Prosser went last Saturday to Hillsboro to help take care of her mother, Mrs. Landros.

Eli Evans and wife were over on a visit from Newberg last Sunday, at C. H. Brooks.

The funeral of Mr. Ratcliffe who died so suddenly on the 8th of this month was held last Sunday at the house, James Campbell preaching the sermon. Mrs. Ratcliffe had the body embalmed and kept it seven days that her son from Kansas could come. He was laid to rest in the Mountside cemetery and his grave was beautifully decked with flowers. He had been a soldier in the civil war and flags were put on his grave. Mr. Campbell gave a very impressive talk at the grave.

Long Live the King!

is the popular cry throughout European countries; while in America, the cry of the present day is "Long live Dr. King's New Discovery, King of Throat and Lung Remedies!" of which Mrs. Julia Ryder Paine, Truro, Mass., says: "It never fails to give immediate relief and to quickly cure a cough or cold." Mrs. Paine's opinion is shared by a majority of the inhabitants of this country. New Discovery cures weak lungs and sore throats after all other remedies have failed; and for coughs and colds it's the only sure cure. Guaranteed by all druggists, 50c and \$1.00. Trial bottle free.

The August number of the Woman's Home Companion is primarily an all-story number—except, of course, for the twelve indispensable departments that appear in each issue. The second installment of Anthony Hope's new love story "Helena's Path," appears in this number, and all the other fiction comes up to the standard of Mr. Hope's novel. Among the contributors are Anne Hamilton Dunell, author of "Rebecca Mary," May Isabel Fisk, in one of her in one of her inimitable monologues, Zona Gale, Clinton Dangerfield, Mary Wilhelmna Hastings and Jeannette Cooper. Considerable space is devoted to the vacation problem, and Dr. Everett Hale, Margaret E. Sangster, Anna Steese Richardson and the Editor all give some admirable vacation suggestions. The number is elaborate pictorially with a double page of photographs of children of royalty and of other prominent people and their pet ponies—and illustrations by such well-known illustrators as E. Dalton Stevens, Blanch Green and Herman Pfister. The article of greatest interest to most women in the August number is contributed by Grace Gould, the fashion editor, on the coming fall and winter fashions. At this very early date Miss Gould has secured authentic information on this subject, though the exceptional connections that the Woman's Home Companion has made in all the great fashion centers. This article will prove to be of the greatest help and interest. Mrs. Sangster and Richardson continue their talks with the girls, Fannie Farmer tells how to make appetizing picnic dishes, and Evelyn Parsons contributes several attractive designs for summer embroidery. The children's pages are entertaining as usual.

A Painter's Broken Arm. A friend once entered the studio of George Inness, the American landscape painter, while he was at work and remarked that the picture on the easel seemed to him much better than certain former works of the artist. "Right!" said Inness. "This is going to be one of my best things, and the reason is that I have had the good luck to break my right arm and am obliged to paint with my left hand. You see," he added, showing his right hand in a sling, "this hand had become so darned clever that I could not catch up with it, and it painted away without me, while this hand"—showing the left, with which he held his brush—"is awkward and can do nothing without me."
