GUESSES.

Tou bring me the words of an old refrain And ask me to make the meaning plain; Three little people who wonder why The world is wide, and the heavens are high.

But how would a guess from each one do? So, Master Harry, and first come you: For the ships on the sea, and the stars in the sky. The world is wide, and the heavens are high.

And what do you think, with your dreamy air. Little Bine Eyes on the cushion there?
For flowers to blossom and birds to fly,
The world is wide, and the heavens are high.

Last and least of the wondering three, Here is wee Freddy, and what says he? To play with marbles and kites to fly, The world is wide, and the heavens are high.

Ah, well, a reason you each have found, So now the riddle to me comes round: And this is the guess I venture why The world is wide, and the heavens are high. Up the great hillside our feet to set

A little farther and farther yet:
To try forever and still to try,
The world is wide, and the heavens are high.

-Kate Putnam Oscood in St. Nicholas.

HAIR DYEING AN ANCIENT ART.

From Cleopatra Down Women Have Resorted to the Dangerous Practice. The art of dyeing the hair is at least

with glints of crimson. More recently—
a useless invalid; today I am a well and
give no better eggs to their owners is belearly man, free from almost every
bright blond hair, as to which there was
a tradition that it had been popular with
the Greek hetairae.

a useless invalid; today I am a well and
give no better eggs to their owners is because the 'old, old story' is repeated in
their case. You demand the 'tale of
brick' of your servants, but you give
than I have since 1884. The rheumatism

his services were monopolized by another class. In our day the popular color is a bright shade of auburn—the blond cendre of the boulevards—and silly girls go through martyrdom to impart that tint to their locks. For the popularity of blond hair the argonaut finds this excuse, that it is rarer than black or brown hair and finer. Everybody knows that the legend of the golden fleece was suggested by the ardor with which Jason and other Greek connoisseurs pursued the blond haired maidens of Colchis.

Almost all hair dyes consist of snlphus and acetate of lead, both of which are injurious to so delicate a plant as human hair. A steady course of either will impair the vitality of the hair papilla and may destroy the medulia altogether. Women who bleach their hair use peroxide of hydrogen, which after a time imparts an unnatural and wiglike luster to the hair. A more dangerous dye still has for its basis nitrate of silver.

When this is used, the hair is first washed with sulphuret of potassium. The nitrate is applied while it is still wet. In all these cases the drug is adulterated with a pigment of the desired color, and the effect for the time is to substitute that color for the natural hue

be his, there has to be considered the case of the elephant that, being "must" -a disease akin to frenzy—is for a time bereft of its senses. It is only the male that suffers from this affliction of insanity, but every male is liable to it some time or other, and unfortunately may be attacked by it without warning of any

Some men of long experience of elephant keeping say that the "must" condition is preceded by premonitory symptoms, and if taken in time may, by diet and treatment, be averted; but, without presuming to contradict those better informed people, I can aver that I have known some of them to be taken by surprise by the sudden "musting" of elephants under their own immediate super-

Some elephants become demons of cruelty when "must," as, for example, a commissariat elephant that, during my time in Oudh, broke away from the from Dr. Williams' Medicine Co. Some elephants become demons of Lucknow lines and went over a considerable tract of country, killing men, women and children wherever it found an opportunity of doing so.—Blackwood's Magazine.

Yowels In the Hawalian Tongue. The Hawaiian language is composed mainly of vowels and a few consopants put in to vary the monotony. And the beauty of the system is that there is no waste. Every vowel is pronounced. For instance, when the American eye winks at the appearance of the simple word "naanao," the glib native rolls out the five syllables with neatness and dispatch. This means "enlighten." Double vowels are very frequent, but never a diphthong. Three vowels are not uncommon, and, as above, four and sometimes more are found unseparated by consonants. In the mouth of the uneducated native the language is apt to be explosive, but the higher classes speak it with a fluent grace that surpasses the French or the Italian. In sound it somewhat resembles the general flow of the continental European languages, for the vowels all have the French quality, and the accents are not dissimilar.-Washington Star.

MIRACLE IN MISSOURI

THE ACHIEVEMENTS OF MEDICAL SCIENCE FAR MORE WONDER-FUL THAN THE MAGIC OF THE EAST.

The Remarkable Experience of Postmaster Woodson of Panama, Mo. -For Ten Years a Cripple-To-day

rom the Kansas City Times.]

