Word was telephoned from Beaverton last Thursday after we had gone to press that Mrs. Antonia Stann, living three and one-half miles southeast of Reedville, near Cooper mountain, had dropped dead that afternoon about 3:30. Mrs. Stann had been ill for some time, but not considered serious enough for a physician's services. She was about the house as usual, had gotten dinner, and when her husband came to the house about 3:30 for an ax he saw the kitchen door open and chickens in the room. Upon entering he found his wife dead. Deceased was 50 years old and had no children.

Mass Meeting at Beaverton.

A mass meeting was called Tuesday night in Beaverton to discuss matters pertaining to the new electric road, already surveyed through that enterprising little town. The route and franchise matters were brought up and the road will be welcomed with outstretched arms.

The people of Beaverton will do everything in their means to secure the proposed right-of-way. The prime object of the meeting was to find out how the citizens of that place felt about the road. C. H. Fry called the meeting to order and A. W. Pike was elected to fill the chair and Fred Cady was chosen secretary. The question of development came up and the advisability of securing a manufacturing plant was discussed. It was voted that a cannery would be a good thing for Beaverton and an incentive to greater public activity. Corvallis was taken as an example, before and after they had secured the plant. The following committee of five was appointed to continue the good work of publicity and to organize a "push club" which will take hold of Beaverton development work with vim and earnestness: Messrs. Thornton, Hedge, Vincent, Rossi and Hawkins. The Fruit Growers' Association have already been making inquiries regarding a cannery at Beaverton and this was looked upon as a favorable indication. After considerable discussion on the ways and means of continuing this development work, the meeting adjourned until next Tuesday night.

To Hillsboro Completed.

With the completion of the track crossing at Fourth and Stark streets, work on which was begun Tuesday morning, the United Railways will have seven miles of its line completed within the city limits and the city link of the Hillsboro line will be ready for operation.

As soon as the city council will permit certain changes in the franchise held by the United Railways, work will be continued extending the line over the hill to the westward of the city. Engineering work on this part of the line is now under way, and fully \$30,000 worth of material is waiting in the yards for the resumption of construction.

The section of track from the city limits to Mount Calvary cemetery, a distance of four miles, is the hardest problem the company has to solve, because of the heavy grades, but it is expected that this strip will be completed before fall, as work will be begun within the next few weeks.

Before the week is over the line will be extended out Macadam street, so as to tap the thriving South Portland manufacturing district. It is also expected to double-track Stark street some time this year.—Portland Telegram.

If to Statement No. 1, can be attributed the handsome majority vote of Bro. Jonathan of about 3100 in the last senatorial election, in a republican state, whose normal majority ranges from 20,000 to 30,000, it is reasonable to suppose that the G. O. P. is mixed up in a losing game now. But the writer is not a politician or prophet and possessed of "no fish to fry."

From Beaverton.

Politics are the order of the day now as city election occurs next Tuesday. The wet and dry issue has been buried this time as far as the dry past is concerned at least, the fight this year being made on reform lines. The nominees of the "citizens" ticket as elected at the caucuses Monday night were: mayor, H. G. Vincent; councilmen, G. N. Hughson and E. G. Anderson; recorder, Geo. Thyng; treasurer, A. H. Spraner; marshal, W. H. Hunter. There will no doubt be an opposition ticket in the field before election.

We recognize the friendly "jab" in last week's issue about "Watch Tacoma Grow," but nevertheless don't be surprised when you hear of both Hillsboro and Portland being suburbs of Beaverton. Stranger things than that have happened.

The Three P's

Pluck, Push and Perseverance are all essential to financial success. A systematic system of saving is of equal importance; and this often has its beginning with the opening of a little savings account. Possibly you would like to talk with us about the matter.
