CHICAGO, July 21.-The unusual sight of militia to preserve order at the polls was witnessed at Pullman to-day. At bert of the United States Circuit Court the sixth primary district polling place has appointed Edwin McNeill of Portof the Thirty-fourth Ward, located at land, Or., receiver for the defendants in the Pullman engine-house, a fight was the suit of the Farmers' Loan and Trust waged between the factions supporting Company vs. the Oregon Railway and John W. By the de-Union candidate, Robey, was supported by a large crowd of the strikers. The latter claimed that their men were not having fair play, and that Miller had two of three judges and all of the clerks. They placed William BirkhoTat the polls as a challenger, and Alderman Chadwick demurred, claiming that Birkhoff was not a resident of the district. This caused a lively row, and for a time it looked as if the crowd, which had rapidly increased, would clean out the polling looked as if the crowd, which had rapidly increased, would clean out the poling place. The police were notified, and sent a patrol wagon with Lieutenant Bassett and eight officers to the scene. At the same time some one sent for the troops, and two detachments of Company F, First Regiment, were sent on the double quick to the polls. The show of force pre-vented any trouble, and the police drove the crowd back. The result of the elec-ton was the return of the union dele-

gates by a vote of 244 to 104. No more trouble occurred until 4 o'clock, when the laundry girls quit work.

When they left the works they were sur-prised by a demonstrative crowd of from 700 to 1,000 women and children. Several policemen were on hand, and gave them policemen were on hand, and gave them protection. No arrests were made. The police were not accustomed to dealing with a crowd of the feminine gender, and did little more than keep the most turbulent women from seizing hold of the frightened girls. At 5 o'clock fifty Hollanders, who have been employed about the works as lumber shovers and track graders and repairers, left the works for their homes in Roseland. They had a guard of sixteen policemen, commanded by Lieutenant Bassett. Scarcely had they reached home when 100 strikess surrounded them. The police charged the crowd several times with a liberal use of clubs before they disparsed.

About Salmon Hatcheries in Oregon Streams.

IN REPLY TO SENATOR MITCHELL

It is Useless Until the State Will Pass Laws Giving the Fish Real Protection-Does Not Favor a Hatchery on the Columbia River.

WASHINGTON, July 21.-Senator Mitchell has been sending to the Fish Commissioners numerous petitions and requests which he has received from different persons and organizations in Oregon, asking that something be done to propsgate the salmon in Oregon streams. Recently Commissioner McDonald sent to Senator Mitchell a reply to those suggestions in which he points out some of the reasons why efforts to establish sal-

mon hatcheries by the United States dendale Sentinel is so hard up that crim-inal actions cannot be maintained. There is no money either for juries or to board lighted in the Columbia basin a batchery lished in the Columbia basin a hatchery which would turn out 100,000,000 salmon fry each year. The most pertinent por-tions of the reply of the Commissioner

are here given : "Under the present circumstances there is no location on the Columbia river or any of its tributaries where we eggs, much less 100,000,000, unless pos-sibly in the neighborhood of Astoria, where it would be necessary to utilize the fail run of fish for the purpose of obtaining and the the purpose of the time post obtaining eggs. At this place no effective work could be done except by the hearty co-operation of the fishermen and the definite agreement with them in advance State are asked to join the association. An attempt is being made by the Com-missioners of Pierce county to have a wagon road built into the Pacific fores-try reserve. Congressman Doolittle has been telegraphed to assist in securing a \$15,000 Federal appropriation for the purpose. The government money is to be used only upon the work inside the government reserve. This condition will arise on any river where there is any considerable run of salmon sufficient to make it an object to undertake it, and as we can only contemplate the estab-lishment of hatcheries upon rivers where there is a considerable run of salmon, it is evident that at any time, under the State laws of Oregon and Washington as they now stand, the usefulness of the batchery may be entirely destroyed.

hatchery may be entirely destroyed. "I fully realize the urgent necessity of taking proper steps to improve the salmon-fishing of the Columbia river. The preliminary work which would jus-tify expenditure by the general govern-ment must first be done by the States. The season of net-fishing must first be restricted. No net-fishing should be permitted and no obstructions in the way of dama slowed on the tributaries way of dams allowed on the tributaries of the Columbia where the government
