## FIRE DESTROYS TEXAS PACIFIC RAILWAY PROPERTY

Marshall, Texas, Oct. 1.—Fire today destroyed the coach and paint shops, the general storage building and several smaller structures of the Texas Pacific railway here, with a loss estimated at \$700,000. The flames ate their way through a section a quarter of a mile square, consuming numerous passenger and box cars.

Train will stop on flag at any point between Grants Pass and Wilderville. Passenger service every day in the week.

## MAY DEMAND RECALL OF ATTACHE VON PAPAN

Washington, Oct. 1.—Strong indications in government circles today pointed to a request for the recall of Military Attache von Papan of the German embassy when Secretary Lansing meets Ambassador von Bernstorff in New York Tuesday.

A conference over the submarine controversy will also be held. It was learned today that von Papan gave American Correspondent Archibald two cipher reports, addressed to the German war office.

These are now in the state department and code experts are trying to decipher them. Von Papan is understood to be returning from the west to confer with Ambassador von Bernstorff, instead of going to Mexico, as San Francisco reports recently indicated he intended to do.

## The Thriftiest Person.

A supreme example of thrift was the Rev. Robert Walker—the "Wonderful Walker." For the greater part of his life Walker was curate of Leather-walke, Cumberland, commencing there with a stipend of £5 per annum. His wife brought him a fortune of £40, and on the interest of this and his £5 annually Walker reared a family of eight. When after twenty years his stipend was raised to £17 10s. a year he contrived to save. And not only did the family "live well, though plainly," but, as he declared with justifiable pride, his children never lacked any of the necessities of life and were given an education to fit them for any rank of society, the boys, indeed, going to one of the universities.—London Standard

## Sand Swept Asia.

In the arid lands of central Asia the air is reported as often laden with fine detritus, which drifts like snow around conspicuous objects and tends to bury them in a dust drift. Even when there is no apparent wind the air is described as thick with fine dust, and a yellow sediment covers everything. In Khotan this dust sometimes so obscures the sun that at midday one cannot see to read fine print without a lamp.

## Where Scotland Joins England.

The width of the island of Great Britain at the point of contact between England and Scotland is about sixty miles. The river Tweed divides the two countries for a few miles at the east, and the Cheviot hills serve as a boundary for the greater part of the rest of the distance.

Trespass notices, printed on cloth, at the Courier office.

## FRENCH OFFICIAL STATEMENT NOTES ALLIES' PROGRESS

Paris, Oct. 1.—French forces have made further progress in their battle for the important Vimy heights, the official communique said today.

Germans dealing heavy counter-strikes in the Artois and Champagne regions have been repulsed, said the statement.

"East and southeast of Neuville two German attacks were repulsed. The first was directed against our fortified works in the Gionnay forest; the second south of Hill 191, the statement claimed.

"North of the Aisne, near Souplier, the enemy delivered a violent demonstration of cannonading and musketry, not followed by infantry attack.

"In the Champagne we abruptly arrested by our hot fire a counter-attack north-west of Massiges. During last night's advance north of Massiges we took 280 prisoners, including six officers."

## LAST DAY OF ANNUAL G. A. R. ENCAMPMENT

Washington, Oct. 1.—The 49th annual encampment of the "Boys in Blue" came to an end here today with election of officers.

Four candidates—Elias H. Montfort, of Cincinnati; Frank O. Cole, of Jersey City; W. J. Patterson, of Pittsburgh, and Captain Patrick Coney, of Topeka, Kas.—were in the field to succeed David Palmer as commander-in-chief. Montfort appeared to be leading.

A heavy rain marred the final reunions. Thousands of visitors already have left the city for their homes.

Exercises attendant upon President Wilson's laying the corner stone of the new Arlington Memorial amphitheater at Arlington National cemetery were transferred indoors except for the actual fixing of the stone.

Thousands of tottering veterans and other guests crowded the White House last night to shake hands with the president, though the program contemplated only a small reception to a few affiliated organizations and G. A. R. leaders.

