and five halls. There are never fewer than 40,000 tramps in England. Hard times double

No old sore exists merely because the flesh is diseased at that partic. ular spot ; if this were true simple cleanliness and local applications would heal them. Whenever a sore or ulcer refuses to heal readily, the blood is at fault; this vital fluid is filled with impurities and poisons which are being constantly discharged into the place, feeding it with noxious matter and food for stock. The gardener pulled These impurities in the blood may be the remains of some constitutional trouble, the effect of a debilitating spell of sickness, leaving disease germs in the system, or the absorption by the blood of the fermented refuse matter which the bodily channels of waste have failed to remove. Again the cause may be hereditary, the diseased blood of ancestry being handed down to

posterity ; but whatever the cause, the fact that the sore will not heal shows the necessity for the very best constitutional treatment. There is nothing that causes more worry and anxiety than an old sore which resists treatment.

Every symptom suggests pollution and disease-the discharge, the red, angry looking flesh, the pain and inflammation, and the discoloration of surrounding parts, all show that deep down in the blood there are morbid and dangerous forces at work, constantly creating poisons which may in the end lead to Cancer. Local applications are valuable only for their cleansing and antiseptic effects; they do not reach the blood, where the real cause is located, and can therefore have no real curative worth. S. S. S. heals old sores by going down to the fountain-head of the trouble and driving out the poison-producing

jocular banker.

I want to recommend S. S. S. to any who are in need of a blood purifier, and especially as a emedy for sores and obstinate ulcers. In 1877 had my leg badly cut on the sharp edge of a barrel, and having on a blue woolen stocking barrel, and having on a blue woolen stocking the place was badly poisoned from the dye. A great sore formed and for years no one knows what I suffered with the place. I tried, it seemed to me, everything I had ever heard of, but I got no relief and I thought I would have ogo through life with an angry, discharging sore on my leg. At last I began the use of S. S. S., and it was but a short time until I naw that the place was improving. I continued it until it removed all the poison from my blood and made a complete and permanent JNO. ELLIS. the sore. 250 Navy Street, Brooklyn, N. Y.

germs and morbid matters which are keeping the ulcer open. It removes every particle of impurity from the circulation and makes this life-stream pure, fresh and health-sustaining. Then as new, rich blood is carried to the place the healing begins, all discharge ceases, the inflammation leaves, new tissue and healthy flesh are formed, and soon the sore or ulcer is well. S. S. S. is the greatest of all blood puri-fiers and finest of tonics, just what is needed in the treatment, and in addi-tion to curing the sore will build up and strengthen every part of the system.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatmont, pronounced it in-curable. Belence has pro-en catarrh to be a constitutional disease and therefore requires constitutional disease and therefore requires that Syrup of Figs and Elixir of Senna is the only remedy of known value, but one of many reasons why it is the best of personal and family laxatives is the fact that it cleanses, sweetens and relieves the internal constitutional disease and therefore requires sweetens and constitutional resument. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Obio, is the only constitutional cure on tre market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucons surfaces of the system. They offer one hundred dollars for any ease it fails to cure.
