"Sis in New York" is the title of the new series of comedy adventures that befell our old friend the funny, funny rural Indian lass. W. E. Thorne and Mr. and Mrs. E. B. Thorne returned on Tuesday from La Mesa Springs, Calif., where they went last October to spend the winter and to look after some property interests they have near La Mesa. The California property owned by the Thorne's is situated eight miles from the business center of Santiago, 2 1/2 miles from the oldest mission in the state, and the electric line runs within 2 1/2 miles of their place. La Mesa is in the extreme southern part of California, within twenty miles of the Mexican border, and the climate is very mild the year around, making it an ideal place to spend the winter. W. E. Thorne has purchased his father's interest in the La Mesa property and expects to return in three or four weeks and join his wife and little girl, who are looking after things during his absence. Mr. and Mrs. E. D. Thorne will not go back, but have again possession of their pretty home on north Third street which they say looks mighty good to them after a five months' absence. We are indebted to the family for some fine oranges, lemons and olives grown on their property at La Mesa, which are certainly delicious specimens of California fruit. Mr. Thorne tells us that J. M.
