HOP ACREAGE CUT DOWN.

Prospect of Low Price Will Cause Growers to Let Yards Lie Idle.

In the hop district lying around Dallas, the acreage of cultivated yards will be considerably less this season than it has been for several years.

Many of the hop growers have already plowed out their vines and are preparing to replace them with some crop which they believe will be safer and more profitable, while others design merely to let their hop yards lie idle during the coming year, hoping for an increase in the demand for hops, and consequently a better price for their products when they do begin to cultivate their yards again. The greater portion of the yards that have been either plowed out or will be allowed to lie idle during the coming season are located in the rich belt of hop land along the Little Luckiamute, while the majority of the growers whose land lies in the immediate vicinity of Dallas, prefer to cultivate them as usual. The Koser and Levens yards, both of which are being plowed out, are exceptions to this rule.

It has been estimated that fully 25 per cent of the hop acreage of this district will be out of cultivation during the coming season, and it is said the remainder will be cared for in a merely superficial manner. —Polk Co. Observer.

P. certificates Form 1020 to S. P. agent at Forest Grove on or before May 1st, 1908. Certificates will be signed by Theo. Fessler, secretary of the association, and may be issued on any of the three days prior to or on the opening day.

That Armory Bill.

Portland, April 23.—(Special) "Does it pay to have a landlord?" That world-old question of economy is being asked by Oregon National Guardsmen all over the state. Answer that question and you have expressed your views of the Armory bill, which is to be voted on at the June election, they say.

"Under the present arrangement the state is in the position of a man who has another's roof over his head," said Adjutant General W. E. Pinzer, in an interview today on the subject of the Armory bill. The state not only suffers all the inconvenience of being a tenant but is also paying out thousands of dollars in rent that should be going into the construction of substantial state buildings.

"Leaving aside the patriotic motives which should cause every voter to lend all support possible to the National Guard, now a line of national defense, the economic aspect of the Armory bill should carry it at the June election. At present Oregon has rented armories in twelve cities outside of Portland. These armories are not suitable for the purpose to which they are put and they cost the state exactly \$5000 per year.

"The armory bill appropriates \$25,000 per year for four years for the building of twelve armories. Thus the total appropriation is \$100,000. It doesn't take much figuring to show that in a few years the state would be ahead on the deal and that the armory bill, instead of being an expensive necessity, is a good investment."