Vernon counties has been Mark M. Progressive Farmer: Woodson, now Postmaster at Panama and brother of ex-State Inspector of Mines C. C. Woodson of this city. The people of Rich Hill, where he formerly resided, and of his present home remember well the bent form, misshapen almost from the semblance of may, which has painfully bowed its head half as old as the time of Christ. It was by resorting to such aids to beauty that Cleopatra tried to capture Cæsar. All through history ladies of fashion have tried to improve upon nature by artificially coloring that which St. Paul tells us is their glory.

In the heyday of Venice the facile In the heyday of Venice In the heavy butt of the eggs being influenced by the food of the hens is a mere whim, since it is a well-known fact that the eggs of fowls well-known fact that the eggs being influenced by the food of the hens is a mere whim, since it is a well-known fact that the eggs of fowls well-known fact that the eggs being influenced by the food of the eggs of fowls well-known fact that the eggs to earth and labored snail-like across the cooking purposes even. There is no use walks season after season, and when one in saying that the idea of the quality of

bright blond hair, as to which there was a tradition that it had been popular with the Greek hetairae.

Blond heads blocked the thoroughfares, and young ladies of good repute did not disdain to employ the dyer until his services were monopolized by another class. In our day, the given that I have since 1884. The rheumatism them no straw to make them with. Curd hardly comes under the head of milk, and there is little danger of having it in large quantities to offer to your fowls. It contains all the best and most nutribules. In our day, the given the aims the property of the milk without its contains all the best and most nutribules. In our day, the repulse colories are the property of the milk without its contains all the best and most nutribules. only to get about on crutches for five years, the ailment having settled in the joint. Despite constant treatment of the most eminent physicians the rheumatism grew worse, and for the last four years I have been compelled to go about bent half toward the ground. In the winter of 1890-91, after the rheumatism had settled into its most chronic form, I went to Kansas City upon advice of my brother, and for six weeks I was treated in one of the largest and best known dispensaries of that city, but without the slightest improvement. Before I came home I secured a strong galvanic in one of the largest and best known dispensaries of that city, but without the slightest improvement. Before I came home I secured a strong galvanic battery; this I used for months with the same result. In August, 1892, I went to St. Louis, and there conferred with the widely known Dr. Mudd ferred with the widely known Dr. Mudd of hospital practice fame and Dr. Kale of the city hospital. None of them would take my case with any hope of affording me more than temporary relief, and so I came home, weak, doubled with pain, helpless and despondent.

"About this time my attention was called to the account of a remarkable cure by Dr. Williams' Pink Pills for Pale People of locomotor ataxia, rheumatism and paralysis. I ordered some of the

and paralysis. I ordered some of the pills as an experiment. When I began to take them the rheumatism had developed into a phase of paralysis; my leg from the thigh down was cold all the time and could not be kept warm. In a short time the pills were gone, and so short time the pills were gone, and so ward rush of prices better than any other farm crop. It is the universal diet of the duties of my office, to get about as a well and strong man. I was free from pain and I could enjoy a sound and restful night's sleep, something I had not known for ten years. To-day am practically, and I firmly believe, permanently cured of my terrible and agonizing allows. When we present the elephant in possession of such intellectual gifts as may be his there has to be considered than any other farm crop. It is the universal diet of the race.

Burdock is easily destroyed by cutting below the surface, or by mowing when in bloom and burning the tops upon the ground when dry.

Do not settle in a community devoid of public spirit, where there is no attempt at adornment of the highways.

To verify the story beyond all question of doubt Mr. Woodson made the following affidavit:
STATE OF MISSOURI, 88.

STATE OF MISSOURI,
COUNTY OF BATES,
I, M. M. Woodson, being duly sworn on my oath, state that the following statements are true and correct as I verily believe. M. M. Woodson.
Subscribed and sworn to before me this 3d day of March, 1894.
JOHN D. MOORE, Notary Public.
Dr. Williams' Pink Pills for Pale People are manufactured by the Dr. Williams' Medicine Company, Schenectady, N. Y., and are sold only in boxes bearing the firm's trade mark and wrapper, at 50 cents a box or six boxes for \$2.50. Bear in mind that Dr. Williams' Pink Pills are never sold in bulk or by the dozen or hundred, and any dealer who offers substitutes in this form is trying to defraud you and should be

Thinning Them Out.

A new device for plucking strangers has been invented by the keeper of a big Clark street restaurant. He didn't want to frighten regular customers away by raising prices on the bill of fare, and yet felt that it was a shame to be bel boarding house keepers, saloons and ho tels in overcharging. Yesterday a bright idea struck him and he promptly put it in operation. A waiter gave the snap away. "I've eaten there for six months," said a well known merchant, "and seldom had cause for complaint. Last night I ordered a sirloin steak, as I had often done before. It was much thinner than usual, but I was not particularly hungry and did not complain. This morning I was served with a still thinner one and kicked. Then the waiter told me the steaks were all being cut thinner this week because so many strangers were in town, and the boss wanted to get more for meals without driving away the regulars. It's the same way everywhere else. The pies are smaller; so are the

An Objection. Willy—I hate these four ring circuses,
Mamma—Why, Willy?
Willy—Because they use up the circus too
soon. If they had only one ring, the circus
would be four times as long.—Puck.

