That Shooting Match.

Much excitement was evinced by Hillsboro's admirers of field sports last Tuesday, over the live bird shooting match which took place at the fair grounds between W. E. Martin, of McMinnville, and Paul Kinzel, of Portland. Twenty-five birds were shot at on each side, Mr. Martin bringing down 23 out of 25 and Mr. Kinzel bringing down 21. At last reports, however, the judges had not decided as to who was the winner as it was claimed and conclusively shown that Mr. Martin's shells were overloaded, as to rules. His many friends claim that he had nothing to do with the loading, but that his friends prepared them. Be that as it may, Mr. Kinzel objects, and according to the agreement, he has a right to. The day was a very disagreeable one, a heavy gale blowing at the time the shooting was done, and the success showed splendid marksmanship on both sides. It is thought a match will be arranged between the two gentlemen to come off on the Fourth of July. Everything passed off quietly and the Bethany band was on hand to dispense some of its lively music for the benefit of the visitors and the day is one to be remembered for some time.

LATER.—It is now reported that the judges awarded Kinzel winner.

Progressing Nicely.

The committee appointed at the mass meeting to arrange for a celebration on the Fourth of July is making great headway and that Chairman Huston could not have improved on his selection goes without saying. In the neighborhood of four hundred dollars have already been subscribed and the list is rapidly swelling. Numerous porkers have been signed for and several beehives have been donated. The committee will spare neither time nor effort to make this the grandest and most complete affair in detail ever witnessed in this section, and it is gratifying to know that the whole population of the county is supporting them. Every town and every precinct will be invited to attend, to see the Veterans, breathe patriotism, listen to the orations, hear the music and make us a good sociable visit.

The committee will report next Saturday evening at the court house, and it will be replete with interest. All should attend.

Some Raffles.

Raffles seems to be the order of the day John Bailey is chiefly the cause of this condition, and the way he started it is a novelty. Having a bicycle to dispose of, he concluded to sell 100 chances, ranging from one to one hundred, each ticket being paid for at the rate of one cent for each unit in the number thereon. Ed. Berst drew the wheel. J. H. Adkins next raffled his "bike" on the same plan, Michael Kelly winning the coveted wheel. What with the old and his recently acquired animal, Mike is about as happy as a boy over his first pair of suspenders.

Little Eddie Morton while at School Tuesday sustained quite an accident at recess. THE COINAGE OF SILVER.

The free and unlimited coinage of silver, the product of American mines, at the old ratio of 16 of silver to 1 of gold, is the only solution of and remedy for the disturbed and unsatisfactory condition of trade, manufacture and general business of the country. The surreptitious act of 1873, divorcing silver and gold in our monetary system, was a crime of untold magnitude. It was the rankest kind of class legislation in favor of the wealthy against the producers of wealth, and hostile to the prosperity of the United States. It was an act of treason because done at the instance of a European syndicate and for bribe money, "giving aid and comfort to our country's enemies." To shield the guilty parties, the well authenticated facts, often published, have been vigorously denied.

The Enquirer will continue to expose this unpardonable crime until right and justice are done the people by the full restoration of silver to its old companionship with gold. We need the assistance of the people in disseminating the truth, to which end we invite all in your selection of papers for the coming season to include the Enquirer, that costs only \$1.00 a year. (Issued twice a week.)

Something New.

Hillsboro is still keeping up the record in the way of producing inventions. W. H. Sliger has invented an apparatus to be used in city fire departments, which, when completed, will doubtless make a revolution in that line. It is in the shape of a huge tank, shaped somewhat like a common oiler at the base, having at the top a series of telescopic slides. This machine will stand great pressure and when connected with a hydrant the water will give force enough to raise the slides, with a carriage on top, to a height of 100 or more feet. The apparatus will be placed upon a truck, and when put alongside a building, a hose connection running to the top of the carriage, as extended will enable people to get water into the 3rd or 4th story.

The whole contrivance will weigh but in the neighborhood of two tons when ready for use, and one team will easily move it on a good street. The model is sufficient evidence that Mr. Sliger has genius which will assert itself in a creditable manner, and his many friends wish the gentleman every success.

The congregation of this place was very agreeably surprised Sunday morning by the arrival of a very beautiful present in the form of a handsome organ. It seems as though none of the parishioners knew anything connected with it and THE ARGUS correspondent could not ascertain the donating person. It was brought there and that was all they knew. It will occupy the honored position of the old one which has given twenty years of faithful service. The old one will now be used in the school room. The new one is of the Estey manufacture and a sweeter toned instrument it would be difficult to find. Thanks to the donor.

Prof. Greene, of Forest Grove, will act as organist next Sunday at high mass.

Agitate the school house question.

BLOOD SYRUP.

Is your blood at all out of order, or in the least degree contaminated with any poisonous ingredients? Such a thing is always liable to happen to any one. The blood is constantly subjected to insidious attacks, and to maintain its purity you must be ever on your guard. A blood tonic is as necessary to the system as a tonic for the nerves. To neglect the precaution of its use is to incur the risk of the blood becoming so far contaminated that the general health will become seriously if not dangerously impaired. Blood tells. Make your blood always tell a story of good health by using our Fruitlax Blood Syrup. We also have Oregon Blood Purifier and Syrup of Figs, at Hillsboro Pharmacy.