## FURTHER INVENTIONS IN WIRELESS TELEPHONY

San Francisco, Oct. 1.—With wireless telephony over enormous distances an established fact, as evidenced yesterday by communication between Honolulu and Arlington, Va., engineers of the American Telephone & Telegraph company declared that further improvements of the invention would be prosecuted with vigor.

John J. Carty, chief engineer, to whom credit is due for the success of the invention, today declared trans-Pacific communication by the human voice is practically assured, and that before long it will be possible to talk from this coast to Oriental centers.

"Should the Arlington station be duplicated at Seattle, he said, it is reasonable to suppose that the radius of transmission from there would be equal to the radius of transmission from Arlington, Yokohama and Tokio are within a radius of 4900 miles from Seattle."

## S. P. RUSHES CARS TO WILLAMETTE VALLEY

Salem, Oct. 1.—Following complaints of the Oregon Public Service commission that the railroad was falling to provide sufficient equipment to care for lumber shipments to California, the Southern Pacific was rushing 400 cars to Willamette valley points today. A car shortage is said to have been crippling the lumber industry.

## CARNEGIE AND JOHN D. NOT NEAR POORHOUSE YET

New York, Oct. 1.—Andrew Carnegie and John D. Rockefeller will not go over the hills to the poorhouse just yet.

They both admitted they own \$5,000,000 worth of personal property in the city, so they went up at the head of the class of rich on the 1914 tax list, which shows a total of \$88,000,000 personally here.

Mildred Bliss ranked next to them with \$4,000,000. The city's tentative real estate estimate stands at nearly \$8,000,000,000.

Envelops, 5c per package, 20c per 100.—Courier Office.

## KERBY

A good rain last week settled the dust for a while and made the smoke clear away, giving the valley a pleasant and healthful atmosphere.

Another social picnic was held at the grove on Sunday, but on account of the threatening look in the sky was not so well attended as the former ones. Yet those who attended report a pleasant time.

Professor Collins, former city superintendent of the Medford schools, paid our town and valley a visit the early part of the week. Professor Collins is now engaged in selling insurance, which takes him out in the open air and gives him the advantage of an outdoor life, which is helpful after many years of confinement in the school room.

Richard Sowell, of the upper Illinois valley, had the misfortune on Wednesday to have his dwelling and contents burned. The report reached Kerby that scarcely anything was saved, the fire not being discovered until the roof was almost ready to fall in. This is a sad misfortune, especially just as the wet weather of the winter season is just about ready to set in. Fortunately there was no loss of life, although a very narrow escape is reported.

Mr. and Mrs. Coulter, relatives of J. F. Stith, are visiting in Kerby this week.

Mr. Shrock, who was stricken with paralysis some weeks ago, is still in an almost helpless condition.

Mr. Johnson, who was reported on the sick list a few weeks ago, is somewhat improved, but is unable to move about as formerly. His accustomed smile is not seen on the street so frequently.

County Superintendent Savage, accompanied by Mr. Pitman, of the state normal, paid the schools of the valley a visit this week. They visited the Kerby school on Wednesday afternoon, when Mr. Pitman gave a talk to the school which it is hoped they will remember. His address, "What Shall I Do; Why Shall I Do It, and How Shall I Do It?" was thoughtful, instructive and full of interest to all. The small children as well as the larger ones could understand and appreciate it.

A number of patrons and friends of the school attended the address at the school house, and as Mr. Pitman was to remain in town over night, he was prevailed upon to give a talk to the public in the evening. The time for announcement was short, but a good and appreciative audience greeted him in the evening at the church. For an hour Mr. Pitman held the attention of his audience and talked good common sense all the time. More of these talks over the country would do good. Kerby people hope to have the pleasure of listening to Mr. Pitman again, and if he does return he may expect an appreciative audience.