FOR POULTERERS.

Poultry-Raising Has Been Reduced to a Science.

THE PROPER DIET FOR HENS

Entirely Too Much of the Various Farm Products Put Upon the Markets Really Unfit for Human Food and Detrimental to Health.

So much has been said and written o' late years in regard to the care of poultry that it would seem that the industry might now be reduced to a science. Entirely too much of the various farm products put upon the markets are really unfit for human food, and are detrimental to health, because they have not been produced in harmony with science The people of Rich Hill, Mo., and and the natural law. No other marketvicinity have recently been startled by able product shows this more than the a seeming miracle of healing. For years quality of poultry found in the markets. one of the best known men in Bates and We quote the following item from the

In the heyday of Venice the facile beauties of the city of the lagoons dyed their hair a red, to which Titian was not ashamed to affix his name.

The belle of belles in that day had red hair—not bright red, but a dull red—torments of the damned and have been torments of

FARM POINTERS.

Do not wait till the grass is woody efore cutting for hay. If we rob our fields of their fertility why should we complain if they fail to afford us a support?

Wide tires, with axles of different lengths, on heavy wagons would be a great help to road keeping. Many fail to secure a good meadow for no other reason than that sufficient

seed is not sown at the start.

Peas are good for orchard. They are the king of the leguminous plants which put nitrogen into available form for plant food. The potato holds its own in the down-

of public spirit, where there is no at-tempt at adornment of the homes or improvement of the highways.

A man ought to remember that his children must and will mix with the society which surrounds them and they cannot help being influenced by it.

The United States irrigates about 4,000,000 acres of land; Europe about 5,000,000 and Egypt about 6,000,000; while in India the little canals make

fruitful 35,000,000 acres. Corn has never been found in a ver wild state, and must have been culti-vated by the Indians for many centu-ries, and we have good reasons to believe

it was greatly improved by them. The principal objection to sowing timothy with clover is that timothy ripens later, and as a consequence either the timothy must be cut too green or the clover be allowed to get too ripe.

Horses are cheap now, and farm labor is comparatively dear. There is no use in hiring a man to work with horses and then give him a team that will need to rest at every bout with the plow or

To preserve the fertility of the soil, says the National Stockman and Farmer, three methods are being practiced by our best farmers, viz: Rotation of crops, application of commercial fertilizers and the use of barnyard manure.

Lice the Great Enemy.

Lice are the bottom of three-fourths of the losses sustained by poultry keepers, and this is the time of the year when they multiply exceedingly unless carefully controlled. Cleanliness is the great remedy. Keep the floors of the great remedy. Keep the floors of the and 30@50c per cental in boxes; whites, houses well covered with dry dust, over 25@50c in sacks and 35@75c in boxes; which should be sprinkled a little plaster every two or three days. Air-slaked lime is a good thing to dust about over the floors and yards. It is claimed to may be counted on to help in this direction. A solution of copperas (blue vitriol) in water, spread over the yards and floors, is also good to prevent infection from gapes and other infections diseases. Powder nests and roosts frequently with tobacco dust. It will keep down the lice. Also spray the roosts down the lice down the li be a preventive of gapes, and we believe may be counted on to help in this di-

Measure of Hay in a Stack The kind of hay has much to do with the weight in the stack. Timothy, be-ing heavy, takes about 500 cubic feet for the ton, mixed hay about 800 feet, clover 700 to 750 feet and red-top hay as much as 800 feet. To get the cubic feet in a round stack take one-third of the girth, round stack take one-third of the girth, which will give the diameter; square this—that is, multiply the figures by themselves; take three-quarters of the product, and multiply this by the average height, all in feet. Then divide by the weight of a ton as given. This mode of estimating is for old hay put last

THE PORTLAND MARKETS.

Wheat Market.

Quotations in the local wheat market are nominally unchanged, as follows: Valley, 80@825c per cental; Walla Walla, 75c per cental.

Produce Market.

FLOUR-Standard brands are quoted as follows: Portland, Salem, Cascadis Walla, \$2.90; Snowflake, \$2.70; graha n, \$2.40; superfine, \$2.25.

CORNMEAL-Prices are higher, owing to the probable failure of the crop in the corn belt.

