THE PESTS ARCH ENEMY

TIME TO BEGIN THE SLAUGHTER

Kill Off the San Jose Scale by Using Phoeix Spray—It Will Not Fail You.

The following item was published in the Portland Telegram last October and is republished at this time so that fruit growers may know where the wonderful spray mentioned in the article may be procured:

"Bernard Leis, of Beaverton, has attained wonderful results from spraying in an orchard on his place containing upwards of 1,000 trees. In one year Mr. Leis cleaned his trees of an aggravated attack of San Jose scale that threatened to destroy the orchard altogether. He never knew until he visited the Lewis and Clark exposition two years ago what troubled his once fine orchard of twenty acres apple trees.

While visiting the fair his attention was called to a mammoth effigy of the San Jose scale, done in papier mache. He at once decided that this was the plague that had seized his orchard and from which it was slowly dying. He obtained all the literature he could obtain on the subject and the methods and treatment necessary to destroy the insect.

A lime and sulphur spray was used, and after one year's dead scale on the trees began dropping off. The year the spray was used the trees did not bud, but this year, the second, the fruit is of first class quality.

Codlin moth is now receiving the attention of Mr. Leis. His efforts were first directed against the scale, as he considered that the most dangerous pest. He expects to have no further trouble from either scale or codlin moth after this year. This solution used for the latter is arsenate of lead.

President W. K. Jewell of the state board of horticulture urges early spraying. Inspectors are instructed to prepare for the approaching campaign against the scale in whatever part of the state any vestige of the destructive growth may be found. Gradually Oregon is being cleansed of the scale and it is hoped that it may be thoroughly killed out in another year or so. Old fences must be inspected as well as trees of all kinds, not necessarily fruit or nut bearing trees."

A. B. Cordely, of the O. A. C. at Corvallis, says of the spray Mr. Leis used on his trees, and for which he is agent for Washington county:

"The results obtained from the use of your Phoeix spray were very satisfactory indeed. I tested it by diluting one gallon of spray with ten gallons of water, also by diluting one to fifteen. The diluted sprays were applied thoroughly in February, to trees that were simply incrustated with scale, and even the weaker solution has apparently completely eradicated the pest from sprayed trees. A final examination made two weeks ago (September, 1907) fails to reveal any living scale upon fruit or leaves. So far as I am able to tell at present, the trees are perfectly clean."

Sunday dinner is only 25 cents at both tables at Hotel Bigelow, at which time will be served chicken and everything else good to eat. The new hotel is getting the patronage it deserves and our citizens should give the new landlord every encouragement possible.

A Union Ticket Elected.

The union ticket was elected without opposition at the Forest Grove election Monday and for the first time in many years the temperance question was not an issue.

Land and Mineral Decisions.

The following decisions are furnished The Independent by Woodford D. Harlan, Land Attorney, Washington, D. C.:

Coal Lands—Agents—An application by an agent of an association to file a coal-declaratory statement must be made in the manner provided by the departmental regulations, and show what improvements have been made, and the persons composing the association.

Contest—Practice—A contest is not defeated by a previous extrajudicial opinion expressed by the commission on the partial and ex-parte statement of the contestee.

Meandered Stream—An entry canceled in part on account of embracing land on both sides of a meandered stream, may be reinstated, in the absence of any adverse claim, it appearing that said stream is not in fact meandered within the meaning of the law and regulations.

Townsite—Homestead—The amendment to sections 2289 and 2290, R. S. of U. S., by act of March 3, 1891, does not authorize entry under the homestead law of lands included within the limits of an incorporated town.

Mineral Land—The existence of gold in non-paying quantities will not preclude agricultural entry of the land. The mineral character of a tract is not established by a decision in a case where such question was not in issue.

He Will Lecture.

Homer Davenport arrived in Portland Monday night from Silverton, where he has been visiting his father for the past three weeks, and remained until yesterday, when he returned to New York to resume his art work. On Wednesday evening Mr. Davenport delivered his famous lecture at the White Temple under the auspices of the White Temple congregation.

Mr. Davenport has a worldwide reputation as a cartoonist, and a national reputation as a lecturer and traveler. He has recently returned from an adventurous expedition into the interior of the Arabian Desert, into a region never heretofore penetrated by white men. The purpose of the trip was to secure and bring to this country a number of priceless Arabian war steeds, which was made possible through the unprecedented action of the Sultan of Turkey in granting him special permission for this purpose. This has never heretofore occurred, and was a very high mark of distinction. Mr. Davenport will tell of his audience with the Sultan and of the many interesting experiences which befell him.