## LELAND

Wednesday afternoon, at the home of her parents, Mr. and Mrs. Louis Orme, occurred the death of Mrs. Cora B. Alderson. For the past two years Mrs. Alderson was afflicted with that dread disease, tuberculosis, and although everything was done for her that human skill and loving devotion could do, the disease could not be cured. Nine years ago last June Cora Orme and John Alderson were married, and their home has been in and around Leland. During these years the deceased and her husband have made a host of warm friends, who deplore her death and extend to the grief-stricken husband and relatives their sincere sympathy. Many loving tributes of flowers show the esteem in which Mrs. Alderson was held. The funeral services were held Friday afternoon, in Grants Pass, and the body laid to rest in the Odd Fellows cemetery. Many of the Leland friends attended the funeral.

Agent Beuner and wife are visiting in Oakland this week. Rev. W. F. Gloeckner, Presbyterian Sunday school missionary, was in Leland Thursday. County Surveyor Hall and wife and Mrs. Courtney, of Grants Pass, autoed to Leland Monday, the ladies sightseeing while Mr. Hall established the grade for the road up Leland hill.

Jim Fretwell, for many years the efficient signal service man for the Southern Pacific at this point, resigned his position Wednesday.

Mrs. Geo. Light is on the sick list this week.

John Anderson, of Placer, came back from the Pass Thursday night. Jos. Moss, the Ford auto man, was in Leland Thursday, and on his return trip was accompanied by Walter Weekler, of the Queen mine.

Seven teams this week are hauling

high grade copper ore from the Queen mine. The Queen is proving itself to be a real mine, with a payroll that looks good to this community.

"Crook" Epperly, of Placer, will take an auto load to the venison barbecue at Rogue River Saturday.

## PORTLAND MARKETS

## WASHINGTON DAY IS CELEBRATED AT EXPOSITION

(By United Press Leased Wire.)  
San Francisco, Oct. 1.—In the midst of pomp and military ceremony, Governor Lister of Washington today was the central figure in the second day of Washington state's three-day celebration, All-Washington day, at the Panama exposition.

In addition to an escort of United States marines and cavalry, from his hotel to the exposition grounds, the Washington executive was further honored—he was initiated into the Blackfoot tribe. He was put through a genuine Indian tribal ceremony and the title of Chief Eagle Palefeathers conferred upon him.

After concerts by the Firemen's and Police bands of Seattle, the formal exercises of all-Washington day took place in front of the Washington state pavilion, with A. J. Ritchie, representing Mayor Fawcett of Tacoma and the Tacoma Commercial and Rotary clubs, presiding. Governor Lister planted a Douglas fir in the federal grove and was presented with a box of jewels from the Tower of Jewels by President Moore of the exposition.

Walla Walla celebrated yesterday with real Indians in full war regalia and big red apples as the predominant features. Twenty thousand Jonathan apples were distributed by the Walla Walla folks.

Herman Ross, of Seattle, presided over the formal ceremonies and John G. Kelly, a Walla Walla publisher, for the city received an exposition bronze medal.

Washington's celebration will end tomorrow with an observance of "Seattle and Tacoma day."

## CONSERVATIVES WOULD STOP STOCK ADVANCE

New York, Oct. 1.—The conservative element in Wall street was reported today to be arranging to stop the bulls for fear that tales of "millionaires made overnight," coupled with four successive "million share" days in the market, may result in an era of reckless speculation which would ultimately end in a sudden slump. The word has been quietly passed that the banks would demand a larger collateral if the market does not act more conservatively than it has in its recent days of feverish activity.

The quick success of the gigantic loan is recognized as a contributing influence in booming the market. Subscriptions are reported already to total more than \$400,000,000. The recent activity on the street has sent prices of seats on the exchange soaring. One seat was sold for \$62,000, or \$2,000 above the last sale.

## WANTS \$100,000 OF JOHN WESLEY HILL'S CASH

New York, Oct. 1.—Charging breach of promise, Miss Lucille Covington, of Alpena, Mich., today filed suit in the federal supreme court against John Wesley Hill, noted pastor and lecturer. She asked \$100,000 damages, claiming he proposed to her in Chicago in 1910, and that upon his solicitation she gave up managership of the Lyceum bureau. Hill's attorney said the charges were absurd, and pointed out that Hill was married at the time.