Oars-Weak at 35@36c per bushel fo white and 33@34c for gray. Rolled oats

white and 33@34c for gray. Rolled oats are quoted as follows: Bags, \$5.75@6.00; barrels, \$6.00@6.25; cases, \$3.75.
MILLSTUFFS — Bran, \$15@17; shorts, \$16@18; ground barley, \$20; chop feed, \$15@16; whole feed barley, \$17 per ton; middlings, \$23@28 per ton; chicken wheat, 65c@\$1 per cental.

HAY—Good, \$10@12 per ton.
BUTTER — Firm. Quotations are as

INTERESTING TO LADIES

It has been generally remarked that no class of articles at the Midwinter Exposition received more attention than the various indispensible, and to the masculine mind, mysterious adjuncts to the toilettes of our fair ladies. Manufacturers from every part of the globe were represented, and the products of America, France, England and Germany and Dayton, \$2.65 per barrel; Walla competed for the honor of the first award at the great Exposition. The points of competition were: freedom irom all injurious or deleterious sub-stances, efficiency in producing the de-sired results expected in a preservative of the complexion, chemical skill in pre-paring and compounding, and finally, elegance of appearance and general style. Upon all these points "Camelline" was awarded highest position, and received the unusual distinction of a special honthe unusual distinction of a special hon-orary diploma of merit, a result not only eminently gratifying to the manu-facturers, Messrs. Wakelee & Co., the manufacturing chemists of San Fran-cisco, but an indorsement of the good judgment of the ladies of the Pacific Coast, who, long ago, pronounced in fa-vor of the superior excellence of "Cam-elline," which may be obtained at any drug store upon the Pacific Coast. drug store upon the Pacific Coast. miss Grawfond.

"Favorite Prescription" is a powerful, invigorating tonic and a soothing and strengthening nervine, purely vegetable, perfectly harmless. It regulates and promotes all the proper functions of womanhood, improves digestion, enriches the blood, dispels aches and pains, brings refreshing sleep, and restores health and vigor. For every "female complaint," it is the only remedy so sure that it can be guaranteed. If it doesn't sure, you have your money back. Both Mistaken.

"Did you speak to me, sir?" said the pas enger on the seat in front, turning stiffly to stare at the passenger who had leaned forward to remark that it looked like rain.
"No, sir," replied the other pleasantly. "I spoke to a gentleman I thought you resem-bled. I see I was mistaken."-Chicago

He (in a spi*it of investigation)—Why don't you marry? She (softly)—Nobody ever asked me to. He—O.

BRACE THE NERVES.

Sedatives and opiates won't do it. These nervines do not make the nerves strong, an ifalling to do this, fall short of producing the ess nitial of their quietude—vigor. And while in extreme cases—and these only—of nervous irritation such drugs may be advisable, their frequent use is highly p-ejudicial to the delicate cranism upon which they act, and in order to renew their quieting effect increased and dangerous doses eventually become necessary. Hostetter's 8 omach Bitters is an efficient substitute for such pecucious drugs. It quiets the nerves by bracing, toning, strengthening them. The connection between weakness of the nervons system and that of the organs of digestion is a strong and sympathetic link. The Bitters by imparting a healthful impains to the digestive and assimilating functions promotes throughout the whole system a vigor in which the nerves come in for a large share. Use the Bitters in malaria, constipation, bilious and kidney trouble.

DROPSY

Tay Gunnua for breakfast

Miss G. F. CRAWFORD, of Liveritors: "For years I suffered in

Manifests itself in hot weather in hives, rimples, bails and other eruptions which distigure the face and cause great annoy-ance. The cure is found in Hood's Sarsa-

sisges, and that is estarth. Hale's Catarrh Curis the only positive cure now known to the medtool fraternity. Catarrh, being a constitutional
decase, requires a constitutional treatment
Hall's Catarrh Cure is taken internally, estindirectly upon the blood and mucous surfaces o
the system, thereby destroying the foundation
of the disease and giving the patient strength
by building up the constitution and assistin,
nature in defing its work. The proprietors have
so much faith in its curative powers that the
offer One Hundred Bollars for any case that falls to cure. Send for list of testimonials. Ad

In Every Detail.

These engines are acknowledged by expert engineers to be worthy of highest commendation for simplicity, high-grade material and superior workmanship. They develop the full actual, horse power, and run without an Electric Spark Battery; the system of ignition is simple, inextensive and reliable.

For pumping outfits for irrigating purposes no better engine can be found on the Pacific Coast. For hoisting outfits for mines they have met with highest approval.

For intermittent powes their economy is un-