It fills the arteries with rich, red blood, makes new flesh, and healthy men, women and children. Nothing can take its place; no remedy has done so much good as Holister's Rocky Mountain Tea. 35c. tea or tablets. Delta Drug Store.

FARMING CONGRESS

TO BE HELD IN SALT LAKE CITY

January 22 to 26—Important to a Vast Area of Oregon and Washington.

(Special Correspondence.)

Portland, Ore., January 13th.

The second session of the Trans-Missouri Dry Farming Congress is to be held in Salt Lake City, Utah, January 22nd to 26th. The proceedings of this congress are of especial importance to a vast area of Oregon and Washington, and every commercial body in the two states is asked to appoint at least one delegate. Their whole territory East of the Cascades should be represented, and both Governor Chamberlain and Governor Mead are anxious that large delegations should be present at the convention. The executive committee from the Pacific Northwest are Hon. W. J. Kerr of the Oregon Agricultural College and Hon. R. G. McCroskey of Washington. President Fisher Harris of the organization requests that delegates be appointed and names sent to him at once at Salt Lake City.

Hon. Ed. H. Webster, chief of the Dairy Division of the Bureau of Animal Industry, United States Department of Agriculture, has notified W. L. Crissey, Secretary of the Oregon State Dairy Association, that he will arrange to have one or more government representatives in attendance upon the state dairy meetings of both Oregon and Washington during the present year 1908. December 10th and 11th have already been chosen as the date of the Oregon meeting.

The somewhat disturbed financial situation in the East and South is causing industrial institutions in the older states to investigate the opportunities for a more advantageous home in the great Pacific Northwest, or at least this would be indicated by the fact that the Portland Commercial Club has had more correspondence on this subject within the last sixty days than during the previous twelve months.

The immigration to Oregon and Washington this year ought to be double that of last. In no other two states has every character of crop yielded so enormously and commanded such a high price. People in the older communities are disposed to move, and the Pacific Northwest should get more than its proportion of new citizens, but to accomplish this all the commercial bodies must work in harmony and individuals must participate through private correspondence, which is the strongest influence of all.

The people of Eugene and Lane county are beginning a campaign in behalf of the University of Oregon, in which they are meeting with the heartiest support and co-operation from all portions of the state. The horticulturalists of Lane county have just passed a resolution in which they urge the people of the state to study the question impartially, and then act for her best educational interests in casting their vote at the June election.

The Fifth republican congressional committee of Toledo, O., has endorsed the candidacy of Wm. H. Taft for president. The Lincoln-Roosevelt Republican clubs of California have also endorsed him. The committee favors instructing the California delegation to the national republican convention to vote for Taft and to use all honorable means to secure his nomination.

J. R. Bailey for Commissioner.

J. R. Bailey, of Buxton, has, at the solicitation of many friends, concluded to make the run for the nomination of county commissioner, to take the place of C. B. Buchanan, whose time expires the coming spring. Mr. Bailey is well acquainted with county affairs, and if nominated and elected, will undoubtedly make a good official. He will make his announcement next week.

A Desperate Chance.

There is a play at the Seattle Theatre this week that lots of people could see with profit. It is not such a great play as a literary effort, but it was the best that could be evolved after the material the author had furnished by the episode. Most newspaper readers read about the daring escape of the Biddle brothers from the Pittsburg city jail about five years ago. It was made doubly interesting from the fact that they effected their escape through the assistance of the prison warden's wife, who became infatuated with the elder of the Biddle brothers. The play shows the crime for which they were convicted and sentenced to death, and the sickening sentimentality of the hysterical females, who bring flowers to the condemned murderers and weep over their fabled fate. The escape from prison is a sensational episode, and the scene where they are at bay and wounded to death is extremely thrilling. The author has involved a vein of comedy furnished by a German and his sweetheart that is really good. The acting of the company is highly creditable and "A Desperate Chance" is attractive for several reasons, and teaches a moral; that is, that our sins are sure to find us out, and the penalty and interest exacted is not worth the pleasure that we imagine we derive from an evil action. The engagement closes Saturday night.—Seattle Times.

"A Desperate Chance" at the Crescent tonight.

A Pennsylvania man crawled under the floor of the kitchen and yelled like a wild cat. Before he could let out a second yowl his landlady fired at him three times, narrowly missing his head. Hereafter he will be contented with the role of a tame house cat.
